Born in a Car Crash Morgan Nixon,2020-06-04 Born In A Car Crash serves as a guide to 1950s and

60s rhythm and blues 45s - artifacts of an incredibly fertile period of American musical history and culture. Never before in US history had so many musicians struck out on their own; moving to unknown cities to pursue careers, record and release music themselves, and in the process cultivating scenes across the nation that remain foundational in the development of American music as we know it. Many of these musicians - who often times couldn't walk in the front door of the segregated clubs they'd be booked to play in - weren't necessarily famous in their lifetime, but are often credited as major inspirations for many big names in music that most people would recognize: Elvis Presley, etc. etc. *Born In A Car Crash* aims to highlight essential tracks from an era of profound creativity and shine a light on the musicians, producers, and labels that leveraged everything they had to create music for the people. It is more important than ever to hear, share, and dance to these songs, ensuring that younger generations learn about the music, people, and stories that spawned what they're listening to today.

Special Deluxe Neil Young,2015-12 Quirky and wonderfully candid, Neil Young's second book of reminiscences is as compelling as his first book. He returns with more unforgettable stories about his six decades in the music business - but this is not your average rock biography. He centres this work on one of his life's passions, cars, using the framework of all the cars he's ever owned to construct a narrative of his life and career, exploring and demonstrating how memories are attached to objects. Young also expresses regret for the environmental impact of his past cars, and now passionately advocates the use of clean energy. 'Special Deluxe' is a mix of memoir and environmental politics by one of the most gifted and influential artists of our time.
