**The Royal British Legion: 90 Years of Heroes** Matt Croucher, The Royal British Legion, 2011-09-15 The Royal British Legion was founded in 1921. It is now the country's leading charity providing financial, social and emotional support to those who have served or who are currently serving in the British Armed Forces and their dependants. The RBL is behind the annual Poppy Appeal, the highest profile charity appeal in Britain.

The Royal British Legion Matt Croucher, 2011 The Royal British Legion was founded in 1922. It is now the country's leading charity providing financial, social and emotional support to those who have served or who are currently serving in the British Armed Forces and their dependants. The RBL is behind the annual Poppy Appeal, the highest profile charity appeal in Britain. This superbly illustrated book has the full support of the Royal British Legion and will tell the complete story of its history through exclusive access to its archives, thus providing a celebratory, as well as informative, tribute to their work over the past 90 years. It will be the definitive history of this much-loved organisation, charting its work with soldiers and ex-servicemen through the stories of its heroes, famous as well as unknown, during the highest-profile military campaigns of the past 90 years. The book will be divided into nine chapters, each representing one decade in the RBL's existence. Each chapter will celebrate one hero per year; 1922, 1923, 1924, etc. giving an account of that particular person, and what they achieved. Within each chapter will be special spreads that emphasise also the social history of the evolution of the RBL as a charity, supported with iconic imagery and text. Each one of the heroes, from 1922 right through to 2012, has been personally chosen by decorated royal marine, and RBL ambassador, Lance Corporal Matt Croucher GC. Men such as Major Robert Henry Cain VC (1909-1974), who destroyed six tanks during Operation 'Market Garden' at Arnhem in 1944 and was one of the only officers from his battalion to escape the German encirclement of the British 1st Airborne Division. The book will be published in late autumn to coincide with the 2011 Poppy Appeal, which will be the biggest in the Legion's history, with events running nationwide, TV advertising, celebrity involvement and a high-profile marketing campaign. Matt Croucher will be involved in the campaign as an ambassador for the RBL. For any serving member of the armed forces, or those retired from service, or members of the public who are keen to know about this beloved organisation; this will be a fascinating and valued purchase, knowing that royalties will be going to the charity themselves. --Publisher description.

*The Foundations of British Maritime Ascendancy* Roger Morriss, 2010-12-16 British power and global expansion between 1755 and 1815 have mainly been attributed to the fiscal-military state and the achievements of the Royal navy at sea. Roger Morriss here sheds new light on the broader range of developments in the infrastructure of the state needed to extend British power at sea and overseas. He demonstrates how developments in culture, experience and control in central government affected the supply of ships, manpower, food, transport and ordnance as well as the support of the army, permitting the maintenance of armed forces of unprecedented size and their projection to distant stations. He reveals how the British state, although dependent on the private sector, built a partnership with it based on trust, ethics and the law. This book argues that Britain's military bureaucracy, traditionally regarded as inferior to the fighting services, was in fact the keystone of the nation's maritime ascendancy.

**The Veterans' Transition Review** Michael Ashcroft, 2014-02-11 As the Prime Minister's Special Representative on Veterans' Transition, Lord Ashcroft conducted a comprehensive review of all aspects of the move from a career in the Armed Forces to civilian life. The Veterans' Transition Review, published in February 2014, documents his findings and recommendations. Based on consultation with the Forces, the MOD and wider government, industry and charities - as well as hundreds of former Service personnel and their families - the Review includes more than 50 proposals to improve transition in fields including education, employment, health, housing, welfare, finance, information provision, the charity sector, and the way society perceives Service Leavers.

