**Campus Life** Helen Lefkowitz Horowitz, 2013-09-04 Every generation of college students, no matter how different from its predecessor, has been an enigma to faculty and administration, to parents, and to society in general. Watching today's students "holding themselves in because they had to get A's not only on tests but on deans' reports and recommendations," Helen Lefkowitz Horowitz, author of the highly praised *Alma Mater*, began to ask, "What has gone wrong—how did we get where we are today?" *Campus Life* is the result of her search—through college studies, alumni autobiographies, and among students themselves—for an answer. She begins in the post-revolutionary years when the peculiarly American form of college was born, forced in the student-faculty warfare: in 1800, pleasure-seeking Princeton students, angered by disciplinary action, "show pistols . . . and rolled barrels filled with stones along the hallways." She looks deeply into the campus through the next two centuries, to show us student society as revealed and reflected in the students' own codes of behavior, in the clubs (social and intellectual), in athletics, in student publications, and in student government. And we begin to notice for the first time, from earliest days till now, younger men, and later young women as well, have entered not a monolithic "student body" but a complex world containing three distinct subcultures. We see how from the beginning some undergraduates have resisted the ritualized frivolity and rowdiness of the group she calls "College Men." For the second group, the "Outsiders," college was not so much a matter of secret societies, passionate team spirit and college patriotism as a serious preparation for a profession; and over the decades their ranks were joined by ambitious youths from all over rural America, by the first college women, by immigrants, Jews, "townies," blacks, veterans, and older women beginning or continuing their education. We watch a third subculture of "Rebels"—both men and women—emerging in the early twentieth century, transforming individual dissent into collective rebellion, contending for control of collegiate politics and press, and eventually—in the 1960s—reordering the whole college/university world. Yet, Horowitz demonstrates, in spite of the tumultuous 1960s, in spite of the vast changes since the nineteenth century, the ways in which undergraduates work and play have continued to be shaped by whichever of the three competing subcultures—college men and women, outsiders, and rebels—is in control. We see today's campus as dominated by the new breed of outsiders (they began to surface in the 1970s) driven to pursue their future careers with a "grim professionalism." And as faint and sporadic signs emerge of (perhaps) a new activism, and a new attraction to learning for its own sake, we find that Helen Lefkowitz Horowitz has given us, in this study, a basis for anticipating the possible nature of the next campus generation.

**Black Campus Life** Antar A. Tichavakunda, 2021-12-01 An in-depth ethnography of Black engineering students at a historically White institution, *Black Campus Life* examines the intersection of two crises, up close: the limited number of college graduates in science, technology, engineering, and math (STEM) fields, and the state of race relations in higher education. Antar Tichavakunda takes readers across campus, from study groups to parties and beyond as these students work hard, have fun, skip class, fundraise, and, at times, find themselves in tense racialized encounters. By consistently centering their perspectives and demonstrating how different campus communities, or social worlds, shape their experiences, Tichavakunda challenges assumptions about not only Black STEM majors but also Black students and the "racial climate" on college campuses more generally. Most fundamentally, *Black Campus Life* argues that Black collegians are more than the racism they endure. By studying and appreciating the everyday richness and complexity of their experiences, we all—faculty, administrators, parents, policymakers, and the broader public—might learn how to better support them. **Campus Life** Carnegie Foundation for the Advancement of Teaching, 2019-06-18 In 1990, under the direction of Ernest Boyer, the Carnegie Foundation for the Advancement of Teaching published a classic report on the loss of a meaningful basis for true community on college campuses—and in the nation. Now this expanded edition of *Campus Life: In Search of Community* reintroduces educational leaders to the Boyer report's proposals while offering up-to-date analysis and recommendations for Christian campuses today. Editors Drew Moser and Todd C. Ream have assembled pairs of academic and student-development leaders from top Christian colleges to offer a hopeful update on the practical contributions of Christian higher education to the practice of community. This volume includes new chapters, the long out-of-print Boyer report in its entirety, and a discussion guide to facilitate team conversations. Higher education now stands at a critical point, yet the contributors to this expanded edition of *Campus Life* see current challenges as an opportunity to revive Boyer's commitment to its formative power. Contributors include: Mark L. Sargent and Edee Schulze of Westmont College Randall Basinger and Kris Hansen-Kieffer of Messiah College Brad Lau and Linda Samek of George Fox University Stephen T. Beers and Edward Ericson III of John Brown University Paul O. Chelsen and Margaret Diddams of Wheaton College Doretha O'Quinn and Tim Young of Vanguard University Christian higher education now stands at a critical point, yet the contributors to this expanded edition of *Campus Life* see current challenges as an opportunity to revive Boyer's commitment to understanding the formative power of Christian higher education.

