Sports Car Racing Matt Doeden,2008-09-01 Excited fans line city streets and crowd grandstands as sports cars roar across the circuit. From short races, where every second is critical, to grueling 24-hour endurance races, drivers push their cars to the limit, and excitement hangs in the air with the smell of gas and burning rubber. Fans love to see a finely tuned Porsche or Ferrari hug the pavement as it takes a turn at top speed. In this book, you will discover: how the sport began in Le Mans, France; how the sport evolved into two main classes of racing sports cars - Grand Touring cars and prototypes; and where you can find the greatest race tracks in the world.

Auto Mania Tom McCarthy,2007-01-01 The twentieth-century American experience with the automobile has much to tell us about the relationship between consumer capitalism and the environment, Tom McCarthy contends. In Auto Mania he presents the first environmental history of the automobile that shows how consumer desire (and manufacturer decisions) created impacts across the product lifecycle--from raw material extraction to manufacturing to consumer use to disposal. From the provocative public antics of young millionaires who owned the first cars early in the twentieth century to the SUV craze of the 1990s, Auto Mania explores developments that touched the environment. Along the way McCarthy examines how Henry Ford's fetish for waste reduction tempered the environmental impacts of Model T mass production; how Elvis Presley's widely shared postwar desire for Cadillacs made matters worse; how the 1970s energy crisis hurt small cars; and why baby boomers ignored worries about global warming. McCarthy shows that problems were recognized early. The difficulty was addressing them, a matter less of doing scientific research and educating the public than implementing solutions through America's market economy and democratic government. Consumer and producer interests have rarely aligned in helpful ways, and automakers and consumers have made powerful opponents of regulation. The result has been a mixed record of environmental reform with troubling prospects for the future.

Winning Matt Stone,Preston Lerner,2009-10-15 Winner of International Automotive Media Gold Award 2010 For all his fame as one of Hollywood's great actors, a world-class humanitarian, and the proprietor of a natural food empire, the late Paul Newman had another intriguing facet that was less known and perhaps closer to his heart than all the rest of his well-chronicled life. He was an avid, successful and well respected car racer and team owner. This book tells that story--from Newman's racing career, begun in earnest at an age when many race car drivers contemplate retirement; to the partnership he formed in 1983 with Chicago racing entrepreneur and team owner Carl Haas; to the impressive stable of automobiles he owned, from the Porsches and Ferraris to quirkier modified VWs and Volvos. This is the tale of a life full of passion and skill, of someone who entered the 24 Hours of Daytona at the age of 70 and made his last professional race outing at 82; whose roster of drivers for Newman/Hass reads as a who's who of open wheel racing; and whose interest in cars extended from the likely suspects to old trucks and new hybrids. And then there's the charming pal who, when the incorrigible prankster Robert Redford had a miserably wrecked Ferrari dropped at his front door, returned the favor by having the car, crushed into a cube, delivered to Redford's living room. The anecdotes, the races, the cars--all are here, adding up to what for many would be a full life, but for Paul Newman was simply another side of a man of talent, conviction, and enduring spirit. Lost Muscle Car Dealerships Duncan Brown,2019-09-15 An entire volume dedicated to detailing and preserving the iconic muscle car dealerships of the 1960s and early 1970s, many whose doors are now closed. Text is supported with more than 350 historic photos and illustrations. Muscle car historian Duncan Brown revisits this glorious automotive era when Nickey 427 Camaros and supercharged Dodge Demons by Grand Spaulding Dodge terrorized the streets. Drag sponsored cars from Reynolds Buick, Yeakel Chrysler-Plymouth, and Mel Burns Ford informed buyers that if you came to their dealership, you too could have a screaming fast muscle car just like the ones you saw at the dragstrip. It was these dealerships that created the lasting muscle car legacy through their innovative advertising and over-the-top performance. The majority of these dealerships floundered, unable to re-attract the customers they had prior to the muscle car. Thankfully, a volume has been dedicated to preserving the history of those less fortunate and revisiting the past success of these Lost Muscle Car Dealerships.

The Chequered Past David Anderson Charters,2007-01-01 In the forty-year period between 1951 and 1991, Canadian sports car competition underwent a massive change, transforming itself from an amateur recreational pastime to a commercialized profession and from an individual sport to a spectacle for mass consumption. The Chequered Past is the story of the struggle over power and purpose within the Canadian auto sport that led to this transformation. The first comprehensive history of sports car racing and rallying in Canada, The Chequered Past traces the efforts of the national governing body - the Canadian Auto Sport Clubs (CASC) - to bring its sports car competition up to a 'world class' level, and to manage the consequences of those efforts in the second half of the twentieth century. David Charters traces the social origins of the sport and the major trends that shaped it: professionalism, technological change, rising costs, and the influence of commercial sponsors. Charters argues that while early enthusiasts set the sport on a course toward professionalism that would eventually produce world-class Canadian events and racers, that course would also ultimately change the purpose of the sport: from personal recreation to mass entertainment. As technological innovations drove up the costs of competing at the top ranks, racers were forced to rely on sponsors, who commercialized and ultimately gained control of the sport. The end result, Charters argues, was the marginalization of the amateur competitor and of the CASC itself. Based on extensive research into the CASC's records and dozens of interviews with former competitors and officials, The Chequered Past opens a window into the rich but virtually unknown history of the auto sport, and claims for it a place in Canadian sports history.
