Butterflies Are Beautiful Annette Meredith,2015-04-06 Butterfly populations have suffered a serious and rapid decline over the last few decades. The monarch butterfly in particular is disappearing at an alarming rate and is becoming endangered in North America. Climate change and human activity have resulted in the loss of habitat for these creatures, but by learning about butterflies and their needs we can all act to help these amazing insects to survive. In this book for elementary school-aged children, the author uses stunning, original photographs and simple text to bring us the message of the butterflies by explaining their role in nature, how they are endangered, and how we can help them. Text boxes throughout the book provide word definitions and fun facts. Adults will enjoy sharing the book with children and even young children will learn a lot from the pictures. A section for parents and teachers at the end of the book includes ideas for discussion and projects, as well as a page listing plants that are easily grown and will attract butterflies. Children also have a page to record their own butterfly sightings and write about the butterflies they've seen. The strong emphasis on conservation and the environment will encourage readers to think about such topics as the food chain, the effect of pesticides and the protection of wildlife habitats. This book is part of the Nature on Our Doorstep series, designed to inspire children to learn about the world around us.

The Caterpillar That Learned to Fly Sharon Clark,2015-12-04 This picture book will delight children between the ages of 5 to 9. It is told in a unique story format from the perspective of Cutter a caterpillar. Children will learn fascinating facts about this caterpillar as the story unfolds. They will also discover the amazing transformation of one caterpillar into a butterfly. Cutter is a caterpillar that eats, grows and sheds his outer skin a number of times. Although he lives a simple life on milkweed leaves, it often is filled with danger. A few weeks later he feels different, and he senses that he needs a very long rest. This time, as he hangs upside-down on the stalk of a milkweed leaf, great changes occur to his body. Cutter transforms into Flutter, a beautiful Monarch butterfly. He wastes no time in exploring a vast new world that he never knew existed. This book will let kids see how wondrous the natural world can be. It will also encourage them to follow Flutter's example and discover what is beyond the world they are familiar with.

The Caterpillar That Learned to Fly Sharon Clark,2016-11-29 This picture book will delight children between the ages of 5 to 9. It is told in a story format from the perspective of Cutter a Monarch caterpillar. Children will learn fascinating facts about this caterpillar as the story unfolds. They will see the amazing transformation of Cutter into a beautiful Monarch butterfly and his migration to Mexico.

Butterflies in Flight Roger Camp,2002 Here is an exquisitely beautiful homage to the colourful celebrity of the insect world, the butterfly. With more than 300 photographs of real butterflies, depicted in all their lightness and brilliance, and presented in a unique accordion-fold format, Butterflies in Flight is a strikingly attractive gift book that will appeal to anyone who appreciates art and nature. Hundreds of butterflies soar and drift across the page. Each panel of this traditional Japanese format stands on its own visually, yet is also designed to lead to the next panel so that the flight itself appears to glide, panel after panel, before the viewer. The accordion format, which unfolds to more than 23 metres, allows the book to be set upright and displayed as a delightful art object. Roger Camp has brilliantly used modern techniques of photography and digital imaging to create an irresistible flight of real butterflies. He was first inspired by Kanzaka Sekka's 1904 woodblock-printed book, One Thousand Kinds of Butterflies, to find a contemporary way of marrying beauty with technology, thus creating a magical presentation of these infinitely graceful creatures.
