Special Admission Kirsten Hextrum, 2021-08-13 Honorable Mention - 2022 Society of Professors of Education Outstanding Book Award □ Special Admission contradicts the national belief that college sports provide upward mobility opportunities. Kirsten Hextrum documents how white middle-class youth become overrepresented on college teams. Her institutional ethnography of one elite athletic and academic institution includes over 100 hours of interviews with college rowers and track & field athletes. She charts the historic and contemporary relationships between colleges, athletics, and white middle-class communities that ensure white suburban youth are advantaged in special athletic admissions. Suburban youth start ahead in college admissions because athletic merit—the competencies desired by university recruiters—requires access to vast familial, communal, and economic resources, all of which are concentrated in their neighborhoods. Their advantages increase as youth, parents, and coaches strategically invest in and engineer novel opportunities to maintain their race and class status. Thus, college sports allow white, middle-class athletes to accelerate their racial and economic advantages through admission to elite universities.

James Madison University Hannah Berge and Joseph D'Arezzo, 2017 Anyone strolling through James Madison University's bucolic Bluestone area, which is grounded by the iconic Wilson Hall, will feel the educational journeys of past students resonating through the air. Founded in 1908 as a women's college, James Madison University was originally called the State Normal and Industrial School for Women at Harrisonburg and had an opening enrollment of 150 students. Since then, James Madison University has undergone several name changes and has a current enrollment of over 20,000 students. The Madison Experience is one that involves a commitment to learning and a fun and open spirit. This retelling of campus history seeks to capture some of the defining moments and cherished memories that have shaped so many Dukes.

College of Charleston Voices Katherine E. Chaddock, Carolyn B. Matalene, 2006-01-07 In 1770, the founders of the College of Charleston realized their dream of establishing an institution built upon the goal of instructing young minds with a traditional liberal arts education. As the oldest institution of higher learning in South Carolina, the College of Charleston has played an integral role in the development of a variety of young men and women from the Palmetto State and beyond. Numbering in the hundreds of thousands, this group of students--current and former--has enjoyed a unique college experience that they have chronicled and shared in letters to family and friends, diaries, student newspapers, journals and, more recently, e-mails. These personal accounts reveal the effect that the College of Charleston has had on its students for generations, and the ways in which those students have shaped the college's long history. This engaging book features a collection of correspondences written by College of Charleston students, from the school's earliest years to the present day. Individually, these writings offer a candid glimpse into students' daily lives during several periods throughout the college's history. Considered together, the thoughts, concerns and opinions found within paint a fascinating picture of the past at the College of Charleston.

Purdue at 150 David M. Hovde, Adriana Harmeyer, Neal Harmeyer, 2019-05-06 *Purdue at 150: A Visual History of Student Life* by David M. Hovde, Adriana Harmeyer, Neal Harmeyer, and Sammie L. Morris tells Purdue's story through rare images, artifacts, and words. Authors culled decades of student papers, from scrapbooks, yearbooks, letters, and newspapers to historical photographs and memorabilia preserved in the Purdue University Libraries Virginia Kelly Karnes Archives and Special Collections. Many of the images and artifacts included have never been published, presenting a unique history of the land-grant university from the student perspective. *Purdue at 150* is organized by decade, presenting a scrapbook-like experience of viewing over 400 rare photographs, documents, and artifacts alongside critical contextual information. Each chapter provides a decadal historical sketch of Purdue University, offering insight into the institution's unique culture while incorporating campus responses to major national events such as world wars and the Great Depression. Spotlight sections highlight Purdue firsts, including the first graduates of programs, the growth and development of the international student population at Purdue, the creation of significant student organizations, and the foundations of both old and new campus traditions. This curated journey through the personal experiences, spaces, and events of Purdue's history not only celebrates major accomplishments and acknowledges the contributions Purdue has made to society, but it also explores some of the challenges and tragedies that shaped Indiana's land-grant university. As a result, *Purdue at 150* connects the

identity and character of the University of 1869 to the University of 2019 and beyond, as told through the stories of its students. Running throughout this journey is the enduring vision of the land-grant institution and its impact on society, as seen through the material culture of Boilermakers from around the world.

Being a College Counselor on Today's Campus Bruce S. Sharkin, 2012-04-27 There has been increasing attention in recent years, both positive and negative, on college student mental health and the provision of counseling services on campus. At the same time, there continue to be misperceptions of college counselors, both within and outside college campuses. Drawing on over 20 years of experience as a college counselor, Dr. Sharkin addresses these misunderstandings, providing a detailed description and discussion of the many roles and contributions these professionals have. He explores topics such as the history of college counseling and its evolution, who college counselors are, how someone can become a college counselor, and what skills are needed to be a college counselor today. Roles and responsibilities, including counseling, crisis intervention, consultation, outreach, and administrative duties, are discussed in detail and supplemented with both research and case studies. Diversity competencies and special challenges faced by today's college counselors are also considered. This engaging and accessible book will be a valuable resource for those already working in college mental health settings and those wishing to enter the field.

160 Years of Samford University Sean Flynt, 2001 Samford University, established in 1841 as Howard College, is a treasured institution of higher learning in Alabama, consistently ranked among the best regional universities in the nation. Well known for the quality of education it offers and for its stunning Georgian-Colonial campus, Samford boasts a long and fascinating history, illuminated here in a collection of vintage photographs. With images ranging from informal to formal, routine to remarkable, tragic to hilarious, this engaging retrospective delves into the heart of the school's heritage--its people. The aspirations of all who have called Samford home and those who have supported its mission come to life in snapshot memories of centuries past. Highlights of the book include extensive coverage of the East Lake campus years; the first experiment in coeducation; the earliest known photographs of the Marion campus; the infamous liberation of a rival college's mascot; the courage of student journalists in the 1970s; the story of Harry, the slave who gave his life saving students; and Samford University's latest educational innovations and architectural marvels. Rarely seen photographs from the university's Special Collection department, supplemented by informative, entertaining captions, offer Samford students, faculty, staff, alumni, and friends a chance to relive some of the most memorable moments in the school's history.
