**Watchdog Journalism in South America** Silvio Ricardo Waisbord,2000 Drawing upon interviews with journalists and editors and analyzing selected news stories from each country, Silvio Waisbord offers a unique look at the significant differences between critical reporting in developing democracies and that already in place in the United States and European democracies. Watchdog Journalism in South America focuses on four countries: Argentina, Brazil, Colombia, and Peru.

**Populist Governance in Brazil** Carina Barbosa Gouvêa,Pedro H. Villas Bôas Castelo Branco,2021-10-27 This book addresses the field of populisms from a contemporary perspective. The book brings a conceptual, qualitative, culturally sensitive and transformative approach to containing populist governance. The authors set out not only examine and compile the most varied conceptual definitions, but also present a theoretical definition in which they recognize a myriad of variable properties of populisms which are strategies commonly used in specific political contexts. Furthermore, with its own methodology, the book shows the use of a working method whose analysis was designed to apply the definition of populism applicable in any national context and answer the

following hypothesis: the political and normative actions undertaken in the political system could be characterized as a populist movement in its formal and/or informal aspects, directly or indirectly? In this perspective, variable properties are attributes that allow to establish a traceable relationship through a set of specific indicators for its operationalization and empirical tests. The book also applies the definition of populisms in the political and normative actions undertaken by Jair Messias Bolsonaro in Brazil, presenting an extensive repertoire of mechanisms which understanding could contribute to contain populism, with the proper adaptations to the characteristics of each context. Reading *Populisms* will certainly contribute to the readers having more conceptual tools to analyze this global phenomenon that threatens the building of democratic constitutionalism as well as to understand how the growth of populism is associated with the weaknesses of liberal democracy.

**Days of National Festivity in Rio de Janeiro, Brazil, 1823-1889** Hendrik Kraay, 2013-05-29 Official and popular celebrations marked the Brazilian empire's days of national festivity, and these civic rituals were the occasion for often intense debate about the imperial regime. Hendrik Kraay explores the patterns of commemoration in the capital of Rio de Janeiro, the meanings of the principal institutions of the constitutional monarchy established in 1822-24 (which were celebrated on days of national festivity), and the challenges to the imperial regime that took place during the festivities. While officialdom and the narrow elite sought to control civic rituals, the urban lower classes took an active part in them, although their popular festivities were not always welcomed by the elite. *Days of National Festivity* is the first book to provide a systematic analysis of civic ritual in

a Latin American country over a long period of time—and in doing so, it offers new perspectives on the Brazilian empire, elite and popular politics, and urban culture.

Brazil's Africa Strategy C. Stolte, 2015-04-16 The book analyzes Brazil's Africa engagement as a rising power's strategy to gain global recognition, linking it to Brazil's broader foreign policy objectives and shedding light on the mechanisms of Brazilian status-seeking in Africa.

*Alternative News Reporting in Brazil* Claudia Sarmiento, 2023-06-23 This book examines the emergence of alternative forms of news reporting in Brazil with a focus on progressive not-for-profit initiatives. In combining different genres of non-commercial journalism, this study allows us to better understand the potential of alternative news producers in times of continuing technological shifts and their efforts to diversify the news production. Sarmiento explores a range of significant questions, including: what does it mean to practice “alternative” journalism? To what extent do non-mainstream practices subvert the taxonomy of news values? Do alternative journalists adhere to or reject journalism’s core values? And, more specifically, as more and more journalists or media producers are collecting, disseminating and interpreting news without being employed by large media groups, what insights can they provide in relation to the economics of digital journalism? Using the turbulent political landscape of Brazil as a case study, Sarmiento asks us to reflect on what the erosion of traditional journalism really means. The resulting conclusions will be of value to all those who study or practice journalism around the world, in addition to media researchers and activists.

Guardians of the Brazilian Amazon Rainforest: Environmental Organizations and

Development Luiz C. Barbosa, 2015-05-08 The Amazon region is the focus of intense conflict between conservationists concerned with deforestation and advocates of agro-industrial development. This book focuses on the contributions of environmental organizations to the preservation of Brazilian Amazonia. It reveals how environmental organizations such as Greenpeace, Friends of the Earth, WWF and others have fought fiercely to stop deforestation in the region. It documents how the history of frontier expansion and environmental struggle in the region is linked to Brazil's position in an evolving capitalist world-economy. It is shown how Brazil's effort to become a developed country has led successive Brazilian governments to devise development projects for Amazonia. The author analyses how globalization has led to the expansion of international commodity chains in the region, particularly for mineral ores, soybeans and beef. He shows how environmental organizations have politicized these commodity chains as weapons of conservation, through boycotting certain products, while other pro-development groups within Brazil claim that such organizations threaten Brazil's sovereignty over its own resources.

