Marketcraft Steven K. Vogel,2018-02-01 Modern-day markets do not arise spontaneously or evolve naturally. Rather they are crafted by individuals, firms, and most of all, by governments. Thus marketcraft represents a core function of government comparable to statecraft and requires considerable artistry to govern markets effectively. Just as real-world statecraft can be masterful or muddled, so it is with marketcraft. In *Marketcraft*, Steven Vogel builds his argument upon the recognition that all markets are crafted then systematically explores the implications for analysis and policy. In modern societies, there is no such thing as a free market. Markets are institutions, and contemporary markets are all heavily regulated. The free market revolution that began in the 1980s did not see a deregulation of markets, but rather a re-regulation. Vogel looks at a wide range of policy issues to support this concept, focusing in particular on the US and Japan. He examines how the US, the freest market economy, is actually among the most heavily regulated advanced economies, while Japan's effort to liberalize its economy counterintuitively expanded the government's role in practice. *Marketcraft* demonstrates that market institutions need government to function, and in increasingly complex economies, governance itself must feature equally complex policy tools if it is to meet the task. In our era-and despite what anti-government ideologues contend-governmental officials, regardless of party affiliation, should be trained in marketcraft just as much as in statecraft.

Household Horror Marc Olivier,2020-02-11 A scholar examines 14 everyday objects featured in horror films and how they manifest their power and speak to society's fears. Take a tour of the house where a microwave killed a gremlin, a typewriter made Jack a dull boy, a sewing machine fashioned Carrie's prom dress, and houseplants might kill you while you sleep. In *Household Horror*, Marc Olivier highlights the wonder, fear, and terrifying dimension of objects in horror cinema. Inspired by object-oriented ontology and the nonhuman turn in philosophy, Olivier places objects in film on par with humans, arguing, for example, that a sleeper sofa is as much the star of *Sisters* as Margot Kidder, that *The Exorcist* is about a possessed bed, and that *Rosemary's Baby* is a conflict between herbal shakes and prenatal vitamins. *Household Horror* reinvigorates horror film criticism by investigating the

unfathomable being of objects as seemingly benign as remotes, radiators, refrigerators, and dining tables. Olivier questions what Hitchcock's Psycho tells us about shower curtains. What can we learn from Freddie Krueger's greatest accomplice, the mattress? Room by room, Olivier considers the dark side of fourteen household objects to demonstrate how the objects in these films manifest their own power and connect with specific cultural fears and concerns. "Provides a lively and highly original contribution to horror studies. As a work on cinema, it introduces the reader to films that may be less well-known to casual fans and scholars; more conspicuously, it returns to horror staples, gleefully reanimating works that one might otherwise assume had been critically "done to death" (Psycho, The Exorcist, The Shining)." —Allan Cameron, University of Auckland

Blood and Magick James R. Tuck, 2012-03-01 Taking out hellish creatures—not a problem. Armed with blessed silver hollow-points and the ability to manipulate magick, he's ready for anything—except betrayal he never saw coming. . . Deacon Chalk knows the biggest danger in fighting monsters is becoming one. Just another day at the office for your friendly neighborhood occult bounty hunter. If keeping three helpless were-dog children safe means battling a malevolent trio of witches by any means necessary, so be it. If that means partnering with a ruthless government agent to stay one step ahead of the allies and friends he must now suspect, he's not going to cry about it. The only way Deacon can save humans and shape-shifters alike is to embrace a power beyond his imagining, putting his team at stake—and his soul on the line. . . Praise for Blood and Silver This is urban fantasy as men's fiction—Sookie Stackhouse meets the Dresden Files by way of Maxim. —Publishers Weekly More Deacon Chalk!

