The Little Book of Business Cards David E.

Carter,2005-04-26 The business card has taken on a new level of importance in recent years. In an age where the business letter has been replaced by email, the personal contact evoked by a business card is more crucial than ever. Your card is often the one item taken away from a meeting, defining how people view your business long after any face-to-face meeting has faded from memory. Whether you're a businessperson trying to develop your own letterhead set or a graphic designer trying to come up with that next great idea, your challenge is to communicate the look and feel of your company in the space your card and letterhead allows. The Little Book of Business Cards presents an unparalleled source of inspiration. In these pages, David E. Carter has gathered more than 260 representative examples of effective business cards and matching letterhead sets. Learn how to get the most from your choice of fonts, color, size, layouts, and logos - and even what to do when you don't have a logo! As an extra bonus feature, David E. Carter provides informative and instructional annotations to the featured business cards -- valuable lessons for you to apply to your own designs. With The Little Book of Business Cards in your library, you'll be sure to have a business-building design in no time.

Deluxe Dana Thomas, 2007-08-16 "With Deluxe: How Luxury Lost Its Luster, [Dana] Thomas—who has been the cultural and fashion writer for Newsweek in Paris for 12 years—has written a crisp, witty social history that's as entertaining as it is informative." —New York Times From the author of Fashionopolis: The Price of Fast Fashion and the Future of Clothes Once luxury was available only to the rarefied and aristocratic world of old money and royalty. It offered a history of tradition, superior quality, and a pampered buying experience. Today, however, luxury is simply a product packaged and sold by multibillion-dollar global corporations focused on growth, visibility, brand awareness, advertising, and, above all, profits. Award-winning journalist Dana Thomas digs deep into the dark side of the luxury industry to uncover all the secrets that Prada, Gucci, and Burberry don't want us to know. Deluxe is an uncompromising look behind the glossy façade that will enthrall anyone interested in fashion, finance, or culture.

Business Cards 3 Liz Farrelly, Michael Dorrian, 2009-06-10 One of the most ubiquitous pieces of printed matter, the business card presents a unique design conundrum. Constrained by budgetary and size restrictions, how do you present a person's or a business's identity and contact details, all in a very small space...and still have some fun? In an age dominated by digital media, the first two books in this series revealed the unique potential of the business card as an opportunity for creative

greetings, firmly stamped with the user's personality. Business Cards 3 features over 200 innovative interpretations of the humble business card from around the world. Collected from designers and clients across the creative industries, highlighting materials, formats, and production methods that push the boundaries of this genre, the result is a book full of inspiring surprises.

Creative Business Cards Carmen Fong, Shantell Chen, 2014
Business cards are a statement of identity. Capable of conveying much more than contact information, they represent the creativity or style of a company in a very portable format. As an historical artifact in the digital age, they are constantly in danger of obsolescence and only those that truly stand out are memorable. One way to achieve the note

How to Use Your Business Cards for Success G. Lee Mikules, 2003
Your business card is usually the first tangible thing a customer/client will take with him or her after meeting you. Does it communicate the message you want it to? G. Lee Mikules offers guidelines on how to get the most from your card- from design to distribution. Everyone is concerned about what is important to them before they are concerned about anything else. And you, as the one who hands them out, must realize that your ego will clash with that of the person who receives your card...The person you hand your card to does not care about your name or the fact that you have been in business for 25 years, or that you have every credential possible, and so forth. The only thing he is interested in is what your business, product, or service can do for him. Will it save or make him money? Will it feed his ego? You have to distill the essence of what your business is, and, most importantly, what it can do for your customer into a concise, benefit-oriented, hard-hitting sales message. Then put that message front and centre on your card!

With thousands of examples being exchanged around the world, *Business Cards 2* casts a wide net, featuring designs for creative individuals and organizations sourced from all continents.
