Bouncing Back: From National Joke to Grey Cup Champs Paul Woods, 2013 For three decades the Toronto Argonauts were a national joke: a team that not only lost most of the time, but usually did so in embarrassing fashion. The franchise bottomed out in 1981 with just two wins. But 1981 was not a complete disaster because, even while finding new and more creative ways to lose, the Argos were assembling many of the key components that helped the franchise return to excitement in 1982 and Grey Cup glory in 1983. Thirty years after that long-awaited triumph, Bouncing Back takes readers on a wild ride through the three eventful and mesmerizing years that culminated in the 1983 Grey Cup, from crushing humiliations through sensational resurgence and finally the ultimate triumph.

Quirk Hannah Holmes, 2011-02-22 Who are you? It's the most fundamental of human questions. Are you the type of person who tilts at windmills, or the one who prefers to view them from the comfort of an air-conditioned motorcoach? Our personalities are endlessly fascinating—not just to ourselves but also to our spouses, our parents, our children, our co-workers, our neighbors. As a highly social species, humans have to navigate

among an astonishing variety of personalities. But how did all these different permutations come about? And what purpose do they serve? With her trademark wit and sly humor, Hannah Holmes takes readers into the amazing world of personality and modern brain science. Using the Five Factor Model, which slices temperaments into the major factors (Extraversion, Neuroticism, Agreeableness, Conscientiousness, and Openness) and minor facets (such as impulsive, artistic, or cautious), Holmes demonstrates how our genes and brains dictate which factors and facets each of us displays. Are you a Nervous Nelly? Your amygdala is probably calling the shots. Hyperactive Hal? It's all about the dopamine. Each facet took root deep in the evolution of life on Earth, with Nature allowing enough personal variation to see a species through good times and bad. Just as there are introverted and extroverted people, there are introverted and extroverted mice, and even starfish. In fact, the personality genes we share with mice make them invaluable models for the study of disorders like depression, schizophrenia, and anxiety. Thus it is deep and ancient biases that guide your dealings with a very modern world. Your personality helps to determine the political party you support, the car you drive, the way you eat M&Ms, and the likelihood that you'll cheat on your spouse. Drawing on data from top research laboratories, the lives of her eccentric friends, the conflicts that plague her own household, and even the habits of her two pet mice, Hannah Holmes summarizes the factors that shape you. And what she proves is that it does take all kinds. Even the most irksome and trying personality you've ever encountered contributes to the diversity of our species. And diversity is the key to our survival.

The Hard Bounce Todd Robinson, 2012-12-18 The debut novel from the creator of *Thuglit*. Boo Malone lost everything when he was sent to St. Gabriel's Home for Boys. There, he picked up a few key survival skills; a wee bit of an anger management problem; and his best friend for life, Junior. Now adults, Boo and Junior have a combined weight of 470 pounds (mostly Boo's), about ten grand in tattoos (mostly Junior's), and a talent for wisecracking banter. Together, they provide security for *The Cellar*, a Boston nightclub where the bartender Audrey doles out hugs and scoldings for her favorite misfits, and the night porter, Luke, expects them to watch their language. At last Boo has found a family. But when Boo and Junior are hired to find Cassandra, a well-to-do runaway slumming among the authority-

shy street kids, Boo sees in the girl his own long-lost younger sister. And as the case deepens with evidence that Cassie is being sexually exploited, Boo's blind desire for justice begins to push his surrogate family's loyalty to the breaking point. Cassie's life depends on Boo's determination to see the case through, but that same determination just might finally drive him and Junior apart. What's looking like an easy payday is turning into a hard bounce--for everyone.