Dream Country Shannon Gibney, 2019-04-09 The heartbreaking story of five generations of young people from a single African-and-American family pursuing an elusive dream of freedom. Gut wrenching and incredible."— Sabaa Tahir #1 New York Times bestselling author of An Ember in the Ashes This novel is a remarkable achievement.—Kelly Barnhill, New York Times bestselling author and Newbery medalist Beautifully epic.—Ibi Zoboi, author American Street and National Book Award finalist Dream Country begins in suburban Minneapolis at the moment when seventeen-year-old Kollie Flomo

begins to crack under the strain of his life as a Liberian refugee. He's exhausted by being at once too black and not black enough for his African American peers and worn down by the expectations of his own Liberian family and community. When his frustration finally spills into violence and his parents send him back to Monrovia to reform school, the story shifts. Like *Kollie*, readers travel back to Liberia, but also back in time, to the early twentieth century and the point of view of Togar Somah, an eighteen-year-old indigenous Liberian on the run from government militias that would force him to work the plantations of the Congo people, descendants of the African American slaves who colonized Liberia almost a century earlier. When Togar's section draws to a shocking close, the novel jumps again, back to America in 1827, to the children of Yasmine Wright, who leave a Virginia plantation with their mother for Liberia, where they're promised freedom and a chance at self-determination by the American Colonization Society. The Wrights begin their section by fleeing the whip and by its close, they are then the ones who wield it. With each new section, the novel uncovers fresh hope and resonating heartbreak, all based on historical fact. In *Dream Country*, Shannon Gibney spins a riveting tale of the nightmarish spiral of death and exile connecting America and Africa, and of how one determined young dreamer tries to break free and gain control of her destiny.

The Journey to No Man's Land Andrew Jia, Milo is just your average kid. Until he's dragged off by his brother to a dangerous land... Milo would much rather be in his science lab, where his biggest concern is trying to avoid explosions. Not trying to dodge seasickness and survive sea monster attacks. But now he's in mortal danger on the high seas, with danger every which way he turns... Theo is annoyed. Milo has been constantly whining about the journey. He's this close to strangling his little annoying brother when they finally make landfall on No Man's Land. But neither of them could expect what comes next... No Man's Land is not what the legends have described it as. Creatures of unimaginable strength brew there, waiting in darkness. Will the brothers live long enough to escape? Or will they never return? Get *The Journey to No Man's Land* today to experience a dangerous adventure into mysterious lands!

Illustrated Cosmic Monopole Wyken Seagrave, 2015-09-08 Reviews on Amazon from the first edition of *Cosmic Monopole*: Truly bizarre, utterly unique I've never read a novel quite like this before. The author takes you on an exciting adventure full of unforgettable and vivid imagery. Solidly written with each character's personality shining through. If you find physics fascinating you will not be disappointed by the author's keen intellect and clear understanding of this most challenging (for me anyway) scientific subject. This is not a novel I will forget anytime soon, I would highly recommend it. Andrewly Very imaginative tale Anybody interested in a very imaginative and engrossing sci fi story needs to check this one out. I have been reading sci fi for decades and this story has elements that surprise me which is very unusual considering the number of novels and stories I have over the years. ric freeman A fascinating book An amazing book - I literally could not put it down... and I was reading it in Acrobat! Not the easiest format but it didn't matter, I wanted to know what happened next each time I had to leave it. I have a huge interest in The Hadron Collider so it was a foregone conclusion that I would enjoy this book and I wasn't disappointed. A great story - one that I can not wait to read the next episode of - with very complex characters and even more complex relationships. The author manages to combine his obvious extensive knowledge of the subject with an incredible imagination. I loved it! Vicki Time Crystal (of which this is the first book) is perhaps the first work of fiction which takes the reader on a journey back through the whole history of the universe. The author has gone to extraordinary lengths to make this novel as accurate as possible within the constraints of writing a superb story. This book includes a Glossary, Character Descriptions and Bibliography. So what's it about? The cosmic monopole has been wandering the Universe since it was created in the Big Bang. Its existence is fundamental to the way the Universe works. It is finally trapped by the powerful magnetic fields inside the ATLAS detector at CERN, Geneva, and begins to absorb protons from the LHC. Soon it is transformed into a black hole, and absorbs Irish school-teacher Sam and Chinese-Irish scientist Michael Zhang. Moments later, time stops everywhere in the universe except near fragments of mysterious blue crystals: Time Crystals! Thus begins an adventure which will see Sam's step-daughter Catriona embark on an adventure which will take her back to the Big Bang (and beyond!) in the ultimate adventure: to save the very universe itself.

