Road & Track Crew's Big & Fast Cars Dan Bova, 2022-03-08 The fastest, funniest page-turner on the planet! This is the ultimate book for kids who love slick supercars, powerful monster trucks, and record-smashing speed machines. Buckle up – the only thing more exciting than reading this book about big and fast cars is sitting behind the wheel of one crossing the finish line at the Indy 500! Inside you'll find amazing color photos, mind-blowing facts, and answers to some very urgent questions, like: Do you know why the van was embarrassed around its friends? Because it had a little gas! Since the invention of the wheel, people have been building machines that go faster and faster and look cooler and cooler. The first cars went about 10 mph, now they easily break 200 mph – and some even drive themselves! Speaking of which, ever wonder whose fault it is if two self-driving cars get in an accident? Pick up this book and find out! Under the hood you'll discover: Incredible auto-related facts like record setting rides (check out the 763 mph ThrustSSC rocket car!) and answers to seriously silly questions (How do race car drivers pee during a race?) Many S.T.E.A.M. learning opportunities such as the science of how cars work and the history of cars from the Model T to electric cars to a Tesla in space! Behind-the-scenes stories of people with great car-related jobs such as a Hot Wheels designer, the guy who created the Batmobile, a scientist who controls rovers on Mars, and of course, record-setting drivers like Danica Patrick, Alexander Rossi, Dale Earnhardt, Jr. and teen sensation Chloe Chambers. Fun activities such as drawing lessons (create your own car cartoon character!) matching games, quizzes, plus tons of jokes. The only thing readers need to drive Road & Track Crew Big & Fast Cars is a license for fun. So turn the key, step on the gas and let's go!

Ford Model T Coast to Coast Tom Cotter, 2018-05-15 A photo-filled account of traveling the Lincoln Highway in a century-old automobile, and contemplating a future of self-driving cars: [An] epic road trip. -USA Today Driverless cars are on the horizon, but before the world falls asleep at the wheel, let's look back down the road from whence we have come. Ford Model T Coast to Coast documents the cross-country adventure of two brave drivers as they pilot a hundred-year-old Model T on a 3,000-mile journey from the Atlantic Ocean to the Pacific Coast. This book is as much a contemplation of early-twentieth-century American life as it is a fond farewell to the automotive age. Can the car still be the vehicle of freedom and discovery when we're no longer in command? Or will we finally be able to fully appreciate the scenery rushing past? Accompanied by Michael Alan Ross' evocative photography, Tom Cotter stops in small towns, meets local people, and hears their stories about cars, travel, and life. The two also explore back roads adjacent to his main route, the Lincoln Highway—the first transcontinental road. Significant cross-country runs, such as those by speed-record setter Cannonball Baker and literary adventurers Jack Kerouac, John Steinbeck, and Bill Bryson, are considered in light of the driverless future. Cotter also drives some of the same roads that a young Edsel Ford traveled in his father's Model T upon high school graduation in 1917. In addition to the central road trip, Cotter visits interesting automotive and transport museums as well as keepers of the flame such as Model T clubs, mechanics, junkyards, and collectors across the country. He also records the numerous trials and tribulations in keeping a very old car operating on a very long journey—something the driverless car of the future is unlikely to encounter.

Game Show Confidential Boze Hadleigh, 2023-05-01 Game and quiz shows first

started appearing on radio broadcasts in the 1930s, led by the CBS network's Professor Quiz, hosted by a man who was neither a professor nor even a college graduate, the first of several frauds that seemed to be endemic to the genre. Professor Quiz was followed by other such game shows as Uncle Jim's Question Bee and Ask It Basket, which in turn spawned successful box games for at-home play. The show Truth or Consequences made the transition from radio to television in the late 1940s and was so popular that a town in New Mexico was named for the show. Television proved to be the perfect platform for game shows since they were very popular and cheap to produce. Even in reruns today, the older shows still draw huge audiences. This book describes the evolution of the game show, its larger-than-life producers and hosts, as well as the scandals that have rocked it from time to time, including bloopers from such "adult" oriented shows as The Dating Game, The Newlywed Game, and Hollywood Squares. This is an entertaining and lively look at an American phenomenon whose popularity doesn't seem to be going away.
