**Slow Burn City** Rowan Moore,2016-03-10 With a new introduction for the paperback. London is a supreme achievement of civilization. It offers fulfilments of body and soul, encourages discovery and invention. It is a place of freedom, multiplicity and co-existence. It is a Liberal city, which means it stands for values now in peril. London has also become its own worst enemy, testing to destruction the idea that the free market alone can build a city, a fantastical wealth machine that denies too many of its citizens a decent home or living. In this thought-provoking, fearless, funny and subversive book, Rowan Moore shows how London's strength depends on the creative and mutual interplay of three forces: people, business and state. To find responses to the challenges of the twenty-first century, London must rediscover its genius for popular action and bold public intervention. The global city above all others, London is the best place to understand the way the world's cities are changing. It could also be, in the shape of a living, churning city of more than eight million people, the most powerful counter-argument to the extremist politics of the present.

Lincoln's Assassination Edward Steers,2014-09-09 For 150 years, the assassination of Abraham Lincoln has fascinated the American people. Relatively few academic historians, however, have devoted study to it, viewing the murder as a side note tied to neither the Civil War nor Reconstruction. Over time, the traditional story of the assassination has become littered with myths, from the innocence of Mary Surratt and Samuel Mudd to John Wilkes Booth's escape to Oklahoma or India, where he died by suicide several years later. In this succinct volume, Edward Steers, Jr. sets the record straight, expertly analyzing the historical evidence to explain Lincoln's assassination. The decision to kill President Lincoln, Steers shows, was an afterthought. John Wilkes Booth's original plan involved capturing Lincoln, delivering him to the Confederate leadership in Richmond, and using him as a bargaining chip to exchange for southern soldiers being held in Union prison camps. Only after Robert E. Lee surrendered the Army of Northern Virginia and Richmond fell to Union forces did Booth change his plan from capture to murder. As Steers explains, public perception about Lincoln's death has been shaped by limited but popular histories that assert, alternately, that Secretary of War Edwin Stanton engineered the assassination or that John Wilkes Booth was a mad actor fueled by delusional revenge. In his detailed chronicle of the planning and execution of Booth's plot, Steers demonstrates that neither Stanton nor anyone else in Lincoln's sphere of political confidants participated in Lincoln's death, and Booth remained a fully rational person whose original plan to capture Lincoln was both reasonable and capable of success. He also implicates both Mary Surratt and Samuel Mudd, as well as other conspirators, clarifying their parts in the scheme. At the heart of Lincoln's assassination, Steers reveals, lies the institution of slavery. Lincoln's move toward ending slavery and his unwillingness to compromise on emancipation spurred the white supremacist Booth and ultimately resulted in the president's untimely death. With concise chapters and inviting prose, this brief volume will prove essential for anyone seeking a straightforward, authoritative analysis of one of the most dramatic events in American history.

**Why Don't American Cities Burn?** Michael B. Katz,2012-05-25 At 1:27 on the morning of August 4, 2005, Herbert Manes fatally stabbed Robert Monroe, known as Shorty, in a dispute over five dollars. It was a horrific yet mundane incident for the poor, heavily African American neighborhood of North Philadelphia—one of seven homicides to occur in the city that day and yet not make the major newspapers. For Michael B. Katz, an urban historian and a juror on the murder trial, the story of Manes and Shorty exemplified the marginalization, social isolation, and indifference that plague American cities. Introduced by the gripping narrative of this murder and its circumstances, *Why Don't American Cities Burn?* charts the emergence of the urban forms that underlie such events. Katz traces the collision of urban transformation with the rightward-moving social politics of late twentieth- and early twenty-first-century America. He shows how the bifurcation of black social structures produced a new African American inequality and traces the shift from images of a pathological black underclass to praise of the entrepreneurial poor who take advantage of new technologies of poverty work to find the beginning of the path to the middle class. He explores the reasons American cities since the early 1970s have remained relatively free of collective violence while black men in bleak inner-city neighborhoods have turned their rage inward on one another rather than on the agents and symbols of a culture and political economy that exclude them. The book ends with a meditation on how the political left and right have come to believe that urban transformation is inevitably one of failure and decline abetted by the response of government to deindustrialization, poverty, and race. How, Katz asks, can we construct a new narrative that acknowledges the dark side of urban history even as it demonstrates the capacity of government to address the problems of cities and their residents? How can we create a politics of modest hope?

**Burn** Bill Ransom,2011-07-15 From the New York Times-bestselling co-author of *The Jesus Incident*, this “fascinating” genetic engineering thriller has “plenty of flare” (Publishers Weekly). The vivid and gritty sequel to Bill Ransom's *ViraVax* *Burn* takes today's genetic research one step into a terrifying future: a “Hot Zone” world gone mad about a man-made contagion that literally leaves no one untouched. It is called *GenoVax*, and the death it brings is horrifying. It is the most frightening weapon mankind has ever created, and when it is unleashed, the human race will know what it is like to burn . . .
