But when her best friend goes MIA, Eve must gather together the broken threads of her life in order to search for her. When Eve’s grandmother, Boop, a retiree dripping with Southern charm, finds out about the trip, she—desperate to see her sister, and also hoping to alleviate Eve’s growing depression—hijacks her granddaughter’s road trip. Boop knows from experience that healing Eve will require more than flirting lessons and a Garlic Festival makeover. Nevertheless, Boop is frustrated when her feeble efforts yield the same failure that her sulfur-laced sip from the Fountain of Youth wrought on her age. She knows that sharing the secret that’s haunted her for sixty years might be the one thing that will lessen Eve’s growing depression—but she also fears that if she reveals it, she’ll lose her family and her own hard-won happiness. Boop and Eve’s journey through the heart of Dixie is an unforgettable love story between a grandmother and her granddaughter.

She Murdered Me with Science David Boop,2017-04-19 “A wonderful alternative-history thriller [that] deftly weaves together influences like Phillip K. Dick and Raymond Chandler.” –Mike Stackpole, New York Times–bestselling author of *I, Jedi* My name is Noel Glass. I once was a respected scientist and madly in love. All that ended with a deadly experiment that cost me the life of my fiancée. It's 1953 and I'm a detective working the streets of Industry City. I don't rely on instinct; science is my game. The cases I get, and the booze I drink, keep oblivion just a step away. That is, until some rich recluse walks in and tells me that accident from all those years ago was a frame job, and I was meant to take the fall. Now I have to clear my name . . . like that's easy. Everyone's keeping secrets. Who can I trust? Even my muscle-bound bodyguard can't keep the hit men, spies—or my own government—from trying to put me six-feet under. You see, this secret organization believes I know something and wants to keep me quiet. All I do know is they're aiming to remake the world into their own twisted image using a device I created. They've already killed one world leader, and President Eisenhower could be next. God, I could use a shot of bourbon and some answers, but neither comes cheap these days. “Boop goes beyond the usual suspects when the conspiracy is uncovered for an unusual alternative history twist.” –The Denver Post “Enthusiastically recommended for fantasy and science fiction enthusiasts.” –Midwest Book Review
