Mark Ali, Scott Grimm, Adams Bodomo

Against Landlords Nick Bano, 2024-03-26 Housing means prosperity and security for some; poverty, precarity and sickness for others. More people live in private rented accommodation than ever before, and rents rise without apparent reason. Homes are smaller every year, and nearly 20 per cent of tenants live in hazardous conditions. Homelessness is at a new high. Yet the government's only solution is to promote homeownership. *Against Landlords* shows that this crisis is not the product of happenstance or political incompetence. Government policy has intentionally split British citizens into homeowners and renters, two classes set on very different financial paths. In the UK, one out of every twenty-one adults is a landlord, and it is this group, and those who aspire to join it, represented by the political class. In his radical new interpretation of the housing crisis, lawyer Nick Bano explains how this environment set the conditions for the Grenfell Tower fire and how it means a life of anxiety for the nation's renters. It is a problem that stretches far beyond London and one inherently racist in nature. Building more housing is not the solution. It is firstly a problem of the law, Bano argues, and reforms must sweep away the landlordism at the heart of the housing crisis and British political life.

A dictionary and grammatical outline of Chakali Jonathan Brindle, 2017-07-03 This book is

the first comprehensive monograph dedicated to Chakali, a Southwestern Grusi language spoken by less than 3500 people in northwest Ghana. The dictionary offers a consistent description of word meaning and provides the basis for future research in the linguistic area. It is also designed to provide an inventory of correspondence with English usage in a reversal index. The concepts used in the dictionary are explained in a grammar outline, which is of interest to specialists in Gur and Grusi linguistics, as well as any language researchers working in this part of the world.

A grammar of Moloko Dianne Friesen, 2017-07-11 This grammar provides the first comprehensive grammatical description of Moloko, a Chadic language spoken by about 10,000 speakers in northern Cameroon. The grammar was developed from hours and years that the authors spent at friends' houses hearing and recording stories, hours spent listening to the tapes and transcribing the stories, then translating them and studying the language through them. Time was spent together and with others speaking the language and talking about it, translating resources and talking to Moloko people about them. Grammar and phonology discoveries were made in the office, in the fields while working, and at gatherings. In the process, the four authors have become more and more passionate about the Moloko language and are eager to share their knowledge about it with others. Intriguing phonological aspects of Moloko include the fact that words have a consonantal skeleton and only one underlying vowel (but with ten phonetic variants). The simplicity of the vowel system contrasts with the complexity of the verb word, which can include information (in addition to the verbal idea) about subject, direct object (semantic Theme), indirect object (recipient or beneficiary), direction, location, aspect (Imperfective and Perfective), mood (indicative, irrealis, iterative), and Perfect aspect. Some of the fascinating aspects about the grammar of Moloko include transitivity issues, question formation,

presupposition, and the absence of simple adjectives as a grammatical class. Most verbs are not inherently transitive or intransitive, but rather the semantics is tied to the number and type of core grammatical relations in a clause. Morphologically, two types of verb pronominals indicate two kinds of direct object; both are found in ditransitive clauses. Noun incorporation of special 'body-part' nouns in some verbs adds another grammatical argument and changes the lexical characteristics of the verb. Clauses of zero transitivity can occur in main clauses due to the use of dependent verb forms and ideophones. Question formation is interesting in that the interrogative pronoun is clause-final for most constructions. The clause will sometimes be reconfigured so that the interrogative pronoun can be clause-final. Expectation is a foundational pillar for Moloko grammar. Three types of irrealis mood relate to speaker's expectation concerning the accomplishment of an event. Clauses are organised around the concept of presupposition, through the use of the *na*-construction. Known or expected elements are marked with the *na* particle. There are no simple adjectives in Moloko; all adjectives are derived from nouns. The authors invite others to further explore the intricacies of the phonology and grammar of this intriguing language.

The Ik language Terrill B. Schrock, 2017-03-13 This book is a dictionary and grammar sketch of Ik, one of the three Kuliak (Rub) languages spoken in the beautiful Karamoja region of northeastern Uganda. It is the lexicographic sequel to *A grammar of Ik (Icé-tód): Northeast Uganda's last thriving Kuliak language* (Schrock 2014). The present volume includes an Ik-English dictionary with roughly 8,700 entries, followed by a reversed English-Ik index. These two main sections are then supplemented with an outline of Ik grammar that is comprehensive in its coverage of topics and written in a simple style, using standard linguistic terminology in a way that is accessible to interested non-linguists as well. This book may prove useful for language preservation and development among

the Ik people, as a reference tool for non-Ik learners of the language, and as a source of data, not only for the comparative study of Kuliak but also the wider Afroasiatic and Nilo-Saharan language families.

The main site tells the story of Georgia's history from the Bronze Age to the early 20th century. It's the story of 'The Land of the Golden Fleece' - the ancient Kingdom of Colchis, whose ingenious gold, silver and precious stonework can be seen in the Treasury. The

Greek, Ottoman and Iranian Influence visible in many of the treasures is testament to Georgia's role as a crossroads through the centuries. The GNM also records Georgia's modern history, tracing the rise of a united Georgian state, how it resisted Soviet Occupation and survived the Red Terror. However, perhaps most significantly of all, here visitors can come face-to-face with the earliest homonid known to have left Africa - a 1.8 million-year-old discovery made by the GNM's Director, Professor David Lordkipanidze, that has rewritten our understanding of early European humanity. In this beautifully illustrated book, Professor Lordkipanidze illuminates his personal highlights from the collection with his considerable expertise.
