The Great Race Aaron Noonan, 2023-08-01 The cars, the stars, the thrills and the spills from 60 years of the Bathurst classic by Australia's premier motorsports journalist with a foreword by five-time winner Garth Tander The Bathurst 1000 is undoubtedly Australia's 'Great Race', forever part of the sporting fabric of the nation. The 1000-kilometre race, held on the world-famous Mount Panorama circuit, is both a legend-maker and a heartbreaker, all wrapped up in one thrilling ride. From its beginnings in the 1960s as a 500-mile race for standard production cars, the Bathurst 1000 has evolved into an annual multi-million dollar battle between purpose-built, millimetre-perfect V8-powered Supercars. After six decades of this extraordinary battle on the mountain, *The Great Race* takes a look back at the thrills, the spills, the legends and the losers of the race's history, from the legendary Ford and Holden battles to how the Mountain made household names of Peter Brock, Allan Moffat, Dick Johnson, Craig Lowndes, Mark Skaife and so many more, including the fearless women who have challenged the race. From the famous, edge-of-your-seat races to the infamous moments on and off the track, and the characters, rivalries, rifts and controversies, Aaron Noonan - Australia's leading motorsport journalist and commentator - enshrines all the high-octane action and gives an eye-opening account of how the circuit has evolved from a scenic tourist drive into a world-famous Mecca of motorsport. With special added insight into what became of the legendary cars that have conquered Mount Panorama after their days of glory, *The Great Race* is a fast-paced drive down Bathurst 1000 memory lane.

American Auto Racing J.A. Martin, Thomas F. Saal, 2014-07-15 As soon as there were automobiles, there was racing. The first recorded race, an over road event from Paris to Rouen, France, was organized by the French newspaper *Le Petit Journal* in 1894. Seeing an opportunity for a similar event, Hermann H. Kohlsaat--publisher of the *Chicago Times-Herald*--sponsored what was hailed as the Race of the Century, a 54-mile race from Chicago's Jackson Park to Evanston, Illinois, and back. Frank Duryea won in a time of 10 hours and 23 minutes, of which 7 hours and 53 minutes were actually spent on the road. Race cars and competition have progressed continuously since that time, and today's 200 mph races bear little resemblance to the event Duryea won. This work traces American auto racing through the 20th century, covering its significant milestones, developments and personalities. Subjects included are: Bill Elliott, dirt track racing, board track racing, Henry Ford, Grand Prix races, Dale Earnhardt, the Vanderbilt Cup, Bill France, Gordon Bennett, the Indianapolis Motor Speedway, the Mercer, the Stutz, Duesenberg, Frank Lockhart, drag racing, the Trans Am, Paul Newman, vintage racing, land speed records, Al Unser, Wilbur Shaw, the Corvette, the Cobra, Richard Petty, NASCAR, Can Am, Mickey Thompson, Roger Penske, Mario Andretti, Jeff Gordon, and Formula One. Through interviews with participants and track records, this text shows where, when and how racing changed. It describes the growth of each different form of auto racing as well as the people and technologies that made it ever faster.

Stock Car Racing Robert Blake Jackson, 1968 Describes the highly colorful cars, popular drivers, and milestones in the history of stock car racing.

BMW Racing Cars Karl Ludvigsen, 2007-09-27 Success of the 315 roadster in the 1934 Alpine Trial put BMW on the road to sporting success, spawning the creation of the high-performance 328 in 1936 and its racing achievements before and after the war. Further achievements featured in this Ludvigsen Library photo book include: winning the 1940 Mille Miglia with a 328 coupe; its post-war influence on Veritas; hillclimb championships with the 700 Spyder and 507; Ludwig Apfelbeck's radial 16-valve engine for record-breaking and Formula 2; a turbo four for touring-car racing and twin-cam fours for Formula 2 success; the ultimate turbo four for Grand Prix racing that produced 1,000 bhp and won the 1983 world championship; racing winged 6-Series coupes and winning Le

Mans with V12 engines, first with McLaren and later with BMW's own Spyder; entering Formula 1 with Williams in 2000 and buying the Sauber team to compete as BMW in 2006. Karl Ludvigsen's informative introduction emphasizes the great engines that have powered BMW to success on the world's circuits.

The Driver Alexander Roy, 2007-10-16 On his deathbed, Alex Roy's father dropped tantalizing hints about the notorious Cannonball Run of the 1970s, the utterly illegal high-speed nonstop race from New York to L.A. that was nothing at all like the one portrayed in the Burt Reynolds movie. Inspired by his father's dying words, and against the advice of his loyal, lifelong friends, Roy enters

the mysterious world of road rallies and underground races—trying both to find himself and to locate The Driver, the anonymous organizer of the world's ultimate secret race—neither of which may exist. But in order to get noticed by The Driver, Roy must first become a force to be reckoned with. In this riveting memoir, Roy straps you into his highly modified BMW M5 and takes you on a terrifying 120 mph lap of Manhattan (his version of the French cult film *Rendezvous*), then tackles the Gumball 3000 and the Bullrun—the two most infamous road rallies in the world. He creates a character for himself and his car, Polizei Autobahn Interceptor, and they stick out among the Lamborghinis and Ferraris driven by millionaire playboys, software moguls, Arab princes, movie stars, leggy Czech supermodels, gear-heads, and tech whizzes. Out of the hundred-plus rally drivers, a select few—Alex Roy among them—compete as if these are full-on honest-to-god road races, traveling from London to Morocco, from Budapest to Rome, from San Francisco to Miami at speeds approaching 200 mph. With his M5 armed with a myriad of radar detectors, laser jammers, and police scanners, and his trunk crammed with a variety of fake uniforms, the obsessively prepared Roy evades arrest at almost every turn, wreaking havoc on his fiercest rivals, and gaining the admiration of police forces around the globe. But his rise to the top of the rally-driving world ultimately proves hollow, until he meets a young film producer documenting the obscure post-Cannonball Run races and the holy grail of cross-country racing—the N.Y.-to-L.A. speed record of thirty-two hours and seven minutes set back in 1983. Can that time even be approached today, much less beaten? As Roy reveals in *The Driver*, there are reasons why no one has tried in twenty-four years. But should he try? Can he do it? Full of hilarious, sexy, and shocking stories from a life lived at the right-hand edge of the speedometer, *The Driver* offers a never-before-told insider's account of the fast, dangerous, and unbelievable society that has long been off-limits to most of us. Filled with insane driving and Roy's quixotic quest to win both for his late father and for himself, *The Driver* is the tale of one man's insatiable drive beyond life in the fast lane.

The Early Laps of Stock Car Racing Betty Boles Ellison, 2014-09-08 The first organized, sanctioned American stock car race took place in 1908 on a road course around Briarcliff, New York—staged by one of America's early speed maven, William K. Vanderbilt, Jr. A veteran of the early Ormond-Daytona Beach speed trials, Vanderbilt brought the Grand Prize races to Savannah, Georgia, the same year. What began as a rich man's sport eventually became the working man's sport, finding a home in the South with the infusion of moonshiners and their souped-up cars. Based in large part on statements of drivers, car owners and others garnered from archived newspaper articles, this history details the development of stock car racing into a megasport, chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing's 1948

incorporation documents and how they differ from the agreements adopted at NASCAR's organization meeting two months earlier. The meeting's participants soon realized that their sport was actually owned by William H.G. Bill France, and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways, the painfully slow advance of safety measures and the shadowy economics of the sport.