**The Armed Forces Officer** Richard Moody Swain, Albert C. Pierce, 2017 In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that American military officers, of whatever service, should share common ground ethically and morally. In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

*The British Army 1914-18* Donald Fosten, Robert Marrion, 1978-10-26 Between 1869 and 1874, Edward Cardwell, Gladstone's Secretary for War, undertook major reforms to modernise the British Army. The Crimean War and campaigns in India had revealed serious administrative and command shortcomings. Cardwell's legislation was aimed at curing these faults and served as the foundation of a new-style army. His successors put into practice further improvements in tactics, training and command structure, and by the outbreak of war in 1914, the British Army had developed into one of the best professional fighting forces in Europe. This book details the development, composition and uniforms of this new army.

Close to the Edge Jim Davidson, 2001 The life story of the popular but often misunderstood British entertainer. The host of *The Generation Game* and *Big Break* commands the adulation of millions - but do viewers really know him? He has had tough times, especially over the last decade which has seen him transformed from a blue-mouthed, alcoholic stand-up comic to Jim Davidson, OBE, the face of BBC Family Entertainment, Chairman of the British Forces Foundation and a close friend to Prince Charles.

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor, 1981-12 CMH Pub 50-1-1. Defense Studies Series. Discusses the evolution of the services' racial policies and practices between World War II and 1965 during the period when black servicemen and women were integrated into the Nation's military units.

*New People Strategies for the British Armed Forces* Alex Alexandrou, Richard Bartle, Richard Holmes, 2002 Based upon an ongoing series of conferences and seminars dealing with human resource management in the British armed forces, this study proposes new ways of tackling one of the most contentious of issues facing the military today.

**The Army of Charles II** John Childs, 1976

*The Foundations of the Science of War* Maj-Gen. J. F. C. Fuller, 2018-02-27 The Foundations of the Science of War by Col. J. F. C. Fuller, first published in 1925, aims, as the title suggests and in the author's own words, to provide "a foundation of the science of war, or, at least, of a science of war." Col. Fuller spent over 15 years planning this foundation, and it was his endeavour that it would allow military students to examine it "not only for its own worth, but in order to think of war scientifically, for until we do so we shall never become true artists of war." Likewise, Col. Fuller hoped the book may be of use to all other interested readers, "not only in

studying war, but in studying any of the activities of life." "In this book I am attempting something new—at least, new since the days of Henry Lloyd and Robert Jackson; for, as far as I am aware, these are my only two fellow-countrymen who have attempted to reduce war to a science. In a small way I am trying to do for war what Copernicus did for astronomy, Newton for physics, and Darwin for natural history. My book, I believe, is the first in which a writer has attempted to apply the method of science to the study of war; for Lloyd, Jackson, Clausewitz, Jomini, and Foch did not do this. In a few years' time I hope that it will be superseded by many a better work, so that we all may begin to understand the nature of war, and thereby discover, not only how to prepare for war, but how to restrict its ravages; how to harness it, and possibly, also, how to transmute the destructive ferocity of the ape into the creative gentleness of the angel."—Col. J. F. C. Fuller

**If My Table Could Talk** Michael Wynne-Parker, 2011-03-30 For hundreds of years the table has taken central place from cottage to palace, drawing around it families and friends to enjoy sustenance and conversation. Only in the present day has its dominance of the domestic scene declined due to the intrusion of television and the break up of traditional family life. Michael Wynne-Parker's life is full of interesting people some of whom are the main characters in this fascinating book. And they have a just one thing in common - they all sat, at least once, round his table - including such diverse personalities as Victor, 6th Marquess of Bristol, Hammond Innes, Brian Rix, Margaret Thatcher, Princess Katarina of Yugoslavia, Dai Llewellyn and Jim Davidson. Famous names mingle with lesser known, but by no means less interesting, friends, each with a story or more to tell. Actors, soldiers, priests, poets, artists, politicians join with singers, writers, sportsmen, beautiful women and royalty. Some are witty, some amusing, some profound - all with their own story to tell. Their stories offer a glimpse into worlds of wealth, glamour, power and creativity. Throughout, however, a slowly emerging question arises - Is there a significance in events?

