Developing and Managing a Successful Payment Cards

Business Jeff Slawsky, Samee Zafar, 2017-05-15 The credit card industry today is a multi-trillion dollar business that employs hundreds of thousands of people across the globe and impacts literally billions of people every day. Yet there is no comprehensive book or reference material available in the marketplace that provides fact-based perspectives on how to develop and manage a successful card business - despite the significant demand from all those involved in the industry. **Developing and Managing a Successful Payment Cards Business** offers information, analysis, observations, perspectives and advice on developing and managing a card business. There is comprehensive coverage of all

areas including card business strategy, product development, customer acquisition and retention strategies, and product marketing techniques. The book also reviews underlying infrastructure components relating to operations and systems including risk management and transaction processing and suggests improvement techniques. There is detailed discussion on portfolio performance and profitability evaluation, as well as new technology developments and emerging payment systems such as chip cards and mobile payments.

Business Model Innovation Allan Afuah, 2014-03-26 Rooted in strategic management research, Business Model Innovation explores the concepts, tools, and techniques that enable organizations to gain and/or maintain a competitive advantage in the face of technological innovation, globalization, and an increasingly knowledge-intensive economy. The book investigates

how organizations can use innovations in business models to take advantage of entrepreneurial opportunities from: • Crowdsourcing and open innovation • Long Tails • Social media • Disruptive technologies • Less-is-more innovations • Network effects • Scarcity of complementary capabilities The book also looks at the ways firms can use innovations in business models to exploit or defend against threats. With twelve supplementary cases to help readers apply the concepts and techniques, this book is a must-have for anyone looking to understand the fundamentals of business model innovation.

Multi-application Smart Cards Mike Hendry, 2007-06-28 Multi-application smart cards have yet to realise their enormous potential, partly because few people understand the technology, market, and behavioural issues involved. Here, Mike Hendry sets out to fill this knowledge gap with a comprehensive and accessible guide. Following a review of the state-of-the-art in smart card technology, the book describes the business requirements of each smart-card-using sector, and the systems required to support

multiple applications. Implementation aspects, including security, are treated in detail and numerous international case studies cover identity, telecoms, banking and transportation applications. Lessons are drawn from these studies to help deliver more successful projects in the future. Invaluable for users and integrators specifying, evaluating and integrating multi-application systems, the book will also be useful to terminal, card and system designers; network, IT and security managers; and software specialists.

Growth Hacking Raymond Fong, Chad Riddersen, 2017 In *Growth Hacking: Silicon Valley's Best Kept Secret*, growth consultants Raymond Fong and Chad Riddersen deconstruct the phenomenon used by Silicon Valley's fast growing tech elite, growth hacking. Raymond and Chad's framework, the ASP(TM), is an easy to understand blueprint that empowers any business to apply growth hacking. The ASP(TM) was developed through their work in the tech community and used to produce high-leverage, scalable growth for companies in a variety of industries including several companies featured on ABC's TV show *Shark Tank*. If you're looking for creative, cost-effective ways to grow your business, then ASP(TM) is the answer.