It places the students' educational trajectories at the center of the debate about racial inequality and the need to eradicate it.

**Social Policy Dismantling and De-democratization in Brazil** Sonia Fleury, 2023-09-22 This book examines the emergence of authoritarian populist regimes, analyzing Brazil as a case study. The authors explain how the tactics employed by the Bolsonaro administration to dismantle bureaucracy and public policies, especially labour and social policies, find expression in the fiscal austerity measures recently inscribed in the Federal Constitution: a counter-democratic device employed by technical and financial elites to systemically derail the social protection system. Through this in-depth case study, the book presents new theoretical arguments and concepts that can be useful to understand the dynamics of such new regimes, and discussing similar cases in other

contexts. Democratic governments in Brazil, driven by social movements and political actors, have strengthened social protection through a distinctive institutional architecture that combines the strengthening of public bureaucracies, the creation of intergovernmental networks, and the democratic instances of social participation and agreement. The contributions throughout this volume analyze these transformations in different sectors of public policy, such as labour, employment, pensions, food and nutrition security, health, and social assistance. Each contribution discusses the recent trajectory through a political analysis of the main actors and institutions, reform processes and policy changes, and the results achieved. Finally, the existing weaknesses in each of these social protection sectors are identified in the context of the literature on policy dismantling, revealing the strategies used to take advantage of these political and institutional weaknesses. This book will appeal to students, scholars, and researchers of political science and public policy, interested in a better understanding of de-democratization by social policy dismantling.

**Medios de comunicación iberoamericanos y agregadores de noticias: análisis a las ediciones de Google News Brasil, Colombia, España, México y Portugal** Tania Lucía Cobos Cobos, 2017 Esta tesis doctoral, de alcance exploratorio y descriptivo, se propuso como objetivo realizar un análisis de los medios de comunicación, con énfasis en los iberoamericanos, indexados en las ediciones de Google News Brasil, Colombia, España, México y Portugal, en aspectos como su identificación -cuántos y quiénes eran, y cuáles eran iberoamericanos-; su ubicación geográfica -país de origen-; sus cuotas de agregación de noticias -su visibilidad y rol de proveedores-; su empresa de medios propietaria -a

quiénes pertenecían-; y las percepciones y experiencias sobre el agregador de noticias que tenían los editores en jefe, directores o propietarios de los medios iberoamericanos indexados es este. Se construyó un referente teórico en torno a los medios de comunicación y las noticias que abordó a los medios de comunicación como innovaciones tecnológicas; la economía de la comunicación de masas; los medios de comunicación como el cuarto poder, las compañías tecnológicas, internet y los medios de comunicación; la distribución de las noticias en la Web y los modelos de negocios, los agregadores de noticias y la infomediación. Posteriormente se hizo una aproximación a Google y a su agregador de noticias Google News en aspectos como su origen, evolución, estructura, funcionamiento, su significado para Google y su relación con los medios de comunicación. Se implementó una metodología mixta, tanto cualitativa como cuantitativa, y asimismo hizo uso de métodos digitales y de la etnografía virtual. Como técnicas de investigación se emplearon, en diferentes etapas, el web scraping, consultas documentales en línea y entrevistas, tanto presenciales como virtuales. La combinación de todas estas herramientas permitió triangular los datos recogidos, 5.048.150 millones de noticias de las cuales se construyeron diversos corpus, para intentar dar una respuesta integral a las preguntas de investigación planteadas. La limitación más importante fue el inesperado cierre de Google News España en diciembre de 2014 que significó también la eliminación de los medios españoles del agregador. La interpretación de los resultados se presenta tanto por idiomas, español y portugués, como por cada una de las ediciones del agregador seleccionadas y su detalle por canales. Se identificó que los medios de comunicación grandes, tradicionales y populares, naturales de estos países y cada uno con sus propias

