Second Star to the Right Lester D. Friedman,Allison B. Kavey,2008-11-28 Over a century after its first stage performance, Peter Pan has become deeply embedded in Western

popular culture, as an enduring part of childhood memories, in every part of popular media, and in commercial enterprises. Since 2003 the characters from this story have had a highly visible presence in nearly every genre of popular culture: two major films, a literary sequel to the original adventures, a graphic novel featuring a grown-up Wendy Darling, and an Argentinean novel about a children's book writer inspired by J. M. Barrie. Simultaneously, Barrie surfaced as the subject of two major biographies and a feature film. The engaging essays in *Second Star to the Right* approach Pan from literary, dramatic, film, television, and sociological perspectives and, in the process, analyze his emergence and preservation in the cultural imagination.

Recent Themes in the Philosophy of Science S.

Clarke, T.D. Lyons, 2013-03-09 Australia and New Zealand boast an active community of scholars working in the field of history, philosophy and social studies of science. *Australasian Studies in History and Philosophy of Science* aims to provide a distinctive publication outlet for their work. Each volume comprises a group of thematically-connected essays edited by scholars based in Australia or New Zealand with special expertise in that particular area. In each volume, a majority of the contributors are from Australia or New Zealand. Contributions from elsewhere are by no means ruled out, however, and are actively encouraged wherever appropriate to the balance of the volume in question. Earlier volumes in the series have been welcomed for significantly advancing the discussion of the topics they have dealt with. I believe that the present volume will be greeted

equally enthusiastically by readers in many parts of the world. R. W. Home General Editor Australasian Studies in History And Philosophy of Science viii ACKNOWLEDGEMENTS The majority of the papers in this collection had their origin in the 2001 Australasian Association for History, Philosophy, and Social Studies of Science annual conference, held at the University of Melbourne, where streams of papers on the themes of scientific realism and commonsense were organised.
