What Real Estate Agents in Spain Might NOT Tell You. Rutger Berntsen, 2021-03-08 This book comes with an access code for nine videos (together approx. one hour) that you can see online. With more than 60 tips, notes, unbelievable but true anecdotes, plus checklists, dictionaries & videos, this book, will guide you through buying property successfully in Spain. I have worked for 28 years in the Spanish building industry as an architectural designer/project manager, and I have seen it all. You will be surprised what can come across your path when you start your journey to purchasing a property in Spain. I have inspected many properties before, and unfortunately also some áfter the purchase. Today, everybody is familiar with popular television programs about moving to a foreign country and starting a new life. When viewing properties, people tend to look at the view and forget to look at the house. With the information I provide, you will not forget to look at the most critical issues. One might think that a Real Estate Agent will do this for you, but when you think about it, a real estate agent is only there to make a commission on the sale, so his interest in selling. A real estate agent is not a protected profession in Spain; you too, can become a real estate agent. I am not saying that all real estate agents are not to trust, but as they all share their portfolios (and after the sale share the commission), it will be impossible for them to have a thorough knowledge of each property they intend to sell. With the information I provide, you gain knowledge that gives you the power to bargain, e.g. and save money. Below an idea of what you might come across, which I discuss in the videos. - Are you aware of áll costs involved when buying a property in Spain? This information will help you to save money! -Believe it or not, but there are still illegal urbanizations and illegal inhabited buildings in Spain. How could it affect you? -Want to make money out of your property? I will explain hów and what to take into account.-You will get to understand how to buy in the right location.-Everybody can have a pool constructed, right? Wrong! Beat false promises, obtain knowledge of your own. -Don't just ask for any invoice; get to know which ones to ask for! This information alone is worth far more than the cost of this book. -Be careful to sign a simple form to view a property. YOU could end up paying the 5% sales commission instead of the seller. With my information, you increase your chance to buy successful in Spain tremendously. Enjoy.

Teach Yourself Spanish for Homebuyers Peter MacBride, Nat MacBride, Eva Mendaro Carrió, 2007-11-01 It is estimated that nearly a million Brits now own houses in Spain and that at least 100,000 are buying, looking for, or at least thinking seriously about, a (second) home in Spain. Every home owner has to go through the process of searching for property and buying it; most new and existing owners will be renovating or redecorating at some point and this will involve dealing with tradesmen and/or suppliers. For this, these homebuyers will need to understand at least the basics of Spanish property law, house construction, building, plumbing, electrical systems etc, and they need to know not only the words but how the systems work. Teach Yourself Spanish for Homebuyers gives the explanations and vocabulary for each aspect of finding, buying, renovating and living in a house in Spain. In addition to approximately 90 labelled illustrations, the book has a CD which gives the pronunciation and practice of the necessary vocabulary.
