Robert Mankoff

The Rejection Collection Vol. 2 Matthew Diffie, 2007-10-30 Each week The New Yorker receives more than five hundred submissions from its regular cartoonists, who are all vying for one of the twenty coveted spots in the magazine. So what happens to the 75 percent of cartoons that don't make the cut? Some go back in a drawer, others go up on the refrigerator or into the filing cabinet...but the very best of all the rejects can be found right here in these pages. The Rejection Collection Vol. 2: The Cream of the Crap is the ultimate scrap heap of creative misfires -- from the lowbrow and the dirty to the politically incorrect and the weird, these rejects represent the best of the worst...in the best possible sense of the word. Handpicked by editor Matthew Diffie, these hilarious cartoons are accompanied by handwritten questionnaires and photographed self-portraits, providing a rare glimpse into the minds of the artists behind the rejection. With appendices that explore the top ten reasons why cartoons are rejected and examine the solitary nature of the job of cartooning -- plus a special bonus section of questions asked of and answered by cartoon editor Robert Mankoff -- this sequel to The Rejection Collection offers even deeper insight into the exercise in frustration, patience, and amusement that is being a New Yorker cartoonist. Warped, wicked, and wildly funny, The Rejection Collection Vol. 2 will appeal to every New Yorker fan -- and everyone with a taste for the absurd.

cartoons? You're not alone. Editorial readership surveys show they're almost always the best read and remembered part of magazines and newspapers. But how do the cartoonists do it? Where do their ideas come from and how do they convert those bits of inspiration into the delightful sprinkling of drawings we enjoy so much? That's what makes this book so special. Not only does Wall Street Journal cartoonist Stu Heinecke share his doodlings, he takes us behind the scenes with stories about each cartoon in the book. Where the ideas came from, how they were created and who they touched all come into focus in this one-of-a-kind book.

Read it to find 101 reasons to be cheerful and feel good about the world.

Where's Dennis? Hank Ketcham, 2007 edited by Alex Chun & Jacob Covey Although best known as one of the greatest syndicated cartoonists of the 20th Century, Dennis the Menace creator Henry Hank Ketcham also spent nearly a decade as a gag cartoonist for major New York magazines like the Colliers and the Saturday Evening Post. In these gag cartoons, which were primarily published between 1942 and 1950, one can already see the endearing

troublemaker that would become the protagonist in his long-running strip. (In fact, Ketcham in his Dennis the Menace cartoons, reused some of the gags and images almost verbatim.) Collected for the first time are hundreds of Ketcham's long forgotten magazine cartoons. Together, they provide a rare glimpse into what would later become one the most beloved comics to grace the comics pages!

Out to Lunch Animal Cartoons Ricahrd L. Diesslin, 2013-02-13 Out to Lunch (OTL) Animal Cartoons takes an exclusive look at the OTL cartoons featuring animals. This collection contains over 155 cartoons, including some bonus cartoons from some of Rich's other projects. The idiom Out to Lunch (OTL) means crazy or out of touch with the reality, so that seemed a fitting strip name for my single-panel general comic. OTL cartoons have been around for more than a decade in various forms and various media including newspapers, magazines, on the internet at the-cartoonist.com and on merchandise. If you haven't heard of them before, that's not surprising since the plethora of media outlets still only reach a limited audience. Hopefully you'll see them more and more in the future and you can find them weekly at the-cartoonist.com. Out to Lunch cartoons are now syndicated and appear in Funnies Extra! papers across the country as well as in more and more newspapers, so hopefully you'll have a chance to see them in their native habitat. Here are some burning questions about animals you might find answered in this book ... What's an aardvark worth on the black market? Is

there a vampire generation gap? Can vampires use their cell phones in flight? Do bear bags really work? If the early bird gets the worm, what does the late bird get? Do beavers have bad days? What's the Trace Adkin's Diet? What happens if the Coyote sued ACME? How do bugs celebrate Mother's Day? Do buzzards like greenbean casserole and pizza? Do animals like car rides? What's the real inspiration for bagpipes? Do cats go to heaven? Can a cat hibernate? Do cats like privacy? What is a cow's favorite winter Olympic event? What can you order at McBessies? Can you milk a bull? Why don't people like cow pies? What game do cows like to play? Do crocodiles really rock? What do alligators eat for dinner? Do dogs have access to answering machines? Can Lassie help Timmy in rehab? What are some of the problems with discounted airfares? Can you teach a dog to fetch Pizza? Why don't elephants like computers? Do fish ever graduate? If a princess kisses a frog will it really turn into a handsome prince? Do lions like Father's Day? How smart do you need to be to track an elephant? Why don't ostriches like eating at fancy restaurants? ... and much, much more

The New Yorker Book of Art Cartoons Robert Mankoff, 2005-08-01 Great art has an enduring place in our hearts and society because it says something about who we are. And that's what makes these cartoons about art, the artistic life, and our responses to them so much fun. The themes are timeless: Is it noteworthy? What is the artist trying to say? Why did he paint a soup can? The New Yorker's cartoonists have found endless humor in their fellow artists

and in the art-loving public (as well as those who are dragged along to exhibits). The subjects of their wry wit range from the famous heavy hitters of art history to amateur strivers, and from swank museum shows to lonely artists at the easel, searching for a muse. With more than one hundred cartoons, this collection is a masterpiece bound to amuse fans and friends of art and artists.

