**The Dance of 17 Lives** Mick Brown,2010-11-15 In January 2000, two Ambassador taxis twisted their way up the narrow road leading towards Dharamsala in the Himalayan foothills of northern India - the home-in-exile of the Dalai Lama. In one taxi was a fourteen-year-old boy, the 17th Karmapa, one of the most important figures in Tibetan Buddhism. The boy's arrival in Dharamsala was the culmination of an extraordinary escape which had brought him 900 miles across the Himalayas, in conditions of high danger, from the monastery in Tibet where he had lived since he was seven years old. Fascinated by this charismatic young figure, Mick Brown travelled to Dharamsala to meet him, and found himself drawn into the labyrinthine - not to say surreal - web of intrigue surrounding the 17th Karmapa's recognition and young life.

Brick and Block Masonry - From Historical to Sustainable Masonry Jan Kubica,Arkadiusz

Kwiecień,Lukasz Bednarz,2020-07-06 Brick and Block Masonry - From Historical to Sustainable Masonry contains the keynote and semi-keynote lectures and all accepted regular papers presented online during the 17th International Brick and Block Masonry Conference IB2MaC (Kraków, Poland, July 5-8, 2020). Masonry is one of the oldest structures, with more than 6,000 years of history. However, it is still one of the most popular and traditional building materials, showing new and more attractive features and uses. Modern masonry, based on new and modified traditional materials and solutions, offers a higher quality of life, energy savings and more sustainable development. Hence, masonry became a more environmentally friendly building structure. Brick and Block Masonry - From Historical to Sustainable Masonry focuses on historical, current and new ideas related to masonry development, and will provide a very good platform for sharing knowledge and experiences, and for learning about new materials and technologies related to masonry structures. The book will be a valuable compendium of knowledge for researchers, representatives of industry and building management, for curators and conservators of monuments, and for students.
