**Corporate Diplomacy** Witold J. Henisz, 2017-09-08 Managers of multinational organizations are struggling to win the strategic competition for the hearts and minds of external stakeholders. These stakeholders differ fundamentally in their worldview, their understanding of the market economy and their aspirations and fears for the future. Their collective opinions of managers and corporations will shape the competitive landscape of the global economy and have serious consequences for businesses that fail to meet their expectations. This important new book argues that the strategic management of relationships with external stakeholders – what the author calls Corporate Diplomacy – is not just canny PR, but creates real and lasting business value. Using a mix of colourful examples, practically relevant tools and considered perspectives, the book hones in on a fundamental challenge that managers of multinational corporations face as they strive to compete in the 21st century. As falling communication costs shrink, the distance between external stakeholders and shareholder value is increasingly created and protected through a strategic integration of the external stakeholder facing functions. These include government affairs, stakeholder relations, sustainability, enterprise risk management, community relations and corporate communications. Through such integration, the place where business, politics and society intersect need not be a source of nasty surprises or unexpected expenses. Most of the firms profiled in the book are now at the frontier of corporate diplomacy. But they didn't start there. Many of them were motivated by past failings. They fell into conflicts with critical stakeholders – politicians, communities, NGO staffers, or activists – and they suffered. They experienced delays or disruptions to their operations, higher costs, angry customers, or thwarted attempts at expansion. Eventually, the managers of these companies developed smarter strategies for stakeholder engagement. They became corporate diplomats. The book draws on their experiences to take the reader to the forefront of stakeholder engagement and to highlight the six elements of corporate diplomacy.

**Diplomacia corporativa** Manuel Alejandro Egea Medrano,María Concepción Parra Meroño,Gonzalo Wandosell Fernández de Bobadilla,2017-09-07 El presente libro nace con el objetivo de ser el primer manual en castellano sobre diplomacia corporativa, y de ahí que su primer objetivo sea, sobre todo, trazar los cimientos intelectuales de este concepto, al tiempo que realizar una evaluación crítica de su papel en los discursos y prácticas empresariales contemporáneas. En la obra se pone de relieve la transformación de la diplomacia tal y como la entendemos debido a la globalización y se ofrece un marco conceptual en torno a la diplomacia corporativa.

**Building Common Interests in the Arctic Ocean with Global Inclusion** Paul Arthur Berkman,Alexander N. Vylegzhanin,Oran R. Young,David A. Balton,Ole Rasmus Øvretveit,2022-05-07 This book contains an inclusive compilation of perspectives about the Arctic Ocean with contributions that extend from Indigenous residents and early career scientists to Foreign Ministers, involving perspectives across the spectrum of subnational-national-international jurisdictions. The Arctic Ocean is being transformed with global climate warming into a seasonally ice-free sea, creating challenges as well as opportunities that operate short-to-long term, underscoring the necessity to make informed decisions across a continuum of urgencies from security to sustainability time scales. The Arctic Ocean offers a case study with lessons that are especially profound at this moment when humankind is exposed to a pandemic, awakening a common interest in survival across our globally-interconnected civilization unlike any period since the Second World War. This second volume in the Informed Decisionmaking for Sustainability series reveals that building global inclusion involves common interests to address changes effectively “for the benefit of all on Earth across generations.”
