Red Rising Pierce Brown, 2014-01-28 NEW YORK TIMES BESTSELLER • Pierce Brown's relentlessly entertaining debut channels the excitement of *The Hunger Games* by Suzanne Collins and *Ender's Game* by Orson Scott Card. "Red Rising ascends above a crowded dystopian field."—USA Today ONE OF THE BEST BOOKS OF THE YEAR—Entertainment Weekly, BuzzFeed, Shelf Awareness "I live for the dream that my children will be born free," she says. "That they will be what they like. That they will own the land their father gave them." "I live for you," I say sadly. Eo kisses my cheek. "Then you must live for more." Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity's overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society's ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. Praise for *Red Rising* "[A] spectacular adventure . . . one heart-pounding ride . . . Health Financing for Poor People Alexander S. Preker, Guy Carrin, 2004 One of the most urgent development challenges facing many low and middle income countries is the need for adequate financing systems to pay for health care provision to the estimated 1.3 billion impoverished people living in rural areas or working in the informal sector in urban areas. This publication considers ways of improving the financing of health care at low income levels, as part of a global strategy for increased investment in health and poverty reduction. Topics discussed include: global and regional trends in healthcare financing; strengths and weaknesses of community-based health financing, and experiences in Asia and Africa; country case studies using household survey analysis from Senegal, Rwanda, India and Thailand; deficit financing; and the impact of risk sharing on achieving health system goals.

Financial Cryptography Ari Juels, 2004-09-21 The 8th Annual Financial Cryptography Conference was held during 9-12 February 2004 in Key West, Florida, USA. The conference was organized by the - international Financial Cryptography Association (IFCA). The program committee, which comprised 25 members, reviewed 78 submissions, of which only 17 were accepted for presentation at the conference. This year's conference

differed somewhat from those of previous years in its consideration of papers devoted to implementation, rather than purely conceptual research; one of these submissions was presented at the conference. This represented a movement in the conference toward practical problems and real-world perspectives as a complement to more traditional academic forms of research. In this spirit, the program included a number of excellent invited speakers. In the opening talk of the conference, Jack Selby threw down the gauntlet, - scribing some of the achievements of the PayPal system, but also enumerating reasons for the failures of many elegant e-cash schemes in the past. Ron Rivest, in contrast, described an emerging success in the cleverly conceived Peppercoin micropayment system. Jacques Stern enlightened us with his experience in the cryptographic design of banking cards in France. Simon Pugh unveiled some - tails of anew generation of wireless credit card. Finally,in deference to the many consumers in the world lacking either techno-savvy or technological resources that we often too easily take for granted, Jon Peha described a elded banking system that avoids reliance on conventional financial infrastructures. Thanks to all of these speakers for rounding out the conference with their expertise and breadth of vision.

Building the Chevy LS Engine HP1559 Mike Mavrigian,2010-12-07 This is an engine rebuilding and modification guide that includes sections on history, engine specs, disassembly, cylinder block and bottom end reconditioning, cylinder heads and valvetrain reconditioning, balancing, step-by-step engine reassembly, torque values, and OEM part numbers for the popular Chevy LS series of engines.

Ford 351 Cleveland Engines George Reid,2013 Ford's 351 Cleveland was designed to be a 'mid-sized' V-8 engine, and was developed for higher performance use upon its launch in late 1969 for the 1970 models. This unique design proved itself under the hood of Ford's Mustang, among other high performance cars. The Cleveland engine addressed the major shortcoming of the Windsor engines that preceded it, namely cylinder head air flow. The Windsor engines just couldn't be built at the time to compete effectively with the strongest GM and Mopar small blocks offerings, and the Cleveland engine was the answer to that problem. Unfortunately, the Cleveland engine was introduced at the end of Detroit's muscle car era, and the engine, in pure Cleveland form, was very short lived. It did continue on as a low compression passenger car and truck engine in the form of the 351M and 400M, which in their day, offered little in the way of excitement. Renewed enthusiasm in this engine has spawned an influx of top-quality new components that make building or modifying these engines affordable. This new book reviews the history and variations of the 351 Cleveland and Ford's related engines, the 351M and 400M. Basic dimensions and specifications of each engine, along with tips for identifying both design differences and casting number(s) are shown. In addition to this, each engine's strong points and areas of concern are described in detail. Written with high performance in mind, both traditional power tricks and methods to increase efficiency of these specific engines are shared. With the influx of aftermarket parts, especially excellent cylinder heads, the 351 Cleveland as well as the 351M and 400M cousins are now seen as great engines to build. This book will walk you through everything you need to know to build a great street or competition engine based in the 351 Cleveland platform.

Smart Learning Andrew Middleton, 2015-03-30 The use of smart technologies and social media by staff and students in and out of the classroom has implications for academic practice in post-compulsory education. Unlike previous eras of learning with technology, change is being led by the students and academics themselves and this

establishes a challenge to institutions. This shift demands that we reassess our understanding of formal and informal engagement, the physical and virtual environments we use, and the people we involve. Smart Learning: teaching and learning with smartphones and tablets in post compulsory education observes how personal smart technology, social media, rich digital media as well as ideas about open learning work together to form a new immersive and interactive space for learning. The Smart Learning book is a product of the Media-Enhanced Learning Special Interest Group (MELSIG) which has considered the opportunities and challenges afforded by new media in developing a forward looking Digital Age, learner-centred view of academia since 2008. MELSIG is a self-driven association fascinated and excited by thinking differently, reflectively and critically. Working informally across UK post-compulsory education around special foci, the group runs sharing and developing practice events and webinars, as well as organising collective research and writing activities about academic innovation with digital and social media. Smart Learning is made up of thought pieces, research chapters and case studies. It is punctuated with scenario vignettes, making real this new thinking about learning with personal smart devices.
