**Ten Keys to Latin America** Frank Tannenbaum,1966 A solid background review of contemporary Latin America by an expert who has spent forty years during the region and writing and lecturing about it.--Foreign Policy Association -- Professor Tannenbaum has given us ten keys to Latin America. They are: the Land and the People, Race, Religion, Regionalism, the Hacienda, Education, Leadership, Politics, The United States and Latin America, and Castro and Social Change ... Professor Tannenbaum has traveled throughout the Latin American countryside and knows the continent as few Latin Americanists do ... His remarks are often wise and penetrating.--Hispanic American Report Scholars will welcome the publication of these informative essays in a single volume; and no doubt the book will be well received by a growing number of general readers who have become aware of the importance of Latin America in world affairs. - The American Political Science Review Penetrating study of ten facets of Latin American culture and society and their application to the future. - Scholastic Teacher

Latin American and Caribbean Trade Agreements Thomas Andrew O'Keefe,2009 Latin American and Caribbean Trade Agreements: Keys to a Prosperous Community of the Americas is the essential reference guide for companies trading with Latin America and the Caribbean or wishing to use a country in the region as an export platform. This work fills the void in academic texts that are used to teach courses on economic integration in the Western Hemisphere. It provides a road map for the Obama Administration to launch an ambitious project designed to encourage economic growth, promote energy security, and reduce harmful greenhouse gas emissions, while at the same time realistically meeting the development needs of Latin America and the Caribbean. Latin American and Caribbean Trade Agreements: Keys to a Prosperous Community of the Americas posits that the myopic focus of past United States administrations on free markets to spur economic development in the Western Hemisphere is not enough. A bolder and more ambitious project that also seeks to redress many of the deep-seated problems that have long plagued the region is required. The Community of the Americas proposed in this book rests upon the important work that has already been done at the sub-regional level in terms of economic and political reform, identifying infrastructure and human capital needs, and regulating migration. It provides a new and cohesive vision for U.S. policy in Latin America and the Caribbean.

**America Without the Death Penalty** John F. Galliher,Larry W. Koch,David Patrick Keys,Teresa J. Guess,2005 In 2000, Governor George Ryan of Illinois, a Republican and a supporter of the death penalty, declared a moratorium on executions in his state. In 2003 he commuted the death sentences of all Illinois prisoners on death row. Ryan contended that the application of the death penalty in Illinois had been arbitrary and unfair, and he ignited a new round of debate over the appropriateness of execution. Nationwide surveys indicate that the number of Americans who favor the death penalty is declining. As the struggle over capital punishment rages on, twelve states and the District of Columbia have taken bold measures to eliminate the practice. This landmark study is the first to examine the history and motivations of those jurisdictions that abolished capital punishment and have resisted the move to reinstate death penalty statutes.

**Open Markets** Wilson Allen Wallis,1985

The Ruptures of American Capital Grace Kyungwon Hong, Universality is a dangerous concept, according to Grace Kyungwon Hong, one that has contributed to the rise of the U.S. nation-state that privileges the propertied individual. However, African American, Asian American, and Chicano people experience the same stretch of city sidewalk with varying degrees of safety, visibility, and surveillance. The Ruptures of American Capital examines two key social formations—women of color feminism and racialized immigrant women’s culture—in order to argue that race and gender are contradictions within the history of U.S. capital that should be understood not as monolithic but as marked by its crises. Hong shows how women of color feminism identified ways in which nationalist forms of capital, such as the right to own property, were repressive. The Ruptures of American Capital demonstrates that racialized immigrant women’s culture has brought to light contested modes of incorporation into consumer culture. Interweaving discussion of U.S. political economy with literary analyses (including readings from Booker T. Washington to Jessica Hagedorn) Hong challenges the individualism of the United States and the fetishization of difference that is one of the markers of globalization. Grace Kyungwon Hong is assistant professor of English and Asian American studies at the University of Wisconsin, Madison.

**Patriotism and Profit** Susan Nagel,2021-10-05 The untold story of how America’s beloved first president, George Washington, borrowed, leveraged, and coerced his way into masterminding the key land purchase of the American era: the creation of the nation’s capital city. Contrary to the popular historical record, Thomas Jefferson was not even a minor player at The Dinner Table Bargain, now known as The Compromise of 1790. The real protagonists of the Dinner Table Bargain were President George Washington and New York Senator Philip Schuyler, who engaged in the battle that would separate our financial capital from our political seat of power. Washington and Schuyler’s dueling ambitions provoked an intense decades-long rivalry and a protracted crusade for the location of the new empire city. Alexander Hamilton, son-in-law to Schuyler and surrogate son to George Washington, was helplessly caught in the middle. This invigorating narrative vividly depicts New York City when it was the nation’s seat of government. Susan Nagel captures the spirit, speech, and sensibility of the era in full and entertaining form—and readers will get to know the city’s eighteenth-century movers, shakers, and power brokers, who are as colorful and fascinating as their counterparts today. Delicious political intrigue and scandalous gossip between the three competing alpha personalities—George Washington, Philip Schuyler, and Alexander Hamilton—make this a powerful and resonant history, reminding us that our Founding Fathers were brilliant but often flawed human beings. They were avaricious, passionate, and visionary. They loved, hated, sacrificed, and

aspired. Even their most vicious qualities are part of the reason why, for better or worse, the United States became the premier modern empire, born from figures carving their legacies into history. Not only the dramatic story of how America's beloved first president George Washington created the nation's capital city, Patriotism & Profit serves as timely exposé on issues facing America today, revealing the origins behind some of our nation's most pressing problems.