Do Cats Have Belly Buttons? Paul Heiney, 2011-10-24 Why do jellies wobble? Why don't the oceans overflow? Why do racing cars have fat tyres? How do widgets in beer cans work? How many bones does a giraffe have in that long neck? I've been told that dogs only see in black and white. Is that

true? How do we know that no two snow crystals are the same? Why is the earth round? And how do we know it is? why do camels have such bad breath? What is a bruise? Are chemicals in my brain responsible for my falling in love? Will they fade as I grow older? How long can love last? Do Cats Have Belly Buttons? is a follow-up to the successful Can Cows Walk Down Stairs?. Answering life's big questions, as well as the small, it unravels the science behind those things we take for granted, and explains just why the world and its contents are as they are. Informative, entertaining, humorous, it is the perfect present for quizaholics, science addicts, the insatiably questioning, and anyone curious about life on earth.

Fury's Kiss Karen Chance,2012-10-02 Dorina Basarab is a dhampir—half-human, half-vampire. Subject to uncontrollable rages, most dhampirs live very short, very violent lives. But so far, Dory has managed to maintain her sanity by unleashing her anger on those demons and vampires who deserve killing... Dory is used to fighting hard and nasty. So when she wakes up in a strange scientific lab with a strange man standing over her, her first instinct is to take his head off. Luckily, the man is actually the master vampire Louis-Cesare, so he's not an easy kill. It turns out that Dory had been working with a Vampire Senate task force on the smuggling of magical items and weaponry out of Faerie when she was captured and brought to the lab. But when Louis-Cesare rescues her, she has no memory of what happened to her. To find out what was done to her—and who is behind it—Dory will have to face off with fallen angels, the maddest of mad scientists, and a new breed of vampires that are far worse than undead...

Fury's Gate One H. T. Martin,2011-08-29 Christian has a tough decision to make; does he go for the mysterious girl that teases and eludes him, or for the bubbly blonde who's near perfect in his eyes? Looking past their unique personalities and their incredible sex appeal that is so difficult for him to resist, his decision bears heavy burden because the girls in question are really a Valkyrie and a Harpy. The two races have been warring with each other for many millennia and Christian's final choice will decide one of their fates for good. As if a love triangle with devastating consequences wasn't enough, Christian also has to make a good impression his freshman year of college if he wants to have any chance of playing football next fall. While behaving like a good boy and dealing with two fantastical girls, he also has to come to terms with who his father is and, more importantly, what his father is. Mayhem, an immortal that previously held the title as The God of War, offers to help Christian on his journey to answer all of his questions. Mayhem's help proves to be detrimental rather than beneficial and forces Christian to take matters into his own hands. It's time for him to grow up and make up his mind; time is short.

Furies and Fireflies over Korea Graham A. Thomas,2008-07-15 The historian and author details the exploits of British and Australian pilots during the Korean War. With the outbreak of the Korean War, the UN Security Council called on its members to act and 16 nations did, with Britain sending aircraft carriers such as HMS Triumph, from which piston-engined Sea Fury fighters and Fairey Firefly fighter-bombers operated. This is the story of the British and Australian Fleet Air Arm pilots and their missions over hostile territory, missions carried out with distinction and honor.

Bubble Jordan Morris,Sarah Morgan,2021-07-13 Based on the smash-hit audio serial, Bubble is a hilarious high-energy graphic novel with a satirical take on the “gig economy.” Built and maintained by corporate benevolence, the city of Fairhaven is a literal bubble of safety and order (and amazing coffee) in the midst of the Brush, a harsh alien wilderness ruled by monstrous Imps and rogue bands of humans. Humans like Morgan, who’s Brush-born and Bubble-raised and fully capable of fending off an Imp attack during her morning jog. She’s got a great routine going—she has a chill day job, she recreationally kills the occasional Imp, then she takes that Imp home for her roommate and BFF, Annie, to transform into drugs as a side hustle. But cracks appear in her tidy life when one of those Imps nearly murders a delivery guy in her apartment, accidentally transforming him into a Brush-powered mutant in the process. And when Morgan’s company launches Huntr, a gig economy app for Imp extermination, she finds herself press-ganged into kicking her stabby side job up to the next level as she battles a parade of monsters and monstrously Brush-turned citizens, from a living hipster beard to a book club hive mind.
