Professionalism in journalism in the era of new media Jacek Sobczak, Jędrzej Skrzypczak, 2015-12-31 The term 'professionalization' arouses controversies in academic discussion, let alone the issue of professionalization of journalism. Journalism considerably departs from the ideal model of professionalization. There is no structured knowledge that directly applies to journalists, although we can talk about defined skills and the practical principles of the journalist's profession. Considering the process of the professionalization of journalism, we can indicate three significant determinants, namely professional autonomy, separate professional standards (self-regulation principles) and serving the public interest. However, it is particularly important to ask about the condition of the journalist's profession nowadays. The ongoing technological revolution on the one hand, and the political and legal transformations accompanied by market trends, such as the tabloidization of the media (so-called infotainment) first and foremost, and citizen journalism on the other, have all generated great doubts about the status of journalists. This calls for a redefinition of the professional position and role of journalists in modern societies. All these transformations may pose a serious threat to the model of traditional journalism and the social and professional position of journalists. The book introduced here consists of four parts, presenting various aspects of professionalization of journalism. The first part treats of diverse topics concerning the essence of this issue, as well as the legal status of journalist's profession. The second part, features texts devoted to the issues of digital media. Part three deals with the disturbing phenomenon of hate speech. The main theme of the last part of the book concerns the issue of lobbying in the process of establishing intellectual property rights. The texts presented here have been written by scholars in the fields of law, media studies and political science on the one hand and practitioners (journalists) from several countries of Europe on the other. The editors hope that the publication will contribute to the ongoing discussion concerning both the journalists' and journalism status, in the era of dynamic technological transformation.

Medios de comunicación, contenidos digitales y derecho de autor Eduardo Serrano Gómez, Miguel Ortego Ruiz, Jorge Ortega Doménech, Susana Navas Navarro, César Iglesias Rebollo, María Teresa de Vico Carrancho Herrero, 2020-01-01 Se analizan en esta monografía diferentes cuestiones, especialmente relevantes en el ámbito digital, en torno a los medios de comunicación y los derechos de autor. En efecto, asistimos en los últimos años a una verdadera revolución en el sector de las comunicaciones gracias al desarrollo y proliferación de los medios digitales y, en ese sentido, se plantean numerosas dudas jurídicas en torno a la idoneidad de las reglas tradicionales sobre los derechos de autor, pensadas fundamentalmente para el mundo analógico, para poder hacer frente a esta nueva realidad. Por tanto, el planteamiento de la obra se hace en conexión a las últimas iniciativas legislativas que en este ámbito se están realizando en el seno de la Unión Europea y teniendo en cuenta, también, las últimas opiniones doctrinales y jurisprudenciales. En este contexto, Miguel Ortego Ruiz, abogado experto en propiedad intelectual, aborda el análisis del conflictivo derecho conexo previsto para los editores en la Directiva sobre Derechos de Autor en el Mercado Único Digital.

Eduardo Serrano Gómez, Profesor titular de Derecho Civil (acreditado a Catedrático de Universidad) de la Universidad Complutense de Madrid, se ocupa de la regulación de los prestadores de servicios para compartir en línea contenidos cargados por los usuarios, que trata de favorecer una remuneración más justa para los creadores y titulares de derechos por el uso de sus obras a través de estas plataformas, cada vez más comunes y populares. El régimen jurídico de las licencias multiterritoriales y su futuro inmediato constituye el núcleo del trabajo realizado por Susana Navas Navarro, Catedrática de Derecho Civil de la Universidad Autónoma de Barcelona. César Iglesias Rebollo, abogado experto en nuevas tecnologías, analiza el fenómeno de las denominadas obras transmedia, en particular, la necesidad de delimitar su concepto y precisar su régimen jurídico. Jorge Ortega Doménech, Profesor de Derecho Civil de la Universidad Complutense de Madrid, examina los mecanismos de protección de las entidades de radiodifusión, apostando por la necesidad del reconocimiento de nuevos derechos más allá de los recogidos en la LPI o en la legislación internacional. Por último, Teresa Carrancho Herrero, Catedrática de Derecho Civil de la Universidad de Burgos, profundiza en la problemática y las consecuencias jurídicas de la utilización de contenidos digitales por parte de las instituciones de carácter cultural.

Strafrecht Besonderer Teil/2 Wessels Hillenkamp Schuhr, 2021-01-01 Der Inhalt: Die Neuauflage berücksichtigt Rechtsprechung und Schrifttum bis Juni 2021. Dieses Lehrbuch behandelt die Straftaten gegen Vermögenswerte in der Breite und Tiefe, in der sie Gegenstand der Ersten Juristischen Prüfung im Pflichtfach sind. Es ist zum vorlesungsbegleitenden Lernen für Studienanfänger und Fortgeschrittene konzipiert und stellt die wichtigsten Straftatbestände schwerpunktartig, klar und einprägsam anhand von kapitaleinleitenden Fällen mit kurzen Lösungen dar. Dieser Gang der Darstellung ermöglicht problemlos das Eindringen in die Materie und eignet sich darüber hinaus auch zur Wiederholung vor Prüfungen. Die Fälle sind nach didaktischen Gesichtspunkten ausgewählt und meist höchstrichterlichen Entscheidungen nachgebildet. Sie stellen die Verbindung zur Argumentationsweise der Rechtsprechung her und nehmen so den Studierenden auch die Scheu vor dem Klausurenschreiben. Prüfungsschemata zu allen wichtigen Tatbeständen des StGB erleichtern zudem die Anwendung des systematisch Erlernten in der Klausur. Zahlreiche Beispiele aus der höchstrichterlichen Entscheidungspraxis machen das vermittelte Basiswissen anschaulich. Die Rubrik Die aktuelle Entscheidung zeigt jüngste Rechtsprechungsentwicklungen im Bereich der Delikte gegen Vermögenswerte, die noch im Fluss sind und im Hinblick auf Prüfungen besondere Aufmerksamkeit verdienen. 40 Days Dennis Edwin Smith, 2012-12-01 Physical health influences spiritual and emotional health as well as the ability to minister effectively. As Ellen White said so succinctly: The misuse of our physical powers shortens the period of time in which our lives can be used for the glory of God. And it unfits us to accomplish the work God has given us to do (Christ's Object Lessons, p. 346). In this volume Dennis Smith invites you to spend 40 days continuing the work God has given you while exploring a holistic view of health, the importance of caring for mind, body, and soul, and the integral role of the health message during these last days of earth's history.

Intellectual Property Law in Switzerland François Dessemontet, 2022-11-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph provides a survey and analysis of the rules concerning intellectual property rights in Switzerland. It covers every type of intellectual property right in depth – copyright and neighbouring rights, patents, utility models, trademarks, trade names, industrial designs, plant variety protection, chip protection, trade secrets, and confidential information. Particular attention is paid throughout to recent developments and trends. The analysis approaches each right in terms of its sources in law and in legislation, and proceeds to such legal issues as subject matter of protection, conditions of protection, ownership, transfer of rights, licences, scope of exclusive rights, limitations, exemptions, duration of protection, infringement, available remedies, and overlapping with other intellectual property rights. The book provides a clear overview of intellectual property legislation and policy, and at the same time offers practical guidance on which sound preliminary decisions may be based. Lawyers representing parties with interests in Switzerland will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative intellectual property law.
