The Car and the City Alan Thein Durning,1996 Many people recognize that the increasing number of automobiles is choking our cities--polluting our air, endangering our streets, and isolating us from our communities. This book shows how resurgent cities could make cars work again, and even solve problems ranging from oil wars to urban decay, rising seas to violent crime. Not just an analytic approach to economic and environmental urban concerns, *The Car and the City* is an offbeat journey through three great metropolises. Seattle, Portland, and Vancouver--by car, train, bicycle, and foot. It's a fascinating conversation with people who are quietly, but radically, rearranging the furniture of the modern city.

Strong Towns Charles L. Marohn, Jr.,2019-10-01 A new way forward for sustainable quality of life in cities of all sizes *Strong Towns: A Bottom-Up Revolution to Build American Prosperity* is a book of forward-thinking ideas that breaks with modern wisdom to present a new vision of urban development in the United States. Presenting the foundational ideas of the Strong Towns movement he co-founded, Charles Marohn explains why cities of all sizes continue to struggle to meet their basic needs, and reveals the new paradigm that can solve this longstanding problem. Inside, you'll learn why inducing growth and development has been the conventional response to urban financial struggles--and why it just doesn't work. New development and high-risk investing don't generate enough wealth to support itself, and cities continue to struggle. Read this book to find out how cities large and small can focus on bottom-up investments to minimize risk and maximize their ability to strengthen the community financially and improve citizens' quality of life. Develop in-depth knowledge of the underlying logic behind the "traditional" search for never-ending urban growth Learn practical solutions for ameliorating financial struggles through low-risk investment and a grassroots focus Gain insights and tools that can stop the vicious cycle of budget shortfalls and unexpected downturns Become a part of the Strong Towns revolution by shifting the focus away from top-down growth toward rebuilding American prosperity *Strong Towns* acknowledges that there is a problem with the American approach to growth and shows community leaders a new way forward. The Strong Towns response is a

revolution in how we assemble the places we live.

My Magic Carpet of Films Micky Moore, An autobiography of the longest career in Hollywood When Micky offers a ride on his personal magic carpet of films, I'd say that it's definitely a ride worth taking. He's seen cinema unfold from its humble beginnings and I can hardly imagine a better tour guide through the storied history of movie magic. - George Lucas Micky Moore was always more than a second unit director. He was a movie maker with an historic perspective and deep respect for American film. - Steven Spielberg From his introduction: A ride on a magic carpet is a wonderful thing. It allows you to see the past, the present and takes you into the future. It can give you new perspectives, offer up lessons and provide you with wild adventures. A magic carpet can give you a passport to almost anywhere and so it is with my magic carpet of films. My journey started when I was eighteen months old, in 1916, and continues right up into the 21st Century. It has made it possible for me to meet and work with people from all walks of the motion picture industry. It has taken me to many wonderful places around the globe. It has provided me with a career that extends from the silent days of films, called flicks, to the present era of blockbusters and high tech special effects movies. During this time, I have seen the silent films become talkies and talkies give way to surround-sound. I have seen picture shows go from black and white to color, from ten minute one-reelers to three-hour epics. I have seen film change from celluloid to digital and cameras go from hand-cranked to computerized. I have seen movies presented on a single screen enhanced by organ music give way to multiplexes and home theaters with THX. I have seen movies stars' careers rise and fall and the emphasis on celebrities in our culture. I have seen directors become as famous as their leading actors. I have seen the cost of a movie ticket go from 5 cents to over \$10 and box office grosses now reported in the news along with the weather report. A lot has changed in the motion picture industry during my lifetime-good and bad-but one thing remained constant, my love of what I have done. Perhaps it was my destiny, a combination of fate and timing, an early start in the business and my adventurous attitude, that gave me an opportunity to work with some of the most talented individuals in the business and kept me an active part of the industry for so many years. But how do I

share with you my story that spans nine decades? Perhaps, to keep things in perspective, let's go back in time on my magic carpet to the beginning.
