Living and Dying in Brick City Sampson Davis, Lisa Frazier Page, 2013-02-12 A riveting personal exploration of the healthcare crisis facing inner-city communities, written by an emergency room physician who grew up in the very neighborhood he is now serving. Sampson Davis is best known as one of three friends from inner-city Newark who made a pact in high school to become doctors. Their book *The Pact* and their work through the Three Doctors Foundation have inspired countless young men and women to strive for goals they otherwise would not have dreamed they could attain. In this book, Dr. Davis looks at the healthcare crisis in the inner city from a rare perspective: as a doctor who works on the front line of emergency medical care in the community where he grew up, and as a member of that community who has faced the same challenges as the people he treats every day. He also offers invaluable practical advice for those living in such communities, where conditions like asthma, heart disease, stroke, obesity, and AIDS are disproportionately endemic. Dr. Davis's sister, a drug addict, died of AIDS; his brother is now paralyzed and confined to a wheelchair as a result of a bar fight; and he himself did time in juvenile detention—a wake-up call that changed his life. He recounts recognizing a young man who is brought to the E.R. with critical gunshot wounds as someone who was arrested with him when he was a teenager during a robbery gone bad; describes a patient whose case of sickle-cell anemia rouses an ethical dilemma; and explains the difficulty he has convincing his landlord and friend, an older woman, to go to the hospital for much-needed treatment. With empathy and hard-earned wisdom, *Living and Dying in Brick City* presents an urgent picture of medical care in our cities. It is an important resource guide for anyone at risk, anyone close to those at risk, and anyone who cares about the fate of our cities. Praise for *Living and Dying in Brick City* “A pull-no-punches look at health care from a seldom-heard sector . . . *Living and Dying* isn't a sky-is-falling chronicle. It's a real, gutsy view of a city hospital.”—*Essence* “Gripping . . . a prescription to help kids dream bigger than their circumstances, from someone who really knows.”—*People* “[Dr. Davis] is really a local hero. His story has inspired so many of our young people, and he's got his finger on the pulse of what is a challenge in Newark, and frankly all across America. . . . I think his book is going to make a big impact.”—Cory Booker “Some memoirs are heartfelt, some are informative and some are even important. Few, however, are all three. . . . As rare as it is for a book to be heartfelt, well written and inspirational, it's even rarer for a critic to say that a book should be required reading. This ought to be included in high school curricula—for the kids in the suburbs who have no idea what life is like in the inner cities, and for the kids in the inner cities to know that there is a way out.”—*The Star-Ledger* “Dramatic and powerful.”—*New York Daily News* “This book just might save your life. Sampson Davis shares fascinating stories from the E.R. and addresses the inner-city health crisis. His book is an important investment in your most valuable resource: your health.”—Suze Orman, author of *The Money Class*

Brick City Warren Elsmore, 2013 From New York's Empire State Building to the Eiffel Tower, Dubai's iconic Burj Al Arab hotel to London's St Pancras station, this is a glorious, full colour celebration of the world's most distinctive buildings and urban icons, recreated in LEGO bricks. *Brick City* is a celebration of the world's favourite buildings and urban icons, recreated solely using LEGO bricks. While to many, LEGO bricks are 'just a toy,' to an ever-growing army of fans they provide a challenging and enjoyable modelling medium. These fans, calling themselves 'AFOLs' or Adult Fans of LEGO have taken it upon themselves to recreate local landmarks using just the bricks that you find at a local store. LEGO models created by adult fans though, don't resemble those that many people created as a child. Created by masters of their medium, these fabulously detailed models may contain thousands of pieces - or perhaps just a handful. Either way, the talented artists have an intimate knowledge of every piece and colour available; skilfully choosing the ideal piece to recreate a well-known landmark. Sometimes creating a model indistinguishable from the real thing, or evoking the spirit of a building in just a few small pieces. In fact, landmarks and cityscapes - from the New York skyline to the Sagrada Familia, London's St. Pancras, and the amazing towers of Beijing and Hong Kong - have long been a source of inspiration for LEGO builders. In this book, Warren Elsmore takes us on a world tour and explores more than 12 global cities and their iconic structures. Each city is examined and recreated in LEGO form. Comprising amazing artwork, exploratory photographs, and detailed breakdowns, *Brick City* looks at the essence of what makes an urban landscape recognisable.

