**The Little Book of Business Cards** David E. Carter,2005-04-26 The business card has taken on a new level of importance in recent years. In an age where the business letter has been replaced by email, the personal contact evoked by a business card is more crucial than ever. Your card is often the one item taken away from a meeting, defining how people view your business long after any face-to-face meeting has faded from memory. Whether you're a businessperson trying to develop your own letterhead set or a graphic designer trying to come up with that next great idea, your challenge is to communicate the look and feel of your company in the space your card and letterhead allows. The Little Book of Business Cards presents an unparalleled source of inspiration. In these pages, David E. Carter has gathered more than 260 representative examples of effective business cards and matching letterhead sets. Learn how to get the most from your choice of fonts, color, size, layouts, and logos -- and even what to do when you don't have a logo! As an extra bonus feature, David E. Carter provides informative and instructional annotations to the featured business cards -- valuable lessons for you to apply to your own designs. With The Little Book of Business Cards in your library, you'll be sure to have a business-building design in no time.

**How to Use Your Business Cards for Success** G. Lee Mikules,2003 Your business card is usually the first tangible thing a customer/client will take with him or her after meeting you. Does it communicate the message you want it to? G. Lee Mikules offers guidelines on how to get the most from your card- from design to distribution.Everyone is concerned about what is important to them before they are concerned about anything else. And you, as the one who hands them out, must realize that your ego will clash with that of the person who receives your card...The person you hand your card to does not care about your name or the fact that you have been in business for 25 years, or that you have every credential possible, and so forth. The only thing he is interested in is what your business, product, or service can do for him. Will it save or make him money? Will it feed his ego? You have to distill the essence of what your business is, and, most importantly, what it can do for your customer into a concise, benefit-oriented, hard-hitting sales message. Then put that message front and centre on your card!

**Creative Business Cards** Carmen Fong,Shantell Chen,2014 Business cards are a statement of identity. *Business Cards* Mike Dorrian,Liz Farrelly,2004-11-23 Business Cards: The Art of Saying Hello is the ultimate business card book, bringing together the best examples of cards created by designers around the world. Business cards are a major design challenge; creating successful cards is all about the clever use of space; but just a little space. And that's not all. A design needs to make a splash, stand out from the crowd or announce you as part of a team; and how do you solve the problem of creating a universally understood message while catering to cultural differences and multiple languages? Materials are also important; not all cards are machine printed, and this book features cards on punched metal, stitched fabric, cards with heat-sealed cut-outs, or made from recycled subway tickets, plus clever examples of best-practice using “make-your-own” business-card machines. Over 300 cards are grouped into sections reflecting different design approaches: Typography, Photography, Materials, Illustration and Found Objects. Proving just how inventive you can be with a limited space, this book is a rich source of ideas and inspiration both for designers and anyone wishing to make a statement with their business card.
