When her body is found stuffed in a bin, the girl's lifestyle has everyone thinking her death must have something to do with the world of drug trafficking and dangerous sex she inhabited. The group of old friends at the Bar Lume begin to pull the case apart, forcing barman Massimo into the role of amateur sleuth.

Unable Brian C. Kalt, 2019-09-16 Since the election of President Donald Trump, the Twenty-Fifth Amendment to the Constitution-covering presidential incapacity-has been a frequent topic of public discussion. Meanwhile, Section 4 has become a mainstay in television dramas, which usually represents it inaccurately. The country needs this complicated but essential topic explained. *Unable: The Law, Politics, and Limits of Section 4 of the Twenty-Fifth Amendment* is designed to educate and inform the public about Section 4 in an evenhanded and accessible way. This book is not about President Trump; it offers no opinions on his fitness for office. By the end of the book, though, it will be clear how Section 4 applies to him, as well as to any other president.

Drawing Thin Patricia Loofbourrow, 2021-03-14 In a city owned by the Four Families, Constable Paix Hanger has advanced as high as he can. A hard-working twenty-year veteran relegated to walking a beat in the worst neighborhood of the worst precinct of the city, he resents the crime family which rules his quadrant, chafing at the restrictions placed on him by his superiors for his own good. A boy who's a

reminder of the son he might never have disappears and those who look for him begin dying. When the incompetent and corrupt detectives assigned to the case are unable or unwilling to act, Constable Hanger takes matters into his own hands. This companion story takes place during the same time frame as *The Jacq of Spades: Part 1 of the Red Dog Conspiracy*.

Style and Social Identities Peter Auer, 2008-09-25 This volume presents an interactional perspective on linguistic variability that takes into account the construction of social identities through the formation of social communicative styles. It shows that style is a useful category in bridging the gap between single parameter variation and social identity. Social positioning, i.e., finding one's place in society, is one of its motivating forces. Various aspects of the expression of stylistic features are focused on, from language choice and linguistic variation in a narrow sense to practices of social categorization, pragmatics patterns, preferences for specific communicative genres, rhetorical practices including prosodic features, and aesthetic choices and preferences for specific forms of taste (looks, clothes, music, etc.). These various features of expression are connected to multimodal stylistic indices through talk; thus, styles emerge from discourse. Styles are adapted to changing contexts, and develop in the course of social processes. The analytical perspective chosen proposes an alternative to current approaches to variability under the influence of the so-called variationist paradigm.

Discourse Analysis Susan Strauss, Parastou Feiz, 2013-12-17 This introductory textbook presents a variety of approaches and perspectives that can be employed to analyze any sample of discourse. The perspectives come from multiple disciplines, including linguistics, sociolinguistics, and linguistic anthropology, all of which shed light on meaning and the interactional construction of meaning through language use. Students without prior experience in discourse analysis will appreciate and understand the micro-macro relationship of language use in everyday contexts, in professional and academic settings, in languages other than English, and in a wide variety of media outlets. Each chapter is supported by examples of spoken and written discourse from various types of data sources, including conversations, commercials, university lectures, textbooks, print ads, and blogs, and concludes with hands-on opportunities for readers to actually do discourse analysis on their own. Students can also utilize the book's comprehensive companion website, with flash cards for key terms, quizzes, and additional data samples, for in-class activities and self-study. With its accessible multi-disciplinary approach and comprehensive data samples from a variety of sources, *Discourse Analysis* is the ideal core text for the discourse analysis course in applied linguistics, English, education, and communication programs.

Reframing Translators, Translators as Reframers Dominique Faria, Marta Pacheco Pinto, Joana Moura, 2022-07-29 This collection explores the notion of reframing as a framework for better understanding the multi-agent and multi-level nature of the translation process, generating new conversations in current debates on translational agency, authority, and power. The volume puts forward reframing as an alternative metaphor to traditional conceptualizations and descriptions of translation, which often position the process in such terms as transformation, reproduction, transposition, and transfer. Chapters in the book reflect on the translator figure as a central agent in actively moving a translated text to a new context, and the translation process as shaped by different forces and subjectivities when translational agency comes into play. The book brings together cross-disciplinary perspectives for viewing translation through the lens of agents, drawing on a wide range of examples across geographic settings, historical eras, and language pairs. The volume integrates analyses from the translated texts themselves as well as their paratexts to offer unique insights into the different layers of mediation in translation and the new frame(s) created for those

texts. This book will be of interest to scholars in translation studies, comparative studies, reception studies, and cultural studies.
