**The Secret Language of Cats** Susanne Schötz,2018-11-01 Have you ever wondered what your

cat is saying? Cats do not meow randomly, nor do they growl or hiss because they have nothing better to do. Cat sounds have a purpose, and they can carry important messages, whether for us or other cats. Susanne Schötz is hard at work on breaking the cat code. She is a professor at Lund University in Sweden, where a long-standing research program is proving that cats do actually use vocal communication—with each other and with their human caretakers. Understanding the vocal strategies used in human-cat communication will have profound implications for how we communicate with our pets, and has the potential to improve the relationship between animals and humans within several fields, including animal therapy, veterinary medicine and animal sheltering. In *The Secret Language of Cats*, Schötz offers a crash course in the phonetic study of cat sounds. She introduces us to the full range of feline vocalizations and explains what they can mean in different situations, and she gives practical tips to help us understand our cats better.

How the Cat Got Its Sound James Turner, 2019

Wild Cats of the World Mel Sunkist, Fiona Sunkist, 2017-05-15 Did you know that European royalty once used cheetahs to hunt deer, or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start? Have you ever wondered whether domestic cats

really do land on their feet when they fall, or how Canada lynx can stalk their prey in the winter without falling through the deep snow? *Wild Cats of the World* is a treasure trove of answers to questions like these, and many others, for anyone who's interested in learning more about the world's felids, including the ones with whom we share our homes. Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source, many of them quite difficult to find, including scientific papers, descriptions of hunts, archeological findings, observations by naturalists and travelers, reports from government agencies, and newsletters from a wide variety of organizations. Weaving information from these sources together with their own experiences observing wild cats around the world, the Sunquists have created the most comprehensive reference on felids available. Each of their accounts of the 36 species of cat contains a description of the cat, including human interactions with it, as well as detailed data on its distribution, ecology and behavior, status in the wild, and efforts to conserve it. Numerous photographs, including more than 40 in full color, illustrate these accounts. Ranging from the two-pound black-footed cat to the five-hundred-pound tiger, and from the African serval with its satellite-dish ears to the web-footed fishing cat of Asia, *Wild Cats of the World* will fascinate and educate felid fans of any stripe (or spot).

**The Language of Cats and Other Felines** Alicia Z. Klepeis, 2016-07-15 From a kitten's purr to a lion establishing his dominance, communication is vital for felines of all shapes and sizes. This book explains the different ways cats communicate and what these messages mean for both house pets and cats in the wild.

**Dogs and Cats Hear Much, Much More!** Janet Marlow, 2010 In nature animals use their acute hearing for survival. Reacting to sound is part of pet behavior in the home as a family member. This is most obvious when your dog or cat runs to the kitchen at the first sound of the treat jar opening! While your child is learning responsibility of how to care for their pet, the information in this book will help your child learn about science, inventors, and the language of music. Understanding their dog or cat with this awareness enhances empathy, responsibility and care for another being, opening the hearts of children in the most natural way. Janet Marlow is an international pet expert, author and composer. She is dedicated to the understanding of the affects of sound and music on humans and animals. She is the author of *Zen Dog* (Barnes & Noble) and co-founder of the company, Pet Acoustics. My friend, Janet Marlow, knows more about the hearing and hearts of dog and cats, more than anyone I know. I pay close attention to whatever Janet says and now, with her wonderfully informative book, you can, too. Mary Pope Osborne, Author of *The Magic Tree House Series*
