Chris Colfer

WHITEFRANK Jonathan Nolan,2021-07-26 Adventures in a fairy tale / saturday morning cartoon world! Based on public domain 1900s fairy tale books and maps, public domain Oz books and the beautiful illustrations that brought them to life! Loads of character classes, treasures to quest for, monsters and maps of the Caves of Shirewood, the Land of Saturdayness, a cavern generator, and writeups of Santa, the Snow Queen, Queen Titania, Elder Boss the Dragon King, the Water-Dragon and many more! With an ethos of non-lethal combat wherever possible, the Saturdayness world promotes family gaming even for the youngest gamers, and brings to life the stories with which they are most familiar. Having said that, it's also excellent for gamers of all ages, especially those looking for something genuinely different! A complete listing of all the map locations provides characters, creatures, items and adventures for each of the locations as well as interlinking the areas and characters into several different possible campaigns, whether it is helping King Richozmard, stopping his scheming brother from stealing the throne, going on quests for Good Witches, fighting Giants, helping the magical little creatures that hide among the flowers, or battling Pirates, Bogles, Nomes or hideous shapeshifters! A plethora of Fairies are detailed along with the sort of mischief they will do if not stopped. New Magic Spells include those used by Santa, Witches and Fairies, and the final section of the book is a long list of Magic Things -items and creatures- each of which can form the basis for a quest or in some cases - an entire campaign!

Animation Paul Wells,2019-07-25 Animation: Genre and Authorship explores the distinctive language of animation, its production processes, and the particular questions about who makes it, under what conditions, and with what purpose. In this first study to look specifically at the ways in which animation displays unique models of ‘auteurism’ and how it revises generic categories, Paul Wells challenges the prominence of live-action moviemaking as the first form of contemporary cinema and visual culture. The book also includes interviews with Ray Harryhausen and Caroline Leaf, and a full timeline of the history of animation.

Fairy-Tale Films Beyond Disney Jack Zipes,Pauline Greenhill,Kendra Magnus-Johnston,2015-09-16 The fairy tale has become one of the dominant cultural forms and genres internationally, thanks in large part to its many manifestations on screen. Yet the history and relevance of the fairy-tale film have largely been neglected. In this follow-up to Jack Zipes’s award-winning book *The Enchanted Screen* (2011), *Fairy-Tale Films Beyond Disney* offers the first book-length multinational, multidisciplinary exploration of fairy-tale cinema. Bringing together twenty-three of the world’s top fairy-tale scholars to analyze the enormous scope of these films, Zipes and colleagues Pauline Greenhill and Kendra Magnus-Johnston present perspectives on film from every part of the globe, from Hayao Miyazaki’s *Spirited Away*, to Jan Švankmajer’s *Alice*, to the transnational adaptations of *1001 Nights* and Hans Christian Andersen. Contributors explore filmic traditions in each area not only from their different cultural backgrounds, but from a range of academic fields, including criminal justice studies, education, film studies, folkloristics, gender studies, and literary studies. *Fairy-Tale Films Beyond Disney* offers readers an opportunity to explore the intersections, disparities, historical and national contexts of its subject, and to further appreciate what has become an undeniably global phenomenon.
