Ascension. Saksaywaman. Shard of eternity Alexander Zubkov,2021-11-11 The mysterious and enigmatic Saksaywaman. How many questions it holds and continues to excite the scientific world and ordinary people. Once you look at these ruins, their grandeur and monumentality will never let you go. This is exactly what happened to an English lord who, after returning from Peru, wanted to know more about this mystical place. Possessing sufficient capital, he turns to one of the most reputable mercenaries on archaeological expeditions, Matthew, who gladly takes on the job... What awaits the protagonist in the wilds of South America, he could not have dreamed even in his most vivid dreams...

Living Life Backward David Gibson,2017-07-14 What if it is death that teaches us how to truly live? Keeping the end in mind shapes how we live our lives in the here and now. Living life backward means taking the one thing in our future that is certain—death—and letting that inform our journey before we get there. Looking to the book of Ecclesiastes for wisdom, Living Life Backward was written to shake up our expectations and priorities for what it means to live the good life. Considering the reality of death helps us pay attention to our limitations as human beings and receive life as a wondrous gift from God—freeing us to live wisely, generously, and faithfully for God's glory and the good of his world.

  Coming Apart Charles Murray,2013-01-29 NEW YORK TIMES BESTSELLER • A fascinating explanation for why white America has become fractured and divided in education and class, from the acclaimed author of Human Diversity. "I'll be shocked if there's another book that so compellingly describes the most important trends in American society."—David Brooks, New York Times In Coming Apart, Charles Murray explores the formation of American classes that are different in kind from anything we have ever known, focusing on whites as a way of driving home the fact that the trends he describes do not break along lines of race or ethnicity. Drawing on five decades of statistics and research, Coming Apart demonstrates that a new upper class and a new lower class have diverged so far in core behaviors and values that they barely recognize their underlying American kinship—divergence that has nothing to do with income inequality and that has grown during good economic times and bad. The top and bottom of white America increasingly live in different cultures, Murray argues, with the powerful upper class living in enclaves surrounded by their own kind, ignorant about life in mainstream America, and the lower class suffering from erosions of family and community life that strike at the heart of the pursuit of happiness. That divergence puts the success of the American project at risk. The evidence in Coming Apart is about white America. Its message is about all of America.

Are Filter Bubbles Real? Axel Bruns,2019-08-27 There has been much concern over the impact of partisan echo chambers and filter bubbles on public debate. Is this concern justified, or is it distracting us from more serious issues? Axel Bruns argues that the influence of echo chambers and filter bubbles has been severely overstated, and results from a broader moral panic about the role of online and social media in society. Our focus on these concepts, and the widespread tendency to blame platforms and their algorithms for political disruptions, obscure far more serious issues pertaining to the rise of populism and hyperpolarisation in democracies. Evaluating the evidence for and against echo chambers and filter bubbles, Bruns offers a persuasive argument for why we should shift our focus to more important problems. This timely book is essential reading for students and scholars, as

well as anyone concerned about challenges to public debate and the democratic process.

Paper Ghosts Jesse Kalfel,2023-06-29 Fenn Cooper is a journalist in trouble. His boss has given him one last chance to write a riveting story or lose his job. He decides to write about the eccentric people who work at a travelling circus in Ithaca, New York, where silent movies where once made. There he meets Zena, a little person fortune teller with uncanny abilities, and her friend Holey John, a Vietnam vet whose act is piercing his flesh for five bucks a pop, as penitence for what he imagines he did in Nam. Marvin Brinks, a Hollywood exec for a big-time movie production company, also finds himself in trouble when he stumbles upon a one-hundred-year old contract his company inherited from a long forgotten silent movie company that was based in Ithaca. Wording in the contract would trigger an audit, and an audit would expose him for embezzling millions of dollars from the company. When he realizes that several copies of the contract are missing, he hires an assassin to find the contracts and kill any heirs. As Fenn begins to write his story, he uncovers a connection between the long-forgotten contracts and a series of recent unsolved murders. What's more, he realizes that Zena and Holey John could be the killer's next victims. As these players converge in Ithaca, a deadly game of car and mouse ensues. Will Fenn uncover Marvin Brinks secrets and stop the murders before Zena and Holey John become the killer's next victim?
