Ancient Gospel or Modern Forgery? Tony Burke,2013-01-07 In 1958, American historian of religion Morton Smith made an astounding discovery in the Mar Saba monastery in Jerusalem. Copied into the back of a seventeenth-century book was a lost letter attributed to Clement of Alexandria (ca. 150-215 CE) that contained excerpts from a longer version of the Gospel of Mark written by Mark himself and circulating in Alexandria, Egypt. More than fifty years after its discovery, the origins of this Secret Gospel of Mark remain contentious. Some consider it an authentic witness to an early form of Mark, perhaps even predating canonical Mark. Some claim it is a medieval or premodern forgery created by a monastic scribe. And others argue it is a forgery created by Morton Smith himself. All these positions are addressed in the papers contained in this volume. Nine North American scholars, internationally recognized for their contributions to the study of Secret Mark, met at York University in Toronto, Canada, in April 2011 to examine recent developments in scholarship on the gospel and the letter in which it is found. Their results represent a substantial step forward in determining the origins of this mysterious and controversial text. List of Contributors: Scott G. Brown Tony Burke Stephen C. The "Homeric Hymn to Hermes" Athanassios Vergados,2013-01-01 This volume offers a detailed philological commentary on the longest of the Homeric Hymns. The commentary is preceded by a lengthy introduction addressing the Hymn's ideas on poetry and music, its humorous aspects, the poem's relation to the rest of archaic hexameter literature, its reception in later literature, its structure, date and place of composition, and the question of its transmission. Together, the introduction and the commentary provide a detailed analysis of the hymn with a view to ascertaining its significance in Greek literature.

The Sentences of Sextus Walter T. Wilson,2012-11-01 Described by Origen as a writing that “even the masses of believers have read,” the Sentences of Sextus offers unique insights into popular Christian thought during the late second century C.E. Although it draws extensively on canonical texts for the composition of its sayings, it is especially fascinating for the manner in which it integrates these texts with material derived from two generically similar collections of Pythagorean maxims. This volume provides a critical edition including evidence from the Greek, Latin, Syriac, and Coptic versions; a new translation; and the first commentary for the Sentences, an important document for investigating the history of early Christian wisdom, asceticism, and ethics.

Eros at the Banquet Louise Pratt,2012-09-13 After studying ancient Greek for a year, students often become discouraged when presented with unabridged classical texts that offer only minimal supportive apparatus. In welcome contrast, this intermediate-level textbook reinforces the first-year lessons and enables students to read Plato's Symposium, one of the most engaging works in Attic Greek, the dialect taught in most first-year courses. To meet the needs of students who are reading extended passages of challenging Greek for the first time, Louise Pratt, a classical scholar with more than twenty years' teaching experience, has lightly condensed the early readings, supplementing them with review exercises and new vocabulary. She includes the remaining portion of the dialogue in its entirety to give students the experience of reading Plato's imaginative dialogue in all its richness. All readings are glossed, with explanatory notes appearing on the same page as the relevant texts. Enlivened by twenty-five illustrations, Eros at the Banquet also features an introduction explaining the Symposium's historical and philosophical significance, a comprehensive glossary, and an up-to-date bibliography. Instructors may also supplement this volume with Pratt's The Essentials of Greek Grammar: A Reference for Intermediate Readers of Attic Greek, which includes many examples from the Symposium.