características, tenían las mayores cuotas de agregación de noticias capturadas -visibilidad- y noticias únicas -proveedor-, destacándose G1 {bajo Globo.com} y Terra Brasil, en Google News Brasil; ElTiempo.com y Caracol Radio, en Google News Colombia; El Universal en Google News México; y Público.pt y A Bola, en Google News Portugal. El Grupo PRISA fue la multinacional de medios con más medios iberoamericanos presentes en las cuatro ediciones y con un marcado peso en las de español destacándose de paso su relación de cooperación con Google. Por otro lado, en general, se observó una percepción positiva hacia la labor del agregador, a pesar del muy bajo tráfico referido y de los bajos ingresos mensuales en Google AdSense, así como la solicitud de compensaciones adicionales que no necesariamente fueran dinero, como control sobre sus noticias una vez agregadas y sobre los medios plagiadores. Finalmente, dado el cierre de la edición España, su análisis se abordó de manera separada, se destacó que, antes del cierre, diarios y agencias de noticias como ABC, La Vanguardia, Europa Press, 20 Minutos, El País y El Mundo eran los que contaban con las más altas cuotas de agregación de noticias en la edición. Posterior al cierre, se encontraron 34 medios españoles en las ediciones de México y Colombia, y, por otro lado, los actores del conflicto -Google News España, la AEDE y la AEEPP- mantuvieron sus posiciones.

### **External Powers and the Gulf Monarchies** Jonathan Fulton, Li-Chen

Sim, 2018-08-23 The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security, but in response to regional events, particularly the Arab Spring of 2011, they are pursuing more activist foreign policies, which has allowed other international powers to play a larger role in regional affairs. This book analyses the

changing dynamic in this region, with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra-regional powers, including the USA, Russia, China, India, Brazil, Turkey, Japan, South Korea, France, and the United Kingdom. At the theoretical level, these case studies explore the extent to which different international relations and international political economy theories explain change in these relationships as the regional, political and security environment shifts. Focusing on how and why external powers approach their relationships with the Gulf monarchies, contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years. Addressing an under-analysed, yet important topic, the volume will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra-regional powers studied.

**Ageing with Smartphones in Urban Brazil** Marília Duque, 2022-04-21 With people living longer all over the world, ageing has been framed as a socio-economic problem. In Brazil, older people are expected to remain healthy and autonomous while actively participating in society. Based on ethnographic research in São Paulo, Ageing with

Smartphones in Urban Brazil shows how older people in a middle-class neighbourhood conciliate these expectations with the freedom and pleasures reserved for the Third Age. Work is what bonds this community together, providing a sense of dignity and citizenship. Smartphones have become of great importance to the residents as they search for and engage in new forms of work and hobbies. Connected by a digital network, they work as content curators, sharing activities that fill their schedule. Managing multiple WhatsApp groups is a job in itself, as well as a source of solidarity and hope. Friendship groups help each to download new apps, search for medical information and guidance, and navigate the city. Together, they are reinventing themselves as volunteers, entrepreneurs and influencers, or they are finding a new interest that gives their later life a purpose. The smartphone, which enables the residents to share and discuss their busy lives, is also helping them, and us, to rethink the very representation of ageing.

*Routledge Handbook of Physical Activity Policy and Practice* Joe Piggin, Louise Mansfield, Mike Weed, 2017-12-22 Physical activity, inactivity and their relationship to health are serious concerns for governments around the world. This is the first book to critically examine the policy and practice of physical activity from a multi-disciplinary, social-scientific perspective. Moving beyond the usual biophysical and epidemiological approaches, it defines and explores the key themes that are shaping the global physical activity debate. Unrivalled in its scale and scope, it presents the latest data on physical activity from around the world, including case studies from Europe, North and South America, Africa and Asia. Drawing on social, economic and behavioural sciences, it covers contexts from the global to the local and introduces the dominant ideas which inform the

study of physical activity. Its 41 chapters examine the use of different forms of evidence in policymaking, the role of organisations in advocating physical activity, and the practical realities of public health interventions. The Routledge Handbook of Physical Activity Policy and Practice is a landmark publication for all students, academics, policymakers and practitioners interested in the social-scientific study of sport, exercise, physical activity and public health.
