Boots of Leather, Slippers of Gold Elizabeth Lapovsky Kennedy, Madeline D. Davis, 2013-10-08 When most lesbians had to hide, how did they find one another? Were the bars of the 1940s and 1950s more fun than the bars today? Did Black and white lesbians socialize together? *Boots of Leather, Slippers of*

Gold is a ground-breaking account of the growth of the lesbian community in Buffalo, New York from the mid-1930s to the early 1960s. Drawing on oral histories collected from 45 women, it is the first comprehensive history of a working-class lesbian community. These poignant and complex stories provide a new look at Black and white working-class lesbians as powerful agents of historical change. Their creativity and resilience under oppressive circumstances constructed a better life for all lesbians and expanded possibilities for all women. Based on 13 years of research, *Boots of Leather, Slippers of Gold* ranges over topics including sex, relationships, coming out, butch-fem roles, motherhood, aging, racism, work, oppression, and pride. Kennedy and Davis provide a unique insider's perspective on butch-fem culture and trace the roots of gay and lesbian liberation to the determined resistance of working-class lesbians. The book begins by focusing on the growth and development of community, culture, and consciousness in the bars and open house parties of the 1930s, '40s, and '50s. It goes on to explore the code of personal behavior and social imperative in butch-fem culture, centering on dress, mannerisms, and gendered sexuality. Finally the book examines serial monogamy, the social forces which shaped love and break-ups, and the changing nature and content of lesbian identity. Capturing the full complexity of lesbian culture, this outstanding book includes extensive quotes from narrators that make every topic a living document, a composite picture of the lives of real people fighting for respect and for a place that would be safe for their love.

Tales from the Slot Floor, Volume 1: Casino Slot Managers in Their Own Words David G. Schwartz, 2018-06-22 Slot machines are the backbone of most casinos. They earn the most money and determine the physical layout of the casino floor. The management of slot machines, which includes overseeing employees, selecting machines, designing the playing space, resolving customer disputes, and conducting analyses to improve operations, is a challenging field whose complexity has grown as the machines themselves have become more sophisticated. To better document the current issues in slot management--and the change the field has seen over the past four decades--the University of Nevada, Las Vegas Center for Gaming Research conducted an oral history project. Those interviewed were at all stages of their careers. Drawn from these interviews, *Tales from the Slot Floor* features slot managers discussing several of the most important issues in today's casino world, including: the optimal layout of a slot floor; the qualities demonstrated by both good and bad managers; what customers want from their visits to the casino; the vendor/casino relationship; appealing to millennials; and what the future holds. In addition, those with long careers share their views on the changes they have seen, and all subjects offer their advice to those embarking on a career in slot management. For those interested in becoming slot managers, or those just curious about how casinos work, *Tales from the Slot Floor* gives you the inside story of slot operations, from those who do it.
