Austin Healey 100-6 & 3000 Graham Robson,2016-01-12 In nine eventful years - 1957 to 1965 - the six-cylinder-engined Austin Healey evolved into a formidable and increasingly specialised rally car. By any standards, it was the first of the homologation specials - a type made progressively stronger, faster, more versatile, and more suitable for the world's toughest International rallies. Though the motorsport foundations had been laid by the Healey Motor Co. Ltd, the work needed to turn these cars into rock-solid 210bhp projectiles was almost all completed by the world-famous works BMC Competitions Department at Abingdon. It was because of their vast experience that the Big Healeys as they were always affectionately known - became fast and tough, nimble yet durable, so that they were capable of winning major events wherever traction could be assured. Not only did the works Austin Healeys win some of the world's most famous events - including Liege-Sofia-Liege, Spa-Sofia-Liege and the French and Austrian Alpine rallies, but they were also supremely fast on events like the Tulip, and came so close, so often, to winning their home event, the British RAC Rally, which traditionally ended the season. Not only did these cars turn their drivers - Pat Moss, Donald Morley, Rauno Aaltonen, Timo Makinen and Paddy Hopkirk among them - into heroes, but individual cars seemed to take on a character and reputation of their own. This book lists each and every success, each and every notable car, and traces exactly how the machinery developed, and improved, from one season to the next. Over time, the works cars not only adopted aluminium cylinder heads and body panels, much-modified chassis, transmission and exhaust systems, but they also became supremely strong and could withstand a true battering on the world's toughest events. This book relates how the cars were improved by the engineers, how the drivers came to love their heavy and sometimes self-willed steeds, and how the management team got the most out of everything - machinery, personnel, drivers, and regulations. . Heavily illustrated and packed with technical detail this book will make a welcome addition to any motorsport fans library.

**A Lap of the Globe** Kevin Clemens,2006-08-07 Now a legend among classic automobile aficionados, Phillip Young is the man generally given credit for starting the classic endurance rally concept. Echoing a 1907 competition, this road race was unprecedented in modern times with a route which included China, India and Tibet. With the approach of the millennium, however, Phillip Young took on an even more ambitious project--the Around the World in 80 Days Motor Challenge. Beginning and ending in London, this event would send its participants literally around the globe in pre-1960 automobiles. This memoir recounts the author's adventures while competing in the Around the World in 80 Days Motor Challenge from May to July 2000. Beginning with his search for a sponsor and his deliberations in choosing a 1959 Mercedes-Benz 220S, it follows him from his arrival in London through various countries including Italy, Greece, former Russian Republics, China, Canada, the United States, Morocco, Spain and France. Clemens provides an up-close view of places most westerners never get to see and of the rigors of competition over varying terrain in an old car. Appendices contain information such as the daily route and schedule, the rally results, and a list of the U.S. Mercedes Team sponsors.
