Opportunities Edward De Bono,1991-01 Everybody assumes that he or she is opportunity-conscious -- but is frequently only conscious of the need to be opportunity-conscious. For often what looks like an opportunity isn't one after all. Opportunities is a handbook which offers a total, systematic approach to opportunity-seeking at both corporate and executive levels. It is Edward de Bono's most significant contribution to business since he developed lateral thinking - and it should have just as much impact. Every organisation likes to think it is constantly on the lookout for new ideas and how to implement them. But is this really the case? Many enterprises look to R&D and New Business divisions to generate opportunities, but each only covers part of the field, leading to poor decision-making. With the help of this book, find a systematic approach to the opportunity search - both at the corporate and the individual level.

Opportunity Eben Pagan,2019 A successful entrepreneur and internet marketer discusses opportunity, how to find and create it, and how to develop great opportunities in business, investing, health, relationships, personal development, and other areas of life.

Identifying Business Opportunities Anthony Ekanem,2016-07-12 No one is born successful. When we were born, we even did not know how to spell successful, knowing its meaning was something quite far-off. As we grew up, we began chipping in efforts to turn our lives into successful lives. Some of us do achieve the success that we have thought about, but that doesn't come without a great deal of effort. One of the most important ingredients in becoming successful is to have a vision, a dream. If you don't know how to dream, you will most probably not achieve anything in life. Some people are afraid to dream, thinking they would be terribly frustrated if they don't achieve their goals. But the fact is that if you don't dream, you probably won't get it. Great people dreamed of flying, going to the moon and so on... you see now that we can fly, we can go to the moon. In this age when people are thinking how to build gadgets that can turn objects and even people invisible, it is quite unwise to restrict one's thoughts. What do you dream about? Probably you dream about having a great business or buying a home or a car of your own. In the light of all the achievements that people have made, do you think all this is as difficult as you think? This shows there is nothing impossible in this world you if you do it the right way, if you take initiatives and plan it properly. Practically the whole world today uses his Microsoft products, not realizing that these products belong to a person who is a computer dropout. Take a look at Facebook. It started as a college project and has today made a revolution in the field of social networking. How can we not talk about Google, which started in a dingy office and today it dominates our online world. All these successes have been achieved in just a few short years! So, don't lose hope, hold on to your big dreams and try to achieve them. The simple steps that you need to take are hard work, and to be there at the right time and the right place.

Opportunity Knocks Senator Tim Scott,2020-04-14 In this memoir about overcoming adversity in America, the U. S. Senator responsible for creating opportunity zones explains how hard work and community growth can drive businesses and end poverty. Senator Tim Scott knows adversity. As the son of a

single mother from North Charleston, South Carolina, he struggled to get through school and had his dreams of a college football career shattered by a car wreck. But thanks to his mother and a few mentors along the way, he learned that failure isn't failure unless you quit. He also learned that it's hard work and perseverance, not a government handout, that will get you ahead in life. Today, Senator Scott is the only black Republican in the Senate, and he believes that investment and commerce are the best ways to rebuild our most impoverished communities. This is the idea behind his signature piece of legislation, the opportunity zones program, which President Trump has strongly endorsed. The program provides tax incentives for businesses that invest in low-income urban areas, seeking to replace things like welfare and government assistance. In Opportunity Knocks, Senator Scott will tell his life story with a focus on adversity and opportunity. He will teach readers about the principles of hard work and hope while addressing the dangers of veering too far toward socialist policies. The book will also not shy away from discussions of racism and racial inequality in the United States and will recount some of Senator Scott's own brushes with racism as well as the many discussions he's had with people who want to help, including President Trump.
