Mahjong Tiles Mona Remedios Stickley,2022-02-04 Mahjong Tiles is a photographic book that details each mahjong tile. Aimed at beginners to the game of mahjong, the book offers tips to identify and remember each tile in an Asian mahjong set. This version includes Cantonese subtitles under each tile for those that want to get deeper into the language behind the Hong Kong style of mahjong. This book does not offer an overview of mahjong or how to play the game. It instead concentrates solely on the first step to learning how to play: tile recognition. The book features the photography of Mona Remedios Stickley, a disability artist and multiple brain injury survivor. Mona was introduced to the Hong Kong style of mahjong at the age of 3. Through the years she played mahjong with people from many different cultural backgrounds, generations, experience levels, and languages. She taught mahjong to many people of varying skill levels. When her disability became severe, she had to relearn how to walk, read, and speak. Struggling to find any skills she retained, she found she made progress by using mahjong and the Cantonese mahjong terms as a memory tool, then she slowly increased function by interacting with others at the mahjong table. With help from numerous people and organizations, she eventually began to find other areas she could function in. She is now working on bringing mahjong to others and is developing online courses to show beginners how to play the game.

The Learning and Teaching of Cantonese as a Second Language Siu-lun Lee,2023-07-12 The Learning and Teaching of Cantonese as a Second Language brings together contributions on such issues as Cantonese textbooks, linguistic description, literacy and tone acquisition, supplemented by case studies from the Netherlands and Japan. The learning and teaching of Cantonese as a second language is a subject of considerable interest in the international academic community, and the first international symposium on teaching Cantonese as a second language, held at the Chinese University of Hong Kong in October 2019, brought together leading researchers in this field. This conference provided the inspiration for the current volume, The Learning and Teaching of Cantonese as a Second Language. In the Hong Kong context, historically, the term ‘Cantonese’ refers to the language varieties of immigrants who came to the territory from various areas in Guangdong province, including Macau, Panyu, Taishan, Xinhui and Zhongshan. From the late nineteenth century onwards, their speech coalesced into the contemporary variety of Cantonese used in Hong Kong today. The term ‘Cantonese’ is also used to refer to the entire Yue subgroup of Chinese, which includes varieties of Cantonese spoken in southern China, Hong Kong, Macau, Malaysia, Singapore and among overseas Chinese in Australia, Europe and North America. In all, it is estimated that there are about 70 million Cantonese speakers in the world. This volume is of direct relevance to educators, language teachers, linguists and all those concerned with the learning of Cantonese as a second language.

Understanding Canton Virgil K. Y. Ho, 2005 By studying six different aspects of culture in Canton in the period between the two World Wars, this book helps broaden our limited knowledge of the social and cultural lives of the common people in this largest city of South China. The author examines how the Cantonese in this period indulged in their imagined cultural superiority as modern citizens, ushering in a cult of the modern city. During this period, Cantonese opera was also emerging and evolving into a widely accepted form of commercialised mass entertainment. The process of social and cultural change and its impact on the development of this city and its people are revealed throughout the book. This book also aims to redress some major misconceptions of the socio-cultural realities as seen in official rhetoric or academic discourse on the matters of patriotism and anti-foreignism, gambling, prostitution, and opium consumption. Contemporary non-official and folk materials reveal that the common people were much more pro-Western than xenophobic in attitude, and the alleged social and political calamities of gambling, opium consumption and prostitution were more rhetorical than real. Understanding Canton provides us with, not only a fuller and more comprehensive picture of city life and popular mentalities, but also an important clue to understand how and why the social history of this city was distorted and constructed in ways that suited the political ideology and nation-building agenda of the ruling regimes.

The Music Child & the Mahjong Queen Alfred A. Yuson, 2017-11-22 An earlier manuscript titled *The Music Child* was shortlisted for the Man Asia Literary Prize in 2008. Alfred A. Yuson's previous novels are *Great Philippine Jungle* *Energy Cafe* and *Voyeurs & Savages*. Again, this third novel explores the marvels skirting the boundaries of realism, or goes much farther beyond after establishing adequate suspension of disbelief. Genres are blurred in the crafting of long fiction that is both poetry and prophecy. This the author does with visionary whimsy. In this narrative, the central protagonist's wondrous voice is stilled time and again by the deaths of his loved ones. Bereft of song, the boy finally learns to speak, then learns to turn the words of others into music on paper. The processes of mimicry and extrapolation result in an extended poetic suite that invents legends as well as a mythical conflict involving the imperialism of languages. The music child's extraordinary talents are matched by those of the young mahjong queen who can't be beaten in the game since the angels of her youth speak through her fingers. Around them, foreign friends and relations representing former colonizers provide a framework of discovery, while themselves dancing to the historic chorus of destiny in the magical East. The music child and the mahjong queen endear themselves to one another through the palpable vocabulary of flowers.

Remaking a Global Cantonese Community with Television and Social Media Simin Li, 2024-01-23 Cantonese (Jyut Jyu) is a language prevailing in the Guangdong province of China, Hong Kong, Macau, and ethnic Chinese groups in Southeast Asia and North America. It evolves with the engagements of the authoritarian government and globalization over time. Cantonese in China is special because it remains strong under the constant suppression from the administration and the continual interactions between the natives and migrants. However, the concern about Cantonese dying among the natives has been increasing in recent years. The speaking population, the imposed language policy, and the economy at least determine Cantonese's life. In particular, the economy is also a window to examine the central-local relations in China due to the leading roles of the Pearl River Delta, Hong Kong, and Macau in China's economic growth. Therefore, the struggles of local language between the younger generation and the Communist Party via the Internet are exposed. The book intends to explore the rising of a potential language community around the globe that speaks Cantonese by analyzing the usage and images of Cantonese of a popular TV show on YouTube, discussion groups on Baidu Tieba and Facebook, and talk shows on Bilibili with content analysis, interviews, and cases studies. Through this research, the relations between language and collective identity will be presented in an innovative way. *Remaking a Global Cantonese Community with Television and Social Media* has something to offer everyone, regardless of age or background. For those residing in mainland China, it's a journey back in time. Older Cantonese speakers will reminisce about their childhood, with memories of delicious Cantonese food, playful children's songs, and cherished customs. Even those who aren't native Cantonese speakers will recall the Cantonese TV shows, movies, and music that colored their youth. Younger readers will find familiar elements in the short videos they currently enjoy. For language preservation advocates, this book sheds light on Cantonese speakers' efforts to protect their native language and the challenges they face. For readers outside of mainland China, it offers insights into the country's internal changing landscape, especially grassroots practices and identities. By blending the disciplines of linguistics, political science, and communication, this book provides a broad perspective on how language is intertwined with our sense of belonging.
