*Catch-Words*(by Nicholas D. Nance) Nicholas D.

Nace,2018-04-24 Between the fifteenth and eighteenth centuries, the assembly of printed sheets into ordered books had a textual aid: a few letters printed in the bottom-right margin of each page that anticipated the first word at the top of the following page. A quick glance could confirm that the 'catch-word' matched the start of the next page's text, and therefore that the sequencing and pagination were correct. This book gathers the catch-words in the first edition of Samuel Richardson's landmark novel *Clarrisa*, or, the history of a Young Lady (1748). Their new arrangement follows the structure of its source: each catch-word becomes a line, each gathering a stanza, each volume a canto. The process repeats in the manner of a musical catch until, finally, all 883,716 of Richardson's words are gone. Features the 8 page supplement, *Directions for Reading*. Nicholas D. Nace has previously taught at the University of Massachusetts, Boston and SUNY Binghamton. He teaches a wide range of courses in British and American literature and publishes on seventeenth-, eighteenth-, and nineteenth-century British literature, often in relation to trends in contemporary poetics. He is currently Visiting Assistant Professor of Rhetoric at Hampden-Sydney College, Virginia, United States. Nace has published writings in various journals such as *The Burlington Magazine*, *The Book Collector*, and *The Scriblerian*.
