*The Business Idea* Soren Hougaard,2006-03-20 Successful business ideas are not so much about talent as about a systematic approach. The Business Idea encourages new ways of thinking when it comes to entrepreneurship and innovation. Too many ventures originate in the solutions the entrepreneur has to offer and not in the problem the customer needs solved. Business plans done this way can often lead to disappointment. The Business Idea leaves behind this product orientated logic. The book presents new, applicable entrepreneurship methods for developing creative market insight, for identifying windows of opportunity, creating business concepts and entrepreneurial strategies for successful market entry. Entrepreneurship is a complex and risky process compared to almost everything else in business life, so it richly deserves to have its own theoretical and methodological toolbox. The Business Idea provides the tools making it of interest to anyone who works with getting an enterprise off the ground or studies entrepreneurship.

Prior to writing the book, I observed the experiences of 300,000 entrepreneurs who used my Problemio business apps to start a business. I personally talked to and helped over 1,000 entrepreneurs right on the apps or in my business coaching practice. This gave me a great understanding of what entrepreneurs go through. **Business Idea Fundamentals** James David Rockefeller, 2017-11-04 Most people today are walking around mindlessly, asking other people for good business ideas. Successful business ideas are often formulated on the back of due diligence and serve many people who are looking for solutions to similar problems. Too many individuals are following the crowd into densely populated niches where they will find only fierce competition, because many businesses have already successfully established their credibility there. Frequently, this can make the situation difficult for a new start-up business, because they may have to adjust their prices to compete with other businesses within their niche. If you are looking for business ideas, the best recommendation is for you to look around for a problem. This means looking for groups of people who share the same problem or have a specific need. Your opportunity, then, is to find a solution to the problem and turn it into a product or service that will be effective in serving these people. Your business ideas must aim to give your customers as much value as possible and keep them happy. Your role is to create anticipation, which will bring them in and keep them coming back for more. Once you have them in the front door, keep them inside by giving them as much value as possible. Be sure to keep a database of contact details, so that you can provide them with any updates you need to release to your customers. E-mail is preferred because there are no costs associated with sending out emails, and it is a simple way to get the message out to many of your customers from the push of a button. Remember, the best business ideas are founded on a solution that solves people's specific needs. If you are looking to start a business in an already populated niche, make sure you think of ways to differentiate your business from the crowd. Give your clients more value for their time and dollars. A very important tip that I would highly suggest you take into consideration is giving away as much free value as possible. Find a way to give as much free and valuable content to your customers as you can. This will help you in becoming an authority and in building greater credibility/trust with your customers. The rise of the internet bears witness to the quote made famous by Bill Gates - Content is King. Content is now cash and any ability your business has to give away free content will benefit your business financially.
