- Pome and Take It Cody Wilson, 2017-06-06 Cody Wilson, a self-described crypto-anarchist and rogue thinker, combines the story of the production of the first ever 3D printable gun with a philosophical manifesto that gets to the heart of the twenty-first century debate over the freedom of information and ideas. Reminiscent of Steal This Book by Abbie Hoffman, Cody Wilson has written a philosophical guide through the digital revolution. Deflecting interference from the State Department and the Bureau of Alcohol, Tobacco, Firearms and Explosives, the story of Defense Distributed -- where Wilson's employees work against all odds to defend liberty and the right to access arms through the production of 3D printed firearms -- takes us across continents, into dusty warehouses and high rise condominums, through television studios, to the Texas desert, and beyond.