The Pact Sampson Davis, George Jenkins, Rameck Hunt, Lisa Frazier Page, 2003-05-06 A NEW YORK TIMES BESTSELLER A remarkable story about the power of friendship. Chosen by *Essence* to be among the forty most influential African Americans, the three doctors grew up in the streets of Newark, facing city life's temptations, pitfalls, even jail. But one day these three young men made a pact. They promised each other they would all become doctors, and stick it out together through the long, difficult journey to attaining that dream. Sampson Davis, George Jenkins, and Rameck Hunt are not only friends to this day—they are all doctors. This is a story about joining forces and beating the odds. A story about changing your life, and the lives of those you love most... together.

We Beat the Street Sampson Davis, George Jenkins, Rameck Hunt, Sharon Draper, 2006-04-20 Growing up on the rough streets of Newark, New Jersey, Rameck, George, and Sampson could easily have followed their childhood friends into drug dealing, gangs, and prison. But when a presentation at their school made the three boys aware of the opportunities available to them in the medical and dental professions, they made a pact among themselves that they would become doctors. It took a lot of determination—and a lot of support from one another—but despite all the hardships along the way, the three succeeded. Retold with the help of an award-winning author, this younger adaptation of the adult hit novel The Pact is a hard-hitting, powerful, and inspirational book that will speak to young readers everywhere.

Whiteness Interrupted Marcus Bell,2021-06-28 In Whiteness Interrupted Marcus Bell presents a revealing portrait of white teachers in majority-black schools in which he examines the limitations of understandings of how white racial identity is formed. Through in-depth interviews with dozens of white teachers from a racially segregated, urban school district in Upstate New York, Bell outlines how whiteness is constructed based on localized interactions and takes a different form in predominantly black spaces. He finds that in response to racial stress in a difficult teaching environment, white teachers conceptualized whiteness as a stigmatized category predicated on white victimization. When discussing race outside majority-black spaces, Bell's subjects characterized American society as postracial, in which race seldom affects outcomes. Conversely, in discussing their experiences within predominantly black spaces, they rejected the idea of white privilege, often angrily, and instead focused on what they saw as the racial privilege of blackness. Throughout, Bell underscores the significance of white victimization narratives in black spaces and their repercussions as the United States becomes a majority-minority society.

Brick by Brick David Robertson,Bill Breen,2013-06-25 Sometimes radical yet always applicable, Brick by Brick abounds with real-world lessons for unleashing breakthrough innovation in your organization, using LEGO--which experienced one of the most remarkable business transformations in recent history--as a business model. As LEGO failed to keep pace with the revolutionary changes in kids' lives and began sliding into irrelevance, the company's leaders implemented some of the business world's most widely espoused prescriptions for boosting innovation. Ironically, these changes pushed the iconic toymaker to the brink of bankruptcy, showing that what works in theory can fail spectacularly in the brutally competitive global economy. It took a new LEGO management team--faced with the growing rage for electronic toys, few barriers to entry, and ultra-demanding consumers (ten-year old boys)--to reinvent the innovation rule book and transform LEGO into one of the world's most profitable, fastest-growing companies. Along the way, Brick by Brick reveals how LEGO: - Became truly customer-driven by co-creating with kids as well as its passionate adult fans - Looked beyond products and learned to leverage a full-spectrum approach to innovation - Opened its innovation process by using both the wisdom of crowds and the expertise of elite cliques - Discovered uncontested, blue ocean markets, even as it thrived in brutally competitive red oceans - Gave its world-class design teams enough space to create and direction to deliver built a culture where profitable innovation flourishes Whether you're a senior executive looking to make your company grow, an entrepreneur building a startup from scratch, or a fan who wants to instill some of that LEGO magic in your career, you'll learn how to build your own innovation advantage, brick by brick.