Kultur in Cartoons ,2018-01-18 When his cartoons began to reach America toward the end of 1916 this country was neutral. It is with peculiar satisfaction, therefore, that I base this brief foreword upon press extracts published prior to America's participation in the war. If it were possible to discover today an individual who was entirely ignorant as to the causes and conduct of the war, he would, after an inspection of a hundred or more of these cartoons, probably utter his conviction somewhat as follows: I do not believe that these drawings have the slightest relation to the truth; I do not believe that it is possible for such things to happen in the twentieth century. He would be quite justified, in his ignorance of what has happened in Europe, in expressing such an opinion, just as any of us, with the possible exception of the disciples of Bernhardt himself, would have been justified in expressing a similar view in July, 1914. What is the view of all informed people today? To Raemaekers the war is not a topic, or a subject for charity. It is a vivid heartrending reality, says the New York Evening Post, and you come away from the rooms where his cartoons now hang so aware of what

war is that mental neutrality is for you a horror. If you have slackened in your determination to find out, these cartoons are a slap in the face. Raemaekers drives home a universal point that concerns not merely Germans, but every country where royal decrees have supreme power. Shall one man ever be given the power to seek his ends, using the people as his pawns? We cannot look at the cartoons and remain in ignorance of exactly what is the basis of truth on which they are built. The Philadelphia American likens Raemaekers to a sensitized plate upon which the spirit which brought on the war has imprinted itself forever, and adds: What he gives out on that subject is as pitilessly true as a photograph. They look down upon us in their naked truth, those pictures which are to be, before the judgment-seat of history, the last indictment of the German nation. Of all impressions, there is one which will hold you in its inexorable grip: it is that Louis Raemaekers has told you the truth.

The Great Cartoon Directors Jeff Lenburg, 1983 The first book ever on Hollywood's greatest 1930s-1950s cartoon directors: Tex Avery, Bob and Sody Clampett, Friz Freleng, Bill Hanna & Joe Barbera, Walter Lantz, and many others. Based on thorough research and exclusive interviews. Bios, critiques, anecdotes, reminiscences. Includes two large sections of glossy plates (50 photographs), bibliography, filmography, index.

Spectickles Bill Abbott, 2014 You recognize Spectickles from their huge glasses, but you remember them for their wet-your-pants, tears-rolling-down-

your-face, hyperventilating humor. In newspapers, calendars (Mead, American Greetings), greeting cards (Hallmark) and dozens of other licensed products around the world.

How About Never--Is Never Good for You? Bob Mankoff, 2014-03-25 Memoir in cartoons by the longtime cartoon editor of The New Yorker People tell Bob Mankoff that as the cartoon editor of The New Yorker he has the best job in the world. Never one to beat around the bush, he explains to us, in the opening of this singular, delightfully eccentric book, that because he is also a cartoonist at the magazine he actually has two of the best jobs in the world. With the help of myriad images and his funniest, most beloved cartoons, he traces his love of the craft all the way back to his childhood, when he started doing funny drawings at the age of eight. After meeting his mother, we follow his unlikely stints as a high-school basketball star, draft dodger, and sociology grad student. Though Mankoff abandoned the study of psychology in the seventies to become a cartoonist, he recently realized that the field he abandoned could help him better understand the field he was in, and here he takes up the psychology of cartooning, analyzing why some cartoons make us laugh and others don't. He allows us into the hallowed halls of The New Yorker to show us the soup-to-nuts process of cartoon creation, giving us a detailed look not only at his own work, but that of the other talented cartoonists who keep us laughing week after week. For desert, he reveals the secrets to winning the magazine's caption contest. Throughout How

About Never--Is Never Good for You?, we see his commitment to the motto Anything worth saying is worth saying funny.

This eBook is designed to teach students to analyze history as conveyed in visual media. The cartoons offer comments about various moments in history, and they challenge the reader to evaluate their perspective and objectivity. Viewed outside their original journalistic context, the cartoons engage and amuse as comic art, but they can also puzzle a reader with references to little-remembered events and people. This eBook provides contextual information on each cartoon to help dispel the historical mysteries. Berryman's cartoons were originally published as illustrations for the front page of the Washington Post and the Washington Evening Star at various dates spanning the years from 1896 to 1949. Thirty-nine cartoons selected from the more than 2,400 original Berryman drawings preserved at the Center for Legislative Archives convey thumbnail sketches of Congress in action to reveal some of the enduring features of our national representative government. For more than 50 years, Berryman's cartoons engaged readers of Washington's newspapers, illustrating everyday political events as they related to larger issues of civic life. These cartoons promise to engage students in similar ways today. The cartoons intrigue and inform, puzzle and inspire. Like Congress itself, Berryman's cartoons seem familiar at first glance. Closer study reveals

nuances and design features that invite in-depth analysis and discussion. Using these cartoons, students engage in fun and substantive challenges to unlock each cartoon's meaning and better understand Congress. As they do so, students will develop the critical thinking skills so important to academic success and the future health and longevity of our democratic republic.
