Muslim Heroes on Screen Daniel O'Brien,2021-11-16 If films drawing on Middle East tropes often highlight white Westerners, figures such as Sinbad and the Thief of Bagdad embody a counter-tradition of protagonists, derived from Islamic folklore and history, who are portrayed as 'Other' to Western audiences. In *Muslim Heroes on Screen*, Daniel O'Brien explores the depiction of these characters in Euro-American cinema from the silent era to the present day. Far from being mere racial masquerade, these screen portrayals are more complex and nuanced than is generally allowed, not least in terms of the shifting concepts and assumptions that inform their Muslim identity. Using films ranging from Douglas Fairbanks' *The Thief of Bagdad*, *The 7th Voyage of Sinbad*, *El Cid*, *Kingdom of Heaven* and *The Message to The Wind and the Lion*, O'Brien considers how the representational strategies of Western filmmakers may transcend such Muslim stereotypes as fanatic antagonists or passive victims. These figures possess a cultural significance which cannot be fully appreciated by Euro-American audiences without reference to their distinction as Muslim heroes and the implications and resonances of an Islamicized protagonist.

Popular Culture and the Future of Politics Ted

Gournelos, 2009-09-30 *Popular Culture and the Future of Politics: Cultural Studies and the Tao of South Park* argues that progressives should conceive the connections between media, policy, and culture beyond the limits of 'politics' and 'news.' With sustained analyses of groundbreaking contemporary examples of what has become known as 'convergence culture,' Ted Gournelos brings together a wide range of media without sacrificing depth. His examples, such as South Park, The Simpsons, The Onion, The Daily Show, Chappelle's Show, and The Boondocks, are chosen for their political scope and social impact and demonstrate the ways in which what we know as 'politics' is rapidly changing. The book's forays into established fields like feminist, race, and queer theory are combined with perspectives drawn from political economy and rhetoric to demonstrate the power of irony, humor, and cultural dissonance in modern approaches to dissonant cultural politics.

Doing Cultural Theory David Walton, 2012-03-26 Will be a very useful tool for any student trying to make sense of the vast expanses of contemporary cultural theory and criticism. Well-written and admirably self-reflective, it combines rigorous explications and applications of many of the most influential concepts and theorists. - Lawrence Grossberg, University of North Carolina Accessible and insightful throughout; offering help to both experienced and inexperienced students of cultural theory. Highly recommended. - John Storey, University of Sunderland *Doing Cultural Theory* teaches more than just the basics of cultural theory. It unpacks its complexities with real-life examples, and shows readers how to link theory and practice. This book: Offers accessible introductions to how cultural studies has engaged with key theories in structuralism, poststructuralism and postmodernism Teaches straightforward ways of practising these theories so students learn to think for themselves Uses 'practice' boxes to show students how to apply cultural theory in

the real world Guides students through the literature with carefully selected further reading recommendation. Other textbooks only show how others have analyzed and interpreted the world. Doing Cultural Theory takes it a step further and teaches students step-by-step how to do cultural theory for themselves.

The Russian Army of the Napoleonic Wars (2) Philip Haythornthwaite, 2012-11-20 During the Napoleonic era, Russia possessed a vast force of cavalry, forming a greater percentage than that of most European armies. This stemmed partly from their service against the Turks, who had huge numbers of troops, and partly from the fact that much Russian terrain was suitable for the manoeuvre of large bodies of cavalry. This companion volume to *Men-at-Arms 185* examines the organisation, tactics and uniforms of the Russian cavalry during this dynamic and turbulent period, covering Cuirassiers, Dragoons, Hussars, Uhlans, Mounted Jägers and the Lifeguard, as well as the Opolchenie militia and Cossacks.

Raemaekers' Cartoon History of the War Volume 2 - War College Series Louis Raemaekers, James Murray Allison, 2015-02-24 This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and

depth of this collection, from the historical to the just-published works.

International Law, Conflict and Development Walter Kälin, Robert Kolb, Christoph Spénlé, Maurice Voyame, 2010-01-11
Experience and research have long shown an intrinsic link between human rights, conflict and development. This interdependence between different areas, doctrines, and disciplines calls for a genuinely coherent, holistic approach in International Affairs. With the challenges the work for the protection and respect of humanity encounters, this book intends to bring together articles and ideas that indicate the complexity of such an endeavor. The chapters, written by academics and practitioners encompass snapshots of crucial development lines as well as conceptual ideas and frameworks. In doing so the book provides insight to the principal understanding that peace efforts, encapsulating human rights, conflict management and development, can only be sustained and flourish as long as conflicting parties have at least a minimal consensus and will to settle their differences peacefully. As a *Liber Amicorum* for Joseph Voyame the book honors the determination for humanity and respect for human dignity and peaceful mitigation of conflict which marked his life and work.

Deconstructing South Park Brian Cogan, 2012
Deconstructing South Park: Critical Examinations of Animated Transgression is an edited collection by Brian Cogan that looks at the long and controversial run of one of the most subversive programs on television. South Park, while denounced by many as simply scatological, is actually one of the most nuanced and thoughtful programs on television. The contributors to South Park reveal that, through the lens of four foul-mouthed nine year olds, Trey Parker and Matt Stone have created one of the most astute forms of social and political commentary in television history. Deconstructing South Park, itself the most ambitious deconstruction of popular culture to date, analyzes how South

Park is not only entertainment, but a commentary on American culture that tackles controversial issues far beyond the depth of most television. Specifically, the medium of animated sitcom allows the show's creators to contribute to cultural conversations regarding disability studies, religion, sexuality, celebrity, and more. If South Park deconstructs American culture, then Cogan and his contributors deconstruct the deconstructionists and reveal South Park in all its hilarious and often contradictory complexity.

Messerschmitt Bf 110 Zerstörer Aces of World War 2

John Weal, 2012-10-20 This volume is the first of its type to be devoted exclusively to the Zerstörer day fighter aces, spanning the war years from Poland to the defence of the Reich. Although Messerschmitt's single-engined Bf 109 has received most of the plaudits for achieving virtual air superiority over Europe in 1939-40, the exploits of the manufacturer's twin-engined Bf 110, the Ju 88 and the Me 410 Zerstörer in the first year of the war also make for very impressive reading. Indeed, on the eve of World War 2 a posting to a Bf 110 unit was considered to be the best career move available in the Luftwaffe.

Recognition and Freedom
Jonas Jakobsen, Odin Lysaker, 2015-01-27 Recognition and Freedom offers up-to-

After Charlie Hebdo Gavan Titley, Des Freedman, Gholam Khiabany, Aurélien Mondon, 2017-11-15 As the world looked on in horror at the Paris terror attacks of January and November 2015, France found itself at the centre of a war that has split across nations and continents. The attacks set in motion a steady creep towards ever more repressive state surveillance, and have fuelled the resurgence of the far right across Europe and beyond, while leaving the left dangerously divided. These developments raise profound questions about a number of issues central to contemporary debates, including the nature of national identity, the limits to freedom of speech, and the role of both traditional and social media. After Charlie Hebdo brings together an international range of scholars to assess the social and political impact of the Paris attacks in Europe and beyond. Cutting through the hysteria that has characterised so much of the initial commentary, it seeks to place these events in their wider global context, untangling the complex symbolic web woven around 'Charlie Hebdo' to pose the fundamental question - how best to combat racism in our supposedly 'post-racial' age?
