There is no magic. There are no pills to take nor proprietary shakes to blend. There is no need to embarrass yourself at weekly weigh-ins or purchase Drink Your Carbs-branded frozen dinners. The Drink Your Carbs concept is simple: the calories in alcohol can be offset through a combination of exercise and exchanging high-calorie, low-nutrition foods such as added sugars and simple carbohydrates for quality meats, fresh fruit and vegetables. Losing weight while continuing to drink alcohol is as easy as pie—as long as you accept the fact that you can no longer eat pie.

Read It Before You Eat It Bonnie Taub-Dix,2010-08-31 A nationally recognized nutrition expert tells shoppers exactly what should be going into their carts. The whole foods movement explained how to shop healthfully at the farmers market, but how can families shop smart at Wal-Mart? There is a wealth of information on labels, but most people have no idea that products labeled trans-fat free can contain trans-fats or that all natural is a meaningless phrase. Readers can bring this handy guide to the supermarket to help them interpret labels like a pro. How much sodium is too much? Are all carbs the kiss of death? And what does organic really mean? Renowned nutritionist Bonnie Taub-Dix clears up the confusion by showing readers how to make sense of the labels and sidestep tricky marketing ploys. She walks them through a typical grocery store and points out the best food choices to make in every aisle.

The Hunger Fix Pamela Peeke,2013-09-17 The body's built-in reward system, driven by the chemical dopamine, tells us to do more of the things that give us pleasure: Creative energy, falling in love, entrepreneurship, and even the continued propagation of the human race are driven by this system. Unfortunately, so is the urge to overeat. In The Hunger Fix, Dr. Pam Peeke uses the latest neuroscience to explain how unhealthy food and behavioral fixes have gotten us ensnared in a vicious cycle of overeating and addiction. She even shows that dopamine rushes in the body work exactly the same way with food as with cocaine. Luckily, we are all capable of rewiring, and the very same dopamine-driven system can be used to reward us for healthful, exciting, and fulfilling activities. The Hunger Fix lays out a science-based, three-stage plan to break the addiction to false fixes and replace them with healthier actions. Fitness guides, meal plans, and recipes are constructed to bolster the growth of new neurons and stimulate the body's reward system. Gradually, healthy fixes

like meditating, going for a run, laughing, and learning a new language will replace the junk food, couch time, and other bad habits that leave us unhappy and overweight. Packed with practical tips, useful advice, and plenty of wit, wisdom, and inspiring stories of those who have successfully transformed their bodies, The Hunger Fix is a life-changing program for anyone (of any size) trapped by food obsession and the urge to overeat.