**Routledge Handbook of Sport and Politics** Alan Bairner, John Kelly, Jung Woo Lee, 2016-10-04 Sport is frequently considered to be an aspect of popular culture that is, or should be, untainted by the political. However, there is a broad consensus among academics that sport is often at the heart of the political and the political is often central to sport. From the 1936 Olympic Games in Nazi Germany to the civil unrest that preceded the 2014 World Cup in Brazil, sport and politics have remained symbiotic bedfellows. The Routledge Handbook of Sport and Politics goes further than any other book in surveying the complex, embedded relationships between sport and politics. With sections addressing ideologies, nation and statehood, corporate politics, political activism, social justice, and the politics of sports events, it introduces the conceptual foundations that underpin our understanding of the sport-politics nexus and examines emergent issues in this field of study. Including in-depth case studies from North America, South America, Europe, the Middle East, Africa and Asia, this is an essential reference for anybody with an interest in the social scientific study of sport.

**Invisible Scars** Meghan Fitzpatrick, 2017-08-01 Invisible Scars provides the first extended exploration of Commonwealth Division psychiatry during the Korean War and the psychiatric-care systems in place for the thousands of soldiers who fought in that conflict. Fitzpatrick demonstrates that although Commonwealth forces were generally successful in returning psychologically traumatized servicemen to duty, they failed to compensate or support in a meaningful way veterans returning to civilian life. Moreover, ignorance at home contributed to widespread misunderstanding of their condition. This book offers an intimate look into the history of psychological trauma. In addition, it engages with current disability, pensions, and compensation issues that remain hotly contested.

**Fighting with Pride** Craig Jones, 2020-02-19 LGBTQ+ personnel who served in the British military despite the gay ban tell their stories in a moving testament to their patriotism and courage. On January 12th, 2000, the British Armed Forces took a major step toward greater equality by ending its restriction against members of the LGBTQ+ community. To honor that historic event, this volume presents the personal reflections of ten LGBTQ+ personnel who had served under the ban since the Second World War. All of them lived remarkable lives, though some were dismissed in disgrace or asked to resign because of their identity. These brave men and women tell of remarkable careers, courage in battle, and private lives kept secret at all cost. They include stories of serving on the front line of operations worldwide, including in the Second World War, the Falklands War, the Gulf Wars and the war in Afghanistan. This book celebrates their lives, as well as all servicepeople who have stood tall and taken their place with pride in the fighting units of the Royal Navy, Royal Marines, Royal Air Force and the British Army.

**The Nation's Commitment** Great Britain. Ministry of Defence, 2008 The Government asked all departments what more could and should be done to demonstrate commitment to the armed forces and gratitude for their service and sacrifice. This paper is the result of that process. It is designed to end any disadvantage that armed service imposes on the forces, their families and the veterans, particularly concerning movement around the country or the world. It also sets out how better to support and recognise those who have been wounded in service. The paper covers: the Armed Forces Compensation Scheme; health (including hospital and rehabilitation facilities, mental health services and veterans' needs); housing; education and skills; transport (concessionary bus travel for service personnel and blue badge entitlement for disabled veterans); support for families (childcare provision, support for bereaved families); benefits; building careers; Foreign and Commonwealth Office personnel; pay. It outlines what has been achieved already, and future action to preserve and enhance the commitment. Annexes provide supplementary information on the above areas and describe the consultation process that informed this paper.

**The Armed Forces Covenant in action?** Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good. This was an improvement over the last inspection in 2009, rated as satisfactory (now called 'requires improvement'). Some 28 per cent of Army recruits were less than 18 years of age. Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services, and whether steps are being taken to reduce this dependency. Of those recruited in 2012, 3.5 per cent of the Army were rated at entry level 2 for literacy (that of a 7 to 8 year old) and 39 per cent had a literacy level of an eleven year old. If as the MoD states, it has to recruit personnel at whatever level of attainment is available, then it should boost remedial action when recruitment entry standards are particularly low. In light of changes brought about by Future Force 2020, it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces. Whilst the Committee recognises that some recruits may not be

eager to take further academic exams, the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment. The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country
