The Pants Project Cat Clarke, 2017-03-07 Okay, here goes. My name is Liv (not Olivia). I'm not technically a girl. I'm transgender. Which is a bit like being a Transformer, only not quite as cool because I probably won't get to save the world one day. Liv knows he was always meant to be a boy, but with his new school's terrible dress code, he can't even wear pants. Only skirts. Operation: Pants Project begins! The only way for Liv to get what he wants is to go after it himself. But to Liv, this isn't just a mission to change the policy—it's a mission to change his life. And that's a pretty big deal.

When hardened men with a soft spot for felines look for a haven, they come to Kitty and Me, a bar with a select clientele and one ironclad rule: When inside, do not dare harm the cats that call it home. Here, the hitman known as Undertaker finds himself in the unenviable situation of mourning the recent loss of his beloved pet, Cheriko... and discovering that his next target is a fellow cat lover. But the concrete jungle isn't always so courteous as to wait outside, and the bloody truth about Undertaker's latest job is knocking at the door.

*Harmonic Feedback* Tara Kelly, 2010-05-25 Sixteen-year-old, music- and sound design-obsessed Drea doesn't have friends. She has, as she's often reminded, issues. Drea's mom and a rotating band of psychiatrists have settled on a touch of Asperger's. Having just moved to the latest in a string of new towns, Drea meets two other outsiders. And Naomi and Justin seem to actually like Drea. The three of them form a band after an impromptu, Portishead-comparison-worthy jam after school. Justin swiftly challenges not only Drea's preference for Poe over Black Lab but also her perceived inability to connect with another person. Justin, against all odds, may even like like Drea. It's obvious that Drea can't hide behind her sound equipment anymore. But just when she's found not one but two true friends, can she stand to lose one of them? *Harmonic Feedback* is a 2011 Bank Street - Best Children's Book of the Year.

**Surfing Uncertainty** Andy Clark, 2016 This title brings together work on embodiment, action, and the predictive mind. At the core is the vision of human minds as prediction machines - devices that constantly try to stay one step ahead of the breaking waves of sensory stimulation, by actively predicting the incoming flow. In every situation we encounter, that complex prediction machinery is already buzzing, proactively trying to anticipate the sensory barrage. The book shows in detail how this strange but potent strategy of self-anticipation ushers perception, understanding, and imagination simultaneously onto the cognitive stage.

**The Cat's Table** Michael Ondaatje,2012-06-12 From Michael Ondaatje: an electrifying novel, by turns thrilling and deeply moving—one of his most vividly rendered and compelling works of fiction to date. In the early 1950s, an eleven-year-old boy boards a huge liner bound for England. At mealtimes, he is placed at the lowly Cat's Table with an eccentric and unforgettable group of grownups and two other boys. As the ship makes its way across the Indian Ocean, through the Suez Canal, into the Mediterranean, the boys find themselves immersed in the worlds and stories of the adults around them. At night they spy on a shackled prisoner—his crime and fate a galvanizing mystery that will haunt them forever. Looking back from deep within adulthood, and gradually moving back and forth from the decks and holds of the ship to the years that follow the narrator unfolds a spellbinding and layered tale about the magical, often forbidden discoveries of childhood and the burdens of earned understanding, about a life-long journey that began unexpectedly with a sea voyage.

**Beasts and Gods** Roslyn Fuller, 2015-11-15 Democracy does not deliver on the things we have assumed are its natural outcomes. This, coupled with a growing sense of malaise in both new and established democracies forms the basis to the assertion made by some, that these are not democracies at all. Through considerable, impressive empirical analysis of a variety of voting methods, across twenty different nations, Roslyn Fuller presents the data that makes this contention indisputable. Proving that the party which forms the government rarely receives the majority of the popular vote, that electoral systems regularly produce manufactured majorities and that the better funded side invariably wins such contests in both elections and referenda, Fuller's findings challenge the most fundamental elements of both national politics and broader society. **Beast and Gods** argues for a return to democracy as perceived by the ancient Athenians. Boldly arguing for the necessity of the Aristotelian assumption that citizens are agents whose wishes and aims can be attained through participation in politics, and through an examination of what "goods" are provided by democracy, Fuller offers a powerful challenge to the contemporary liberal view that there are no goods in politics, only individual citizens seeking to fulfil their particular interests.