**Campus Life** Carnegie Foundation for the Advancement of Teaching, 1990 A national study of social conditions on college campuses found that college officials were concerned about alcohol and drug abuse, crime, breakdown of civility, racial tensions, sex discrimination, and a diminishing commitment to teaching and learning. In response to those findings, this book proposes that both academic and civic standards be clarified and that the enduring values that undergird a community of learning be precisely defined. Six principles are presented that provide a formula for day-to-day decision making on the campus and define the kind of community every college and university should strive to be: (1) a purposeful community, (2) an open community, (3) a just community, (4) a disciplined community, (5) a caring community, and (6) a celebrative community. Appendices present detailed results of the 1989 national survey by the Carnegie Foundation that formed the basis for this report. The survey identified campus life issues of concern, as perceived by 382 responding institutions in the National Survey of College and University Presidents and 355 responding institutions in the 1989 National Survey of Chief Student Affairs Officers by the American Council on Education and the National Association of Student Personnel Administrators. The survey also analyzed views on improving campus life, actions likely to improve campus life, and changes over 5 years in specific problem areas. Reference notes accompany each chapter. (JDD)

*The Other Side of Campus Life* David Helton, 2014-02 Oftentimes, colleges and universities fail to prepare prospective students for all that accompanies everyday life in a college setting. Questions such as, What are some of the dangers of campus life? How can I avoid extensive parking violations? and, How can I best protect myself against campus crime? often go unanswered because they are unpleasant topics, with complicated answers. It is my hope that *The Other Side to Campus Life* will illuminate some of these potential pitfalls of campus life and improve the overall college experience for incoming students.

**Campus Life in the Movies** John E. Conklin, 2014-01-10 Hollywood films have presented audiences with stories of campus life for nearly a century, shaping popular perceptions of our colleges and universities and the students who attend them. These depictions of campus life have even altered the attitudes of the students themselves, serving as both a mirror of and a model for behavior. One can only imagine how many high school seniors enter college today with the hopes of living the proverbial Animal House or PCU Greek experience, or how many have worried over the SAT and college admissions after watching more recent movies like 2004's *The Perfect Score*. This book explores themes of college life in 681 live-action, theatrically released, feature-length films set in the United States and released from 1915 through 2006, evaluating how these movies both reflected and distorted the reality of undergraduate life. Topics include

college admissions, the freshman experience, academic work, professor-student relations, student romance, fraternity and sorority life, sports, political activism, and other extracurricular activities. The book also includes a complete filmography and 66 illustrations.

**Rethinking Campus Life** Christine A. Ogren, Marc A. VanOverbeke, 2018-07-19 This edited volume explores the history of student life throughout the nineteenth and twentieth centuries. Chapter authors examine the expanding reach of scholarship on the history of college students; the history of underrepresented students, including black, Latino, and LGBTQ students; and student life at state normal schools and their successors, regional colleges and universities, and at community colleges and evangelical institutions. The book also includes research on drag and gender and on student labor activism, and offers new interpretations of fraternity and sorority life. Collectively, these chapters deepen scholarly understanding of students, the diversity of their experiences at an array of institutions, and the campus lives they built.

**Class and Campus Life** Elizabeth M. Lee, 2016-04-22 In 2015, the New York Times reported, The bright children of janitors and nail salon workers, bus drivers and fast-food cooks may not have grown up with the edifying vacations, museum excursions, daily doses of NPR and prep schools that groom Ivy applicants, but they are coveted candidates for elite campuses. What happens to academically talented but economically challenged first-gen students when they arrive on campus? Class markers aren't always visible from a distance, but socioeconomic differences permeate campus life—and the inner experiences of students—in real and sometimes unexpected ways. In *Class and Campus Life*, Elizabeth M. Lee shows how class differences are enacted and negotiated by students, faculty, and administrators at an elite liberal arts college for women located in the Northeast. Using material from two years of fieldwork and more than 140 interviews with students, faculty, administrators, and alumnae at the pseudonymous Linden College, Lee adds depth to our understanding of inequality in higher education. An essential part of her analysis is to illuminate the ways in which the students' and the college's practices interact, rather than evaluating them separately, as seemingly unrelated spheres. She also analyzes underlying moral judgments brought to light through cultural connotations of merit, hard work by individuals, and making it on your own that permeate American higher education. Using students' own descriptions and understandings of their experiences to illustrate the complexity of these issues, Lee shows how the lived experience of socioeconomic difference is often defined in moral, as well as economic, terms, and that tensions, often unspoken, undermine students' senses of belonging.

