Dmitry Rybolovlev Arnaud Ramsay, 2017-09-28 Russian businessman Dmitry Rybolovlev ranks in the top 200 wealthiest people in the world, according to Forbes Magazine. Since December 2011 he has been the Chairman of AS Monaco, regenerating the famous football club, and taking it from the bottom of the French Ligue 2 to the semi-finals of the Champions League and the French Ligue 1 Championship title in 2017. A man of many parts, he first trained to be an emergency cardiologist, then became an international businessman, spending eleven months as a prisoner in a Russian jail for a crime he did not commit, before going on to transform the fortunes of fertiliser giant Uralkali and listing the company on the London Stock Exchange. From Russia's Urals Mountains to Monaco's Stade Louis II, this biography traces the epic saga of this reserved, determined and enigmatic character. It dissects his extraordinary story and takes us backstage at this famous football club, where the transfers and negotiations take place. It transports us from Rybolovlev's hometown of Perm in eastern Russia to the private Greek island of Skorpios once owned by Aristotle Onassis and now the retreat of Rybolovlev and his family. With rare access to Dmitry Rybolovlev himself, this is the complete story.

Humanity and the Nature of Man Ebsen William Amarteifio, Ebsen William Amarteifio Bsc (Hons), 2013-06 This book is about the invaluable contribution of charities and humanitarians in our world, the benevolence of the majority, and the atrocities of a (very small) minority. Mankind's difficulties often stem from natural disasters, including terrible weather conditions creating human misery. The tsunami and the famine in Ethiopia are typical examples. The other difficulties that have beset humanity from time immemorial are man-made, like wars, slavery, and pogroms. We also have dictatorships, pariah states, and police states, which do not seek to serve their people and alienate the international community. The people in these places become outcasts, despite genuine and determined efforts by others to bring them into the fold. In any society, we see the destructive effects of misunderstanding, greed, envy, hatred, and discrimination. Senseless acts of individual barbarism also pose a problem. Governments, democratic or otherwise, are installed with all the natural and human resources, as well as the goodwill of the

global community, to serve and, where necessary, manage the difficulties of the people. History and current affairs indicate that no government is capable of delivering utopia to its people – even those unhampered by ideology, political sensitivities, self-interest, and retribution. Mankind's difficulties are ever so complex. Invariably, the void left has to be managed for mankind to have a life worth living. Nature abhors a vacuum, so says the adage. Political stalwarts like Abraham Lincoln and courageous clergymen William Wilberforce rise to the fore. This pious hegemony is ably supported by charities, humanitarians, and ordinary individuals who have shown courage and compassion and the willingness to save and improve lives. Charities continue to make the difference. The courage and compassion of Lincoln, Wilberforce, Nightingale, and Mother Teresa may be unsurpassed, but Providence will continue to provide heroes and heroines for humanity.
