Bookish Boyfriends Tiffany Schmidt,2018-05-01 A teenage rabid romance reader finds herself in her own version of *Pride & Prejudice* in this sweet and swoony series opener. Boys are so much better in books. At least according to Merrilee Campbell, fifteen, who thinks real-life chivalry is dead and there'd be nothing more romantic than having a guy woo her like the heroes in classic stories. Then she, her best friend, Eliza, and her younger sister, Rory, transfer to Reginald R. Hero Prep—where all the boys look like they've stepped off the pages of a romance novel. Merri can hardly walk across the quad without running into someone who reminds her of Romeo. When the brooding and complicated Monroe Stratford scales Merri's trellis in an effort to make her his, she thinks she might be Juliet incarnate. But as she works her way through her literature curriculum under the guidance of an enigmatic

teacher, Merri's tale begins to unfold in ways she couldn't have imagined. Merri soon realizes that only she is in charge of her story. And it is a truth universally acknowledged that first impressions can be deceiving . . . "Schmidt ably captures the discombobulation and turn-on-a-dime emotions experienced by many early teens, and surrounds Merri with a believable cast of supporting characters. This contemporary rom-com series starter is a fun introduction to classics for middle-grade readers and younger YAs, wittily making old stories new again." ?Booklist, starred review "Schmidt unapologetically places romance, and more romance, at the heart of this YA novel for younger teens . . . Ultimately Schmidt pits Romeo against a Mr. Darcy type in this romantic comedy (complete with Bridget Jones-like mishaps), whose heroine must open herself to the idea that the boy she least expects may turn out to be her real romantic hero." —Publishers Weekly "This meshing of romantic classics and modern-day relationships is over-the-top good fun for tween romantics." —Kirkus Reviews

Attached Amir Levine, Rachel Heller, 2010-12-30 Is there a science to love? In this groundbreaking book, psychiatrist and neuroscientist Amir Levine and psychologist Rachel S. F. Heller reveal how an understanding of attachment theory-the most advanced relationship science in existence today-can help us find and sustain love. Attachment theory forms the basis for many bestselling books on the parent/child relationship, but there has yet to be an accessible guide to what this fascinating science has to tell us about adult romantic relationships-until now. Attachment theory owes its inception to British psychologist and psychoanalyst John Bowlby, who in the 1950s examined the tremendous impact that our early relationships with our parents or caregivers has on the people we become. Also central to attachment theory is the discovery that our need to be in a close relationship with one or more individuals is embedded in our genes. In *Attached*, Levine and Heller trace how these evolutionary influences continue to shape who we are in our relationships today. According to attachment theory, every person behaves in relationships in one of three distinct ways: *ANXIOUS people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back. *AVOIDANT people equate intimacy with a loss of independence and constantly try to minimize closeness. *SECURE people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mates) follow. It also offers readers a wealth of advice on how to navigate their relationships more wisely given their attachment style and that of their partner. An insightful look at the science behind love, *Attached* offers readers a road map for building stronger, more fulfilling connections.

Prescribing HIV Prevention Nicola Bulled,2016-06-16 Critical health communication scholars point out that the acceptance of HIV risk prevention methods are bound inside inequitable structures of power and knowledge. Nicola Bulled's in-depth ethnographic account of how these messages are selected, transmitted and reacted to by young adults in the AIDS-torn population of Lesotho in southern Africa provides a crucial example of the importance of a culture-centered approach to health communication. She shows the clash between traditional western perceptions of how increased knowledge will increase compliance with western ideas of prevention, and mixed messages offered by local religious, educational, and media institutions. Bulled also demonstrates how structural and geographical forces prevent the delivery and acceptance of health messages, and how local communities shape their own knowledge of health, disease and illness. This volume will be of interest to medical anthropologists and sociologists, to those in health communication, and to researchers working on issues related to HIV.

kicks her to the curb. And to top it all off, her Mom is getting married—for the 11th time!—and expects Margo to be there as maid of honor. Can't Help Myself Meredith Goldstein, 2018-04-03 A disarmingly honest memoir about giving advice when you're not sure what you're doing yourself, by the woman behind The Boston Globe's Love Letters column. Every day, Boston Globe advice columnist Meredith Goldstein takes on the relationship problems of thousands of dedicated readers. They look to her for wisdom on all matters of the heart- how to cope with dating fatigue and infidelity, work romances, tired marriages, true love, and true loss. In her column, she has it all figured out, but in her real life she is a lot less certain. Whether it's her own reservations about the traditional path of marriage and family, her difficulty finding someone she truly connects with, or the evolution of her friendships as her friends start to have their own families, Meredith finds herself looking for insight, just like her readers. As she searches for responses to their concerns, she's surprised to discover answers to her own. But it's after her mother is diagnosed with cancer that she truly realizes how special her Love Letters community is, how this column has enriched her life as much, if not more than, it has for its readers. *CAN'T HELP MYSELF* is the extraordinary (and often hilarious) story of a single woman navigating her mercurial love life, and a moving and poignant portrait of an amazing community of big-hearted, love-seeking allies.