**College Belonging** Lisa M. Nunn, 2021 *College Belonging* reveals how colleges' and universities' efforts to foster a sense of belonging in their students are misguided. Colleges bombard new students with the message to get out there! and find your place by joining student organizations, sports teams, clubs and the like. Nunn shows that this reflects a flawed understanding of what belonging is and how it works. Drawing on the sociological theories of Emile Durkheim, *College Belonging* shows that belonging is something that members of a community offer to each other. It is something that must be given, like a gift. Individuals cannot simply walk up to a group or community and demand belonging. That's not how it works. The group must extend a sense of belonging to each and every member. It happens by making a person feel welcome, to feel that their presence matters to the group, that they would be missed if they were gone. This critical insight helps us understand why colleges' push for students simply to get out there! does not always work--

**They Said This Would Be Fun** Eternity Martis, 2021-07-13 NATIONAL BESTSELLER Winner of the Rakuten Kobo Emerging Writer Prize for Nonfiction Nominated for the Evergreen Award A powerful, moving memoir about what it's like to be a student of colour on a predominantly white campus. A booksmart kid from Toronto, Eternity Martis was excited to move away to Western University for her undergraduate degree. But as one of the few Black students there, she soon discovered that the campus experiences she'd seen in movies were far more complex in reality. Over the next four years, Eternity learned more about what someone like her brought out in other people than she did about herself. She was confronted by white students in blackface at parties, dealt with being the only person of colour in class and was tokenized by her romantic partners. She heard racial slurs in bars, on the street, and during lectures. And she gathered labels she never asked for: Abuse survivor. Token. Bad feminist. But, by graduation, she found an unshakeable sense of self--and a support network of other women of colour. Using her award-winning reporting skills, Eternity connects her own experience to the systemic issues plaguing students today. It's a memoir of pain, but also resilience.

**Campus Life** Helen Lefkowitz Horowitz, 1988-04-15 Based on subtle, imaginative readings of autobiographies, memoirs, fiction and secondary sources, [Campus Life] tells the story of the changing mentalities of American undergraduates over two centuries.—Michael Moffatt, New York Times Book Review

**Trans\* in College** Z Nicolazzo, 2023-07-03 WINNER of 2017 AERA DIVISION J OUTSTANDING PUBLICATION AWARD CHOICE 2017 Outstanding Academic Title This is both a personal book that offers an account of the author's own trans\* identity and a deeply engaged study of trans\* collegians that reveals the complexities of trans\* identities, and how these students navigate the trans\* oppression present throughout society and their institutions, create community and resilience, and establish meaning and control in a world that assumes binary genders. This book is addressed as much to trans\* students themselves – offering them a frame to understand the genders that mark them as different and to address the feelings brought on by the weight of that difference – as it is to

faculty, student affairs professionals, and college administrators, opening up the implications for the classroom and the wider campus. This book not only remedies the paucity of literature on trans\* college students, but does so from a perspective of resiliency and agency. Rather than situating trans\* students as problems requiring accommodation, this book problematizes the college environment and frames trans\* students as resilient individuals capable of participating in supportive communities and kinship networks, and of developing strategies to promote their own success. Z Nicolazzo provides the reader with a nuanced and illuminating review of the literature on gender and sexuality that sheds light on the multiplicity of potential expressions and outward representations of trans\* identity as a prelude to the ethnography ze conducted with nine trans\* collegians that richly documents their interactions with, and responses to, environments ranging from the unwittingly offensive to explicitly antagonistic. The book concludes by giving space to the study's participants to themselves share what they want college faculty, staff, and students to know about their lived experiences. Two appendices respectively provide a glossary of vocabulary and terms to address commonly asked questions, and a description of the study design, offered as guide for others considering working alongside marginalized population in a manner that foregrounds ethics, care, and reciprocity.
