*Breath* James Nestor, 2020-05-26 A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR “A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we’ve all been doing it wrong for a long, long time.” —Elizabeth Gilbert, author of *Big Magic* and *Eat Pray Love* No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you’re not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren’t found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

**Caesar's Last Breath** Sam Kean, 2017-07-18 The Guardian's Best Science Book of 2017: the fascinating science and history of the air we breathe. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In *Caesar's Last Breath*, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second.

**Breathe At Every Other Stroke** Pamela Gullard, 2014-09-16 Life is suspended for the characters in this striking debut collection. Frozen with loss, numbed by the drudgery of routine, stalked by ghosts, or scared by their own violence, they hunker down and wait--for the return of sanity, new love, bloody revenge, self-control, or just enough courage to take one small risk. Distinguished by psychological acuity and nuanced prose, each of these dozen stories involves a quiet--but pivotal--shift: villains become heroes, a fall proves to be redemption, a wrong is righted--or made worse. An aspiring nightclub singer joins a group of people waiting for the demolition of a condemned bridge; a jogger who thinks he's conquered his violent past is undone by a surprise visit from his grandson; a saleswoman who prides herself on her quick understanding of customers realizes, in the course of a holdup, that she understands less than she thought. All struggle to balance the joys of freedom with the comforts of safety, the dangers of chaos with the reassurance of restraint. Liberally laced with the color and texture of the Pacific Northwest--San Francisco, Seattle, and Portland--*Breathe at Every Other Stroke* introduces a writer of sharp and singular observations. With sly wit and broad compassion, Pamela Gullard depicts the bumpy acquisition of wisdom.
