Public Health Leadership and Management Stuart A. Capper, Peter M. Ginter, Linda E. Swayne, 2002 Public Health leadership and Management offers students the opportunity to develop and practice the skills needed to make difficult public health decisions. It presents fifteen public health case studies that address a wide array of challenging and complex public health issues. These case studies attempt to vicariously place the reader into a position in which he or she is required to size up the situation and suggest some action for the organization. The first section of the book: * supplies the tools needed to research, analyze, and present cases orally * includes a helpful template that guides students through the process of thinking through and making decisions The second section: * information about the U.S. Health Care System

Strategic Management of Health Care Organizations Linda E. Swayne, W. Jack Duncan, Peter M. Ginter, 2012-07-10 The 6th edition of this established text is streamlined to a more manageable format, with the Appendices moved to the web-site and a significant shortening of the main text. There is a greater focus on the global analysis of industry and competition; and analysis of the internal environment. In consultation with feedback from their adopters, the authors have concentrated on the fundamentals of strategy analysis and the underlying sources of profit. This reflects waning interest among senior executives in the pursuit of short-term shareholder value. As ever students are provided with the guidance they need to strategic planning, analysis of the health services environment (internal and external) and lessons on implementation; with additional discussion of organizational capability, deeper treatment of sustainability and corporate social responsibility and more coverage of the sources of organizational inertia and competency traps. This edition is rich in new examples from real-world health care organizations. Chapters are brought to life by the 'Introductory Incidents', 'Learning Objectives', 'Perspectives', 'Strategy Capsules', useful chapter summaries; and questions for class discussion. All cases and examples have been updated or replaced. In this edition the teaching materials and web supplements have been greatly enhanced, with power-point slides, to give lecturers a unique resource.

Sports Rehabilitation and the Human Spirit Anita Smith,2013-07-01 Sports Rehabilitation and the Human Spirit tells the intersecting story of a man, Michael E. Stephens, and an organization, the Lakeshore Foundation of Birmingham, Alabama, whose campus is world-renowned for rehabilitation, sports, and fitness services for children and adults who have experienced physical disability as a result of injuries, birth conditions, illness, or in service to our nation. This includes those with paralysis, amputations, and limited mobility and function due to muscular dystrophy, multiple sclerosis, cerebral palsy, spina bifida, stroke, and other health conditions that could present significant physical challenges. Stephens himself experienced a spinal injury and paralysis as a young man, later becoming a successful hospital executive and entrepreneur. The Foundation came out of this work, and today the Foundation operates a 45-acre campus, the showcase of which is a state-of-the-art 126,000-square-foot building that hosts many regional and national competitions for individual and team sports for those with physical disabilities. Some Lakeshore participants engage in sports and recreation for fun, others are Lakeshore-based athletes engaged in competitive sports, and still others are Paralympic and Olympic athletes who come to Lakeshore Foundation for training; in 2003, Lakeshore was designated by the United States Olympic Committee (USOC) as an official U.S. Training Site for Paralympic and Olympic athletes. Mike Stephens's story and Lakeshore's story are told here along with the inspiring stories of many individuals with disabilities who have rebuilt their lives through sports and fitness.
