**Call My Bluff** Frank Muir, Patrick Campbell, 1977

**The Moral Wager** Malcolm Murray, 2007-05-05 In the following chapters, I offer an evolutionary account of morality and from that extrapolate a version of contractarianism I call consent theory.

Game theory helps to highlight the evolution of morality as a resolution of interpersonal conflicts under strategic negotiation. It is this emphasis on strategic negotiation that underwrites the idea of consent. Consent theory differs from other contractarian models by abandoning reliance on rational self-interest in favour of evolutionary adaptation. From this, more emphasis will be placed on consent as natural convergence rather than consent as an idealization. My picture of contractarianism, then, ends up looking

more like the relativist model offered by Harman, rather than the rational (or pseudo-rational) model offered by Gauthier, let alone the Kantian brands of Rawls or Scanlon. So at least some of my discussion will dwell on why it is no loss to abandon hope for the universal, categorical morality that rational models promise. In the introduction, I offer the betting analogy that underwrites the remaining picture. There are some bets where the expected utility is positive, though the odds of winning on this particular occasion are exceedingly low. In such cases, we cannot hope to give an argument that taking the bet is rational. The only thing we can say is that those predisposed to take this kind of bet on these kinds of occasions will do better than those with other dispositions, so long as such games occur often enough.

Reinventing Ourselves as Teachers Claudia Mitchell,Sandra

Weber,2003-10-04 Designed for use by teachers and teacher educators, this text should help both novice and experienced

teachers reinterpret their working lives. The reader is led on a path of personal exploration that goes beyond standard approaches and leads from the personal to the critical. Illustrative material is drawn from all levels, from kindergarten to high school, to illuminate issues and questions fundamental to teachers' lives. Film and literary narratives supply further case studies and contribute to the fusion of critical reflection and everyday realities that typically inform teachers' experiences of work.

**Dial M for Morna** Evan Munday, 2013-10-01 As the Dead Kid Detective Agency embarks on its second (mis)adventure, October Schwartz and her five dearest friends are back, turning over metaphoric rocks and finding the centipedes underneath. In this latest volume, set against a backdrop of yuletide pandemonium, they discover dark supernatural forces at work in Sticksville and sleuth their way through a mystery involving a blizzard of suffragettes, ice skating disasters, anti-Asian sentiment, and the Titanic. Although the holiday season has descended upon the town like an eggnog rainstorm, October has no time for candy canes or mistletoe. She's busy dealing with an oddly pleasant new history teacher, her two living friends' new roles as high school radio DJs, and mysteries to be solved before the year end. October and her

ghost friends are hot on the trail of those responsible for Morna MacIsaac's death in 1914—or as hot as one can be on a 100-year-old trail—when Yumi becomes the target of a sinister harassment campaign at school. Solving dual concurrent mysteries at once won't be easy, but the intrepid heroine in black eyeliner loves a challenge.

*My Wicked Half-Sister* E.M. Tippetts, 2016-01-12 Chloe didn't set out to be famous, but her marriage to Hollywood A-lister, Jason Vanderholt, made her a celebrity by association. Jealous and nosy fans heckle her in public and the tabloids portray her as cold,

arrogant, and unworthy of her husband. As bad as that is, it's about to get a whole lot worse. Her brother, Chris, is being paroled from prison, where he has been serving time for shooting and nearly killing Chloe when she was a child. This is not a situation that she wants splashed all over the headlines, especially because this could incite her brother to try to finish the job. When Chloe gets word of a string of crimes that might be tied to her brother, she finds she has yet another enemy: their father, Dr. Winters. He refuses to cooperate with Chloe's security team and even gives the police a hard time when they try to investigate. The one ally Chloe has in her own family is her half-sister, Beth, a public prosecutor intent on bringing Chris to justice. Her approach is so aggressive that everyone from Chloe's security specialist to the police detective insists that she is doing more harm than good. Beth assures Chloe that her way is the only way that will work, which leaves Chloe to decide whether to trust the experts, or the sister she barely knows. The wrong choice puts her very life in danger.
