- 📖 *COPYRIGHT IN THE DIGITAL ERA* NATIONAL RESEARCH COUNCIL, POLICY AND GLOBAL AFFAIRS, BOARD ON SCIENCE, TECHNOLOGY, AND ECONOMIC POLICY, COMMITTEE ON THE IMPACT OF COPYRIGHT POLICY ON INNOVATION IN THE DIGITAL ERA, 2013-05-30 Over the course of several decades, copyright protection has been expanded and extended through legislative changes occasioned by national and international developments. The content and technology industries affected by copyright and its exceptions, and in some cases balancing the two, have become increasingly important as sources of economic growth, relatively high-paying jobs, and exports. Since the expansion of digital technology in the mid-1990s, they have undergone a technological revolution that has disrupted long-established modes of creating, distributing, and using works ranging from literature and news to film and music to scientific publications and computer software. In the United States and internationally, these disruptive changes have given rise to a strident debate over copyright’s proper scope and terms and means of its enforcement—a debate between those who believe the digital revolution is progressively undermining the copyright protection essential to encourage the funding, creation, and distribution of new works and those who believe that enhancements to copyright are inhibiting technological innovation and free expression. Copyright in the Digital Era: Building Evidence for Policy examines a range of questions regarding copyright policy by using a variety of methods, such as case studies, international and sectoral comparisons, and experiments and surveys. This report is especially critical in light of digital age developments that may, for example, change the incentive calculus for various actors in the copyright system, impact the costs of voluntary copyright transactions, pose new enforcement challenges, and change the optimal balance between copyright protection and exceptions.

- 📖 *MANAGING CONTENT MARKETING: THE REAL-WORLD GUIDE FOR CREATING PASSIONATE SUBSCRIBERS TO YOUR BRAND* ROBERT ROSE, JOE PULIZZI, 2011-08-01 Perhaps no function in the business organization has been as fundamentally revolutionized as marketing. The social and mobile Web has completely changed the speed, efficiency, and ease with which consumers can engage with each other and has had a tremendous impact on brands. This new engagement of the consumer with keen awareness of their relationships and emerging social networks now correlates to every single aspect of our business. So, yes, marketing has changed. The question is what are we going to do about it? Content and Subscription: The New Marketing Opportunity As growth of the social and mobile Web changes the methods of communication, the old lines of hierarchical relationships between business and consumer blur substantially. As consumers publish and share their opinions (both good and bad) with increasing ease, they can become more persuasive than even the company’s voice itself. Every one of these groups becomes a powerful ally or enemy depending on what we do. All of them will be constantly in flux developing levels of trust and requiring varying levels of transparency to filter content and determine buying decisions. They will expand and collapse with great velocity, and it will all happen with or without our participation. Content marketing has been around for hundreds of years. But the application of a specific strategic process around content marketing is still new. The amount of budget that is allotted for new content creation is going to become a significant part of your new media budget. And subject matter experts in the organization are going to have new responsibilities. It’s a transformative new process and it won’t happen overnight. But it can, and should, happen. Get Content Get Customers showed us the light but there’s been no book to show us the way. There is an ancient Chinese proverb that says a crisis is simply an opportunity riding the dangerous wind. As marketers we now have the opportunity to develop new processes with our marketing strategy, power them with content, and ultimately keep that wind at our back. Successful programs will focus on creating a thoughtful strategy and process to foster this content marketing. This book is a detailed how-to to build that successful content marketing process.
- 📖 *STRATEGIC DECISIONS* VASSILIS PAPADAKIS, PATRICK BARWISE, 2012-12-06 Over the past ten years, there has been growing interest in the process of strategic decision-making among both managers and researchers. Strategic decisions are important for five main reasons: They are large-scale, risky and hard to reverse; they are a bridge between deliberate and emerging strategies; they can be a major source of organizational learning; they play an important part in the development of individual managers and they cut across functions and academic disciplines. Strategic Decisions summarizes the current state of the art in research on strategic decision-making, with chapters prepared by leading strategy

RESEARCHERS. THE EDITORS ALSO PRESENT IMPLICATIONS FOR CURRENT APPLICATION AND PROPOSED DIRECTIONS FOR FUTURE RESEARCH.
