Panwar,Yashpal Singh Malik

**Empowering India Through Digital Literacy (Vol. 1)** Dr. R. Babu, Dr. S. Kalaivani & Dr. K. Saileela,

**Project Animal Farm** Sonia Faruqi, 2015-07-15 Sonia Faruqi had an Ivy League degree and a job on Wall Street. But when the banking industry collapsed, she found herself on a small organic dairy farm that would change her life for the better, although it didn't seem that way in the beginning. First, she had to come to grips with cows shocked into place, cannibal chickens, and free range turkeys that went nowhere. But there were bright lights as well: happy, frolicking calves on a veal farm, and farmers who cared as much about the animals as their pocketbooks. What started as a two-week volunteer vacation turned into a journey that reached into the darkest recesses of the animal agriculture industry. Surrounded by a colorful cast of characters, Faruqi's quest to discover the truth about modern agribusiness took her around the world. Lively, edgy, and balanced, *Project Animal Farm* sheds light on the international agribusiness, with the ultimate goal of improving the lives of farm animals here at home. Using her finance background to forecast the future of agriculture, Faruqi discusses the changes we need to make—using our forks and our votes.

**Biotechnological Interventions Augmenting Livestock Health and Production** Chandra Sekhar Mukhopadhyay, Ratan Kumar Choudhary, Harsh Panwar, Yashpal Singh Malik, 2023-10-24 This book comprehensively discusses the applications of molecular genetics, functional and structural genomics, and proteomics vis-a-vis bioinformatics, artificial intelligence, and robotics in livestock healthfulness and productivity. It reviews the biotechnological approaches in veterinary sciences for increasing productivity and resistance to disease. The book emphasizes the approaches based on artificial intelligence to analyze the data collected on animals, pathogens, and their environment. It underscores artificial intelligence applications in disease diagnosis, epidemiological studies, and detecting biological phenomena, including heat-detection, pregnancy, docility, and infections. Further, the book examines the genomics and proteomics approaches for understanding the gut microbiota and the role of pathogen-host interactions in animal health and disease. Lastly, it explores both pathogenic and non-pathogenic microbial transfer between humans, animals, and the environment across one health spectrum. □

**Smart and Sustainable Food Technologies** Shalini Sehgal, Barinderjit Singh, Vasudha Sharma, 2022-05-13 This book presents a comprehensive view of emerging smart technologies in various food processing sectors. Specifically, it covers smart technologies applied in food production, food manufacturing, food packaging, storage, distribution, and food supply chain. Contributing authors are the key scientists with diverse backgrounds in either industry or academia. The book contains four parts with four chapters each, presenting recent smart technologies developed in their respective areas. Part I primarily focuses on the recent smart food production innovations such as precision agriculture, vertical farming, automation, robotics, livestock technology, modern greenhouse practices, artificial intelligence, and block chain that dramatically increase the quality of raw materials for the food industry. Part II provides the current knowledge and developments related to the recent smart technologies in manufacturing pertaining to various food sectors, non-thermal food preservation technologies, and 3D printing, developed for the food manufacturing industries that improve the organoleptic

and nutritional quality, enhance chemical and microbial safety, as well as cost-effectiveness and convenience of processed foods. Part III covers smart technologies to ensure food safety in the supply chain, with monitoring and surveillance of food contamination, use of IoT and blockchain for food traceability and neural network approach for risk assessment. Part IV provides expert opinions on using smart technologies for minimizing waste and maximizing co-product recovery in food processing; upcycling technologies in food and sustainable value stream mapping in the food industry. This book will be a useful resource to graduate/undergraduate students and researchers in advanced food technology, practicing technologists/engineers in the food and related industries, food packaging industry, entrepreneurs and other scientists and technologists in smart and sustainable processes who seek information on design and development of these processes.

*Small Cattle for Small Farms* Margo Hayes,2016-01-21 Small cattle breeds are manageable to control and care for and perfect for lifestyle blocks and small farms. They can be bred commercially for beef but their docile temperaments and small size also make them especially suitable for hobby farms. As more people have turned to the country for a 'tree change', interest in these breeds has grown tremendously. In this new edition of her popular book *Small Cattle for Small Farms*, award-winning cattle breeder Margo Hayes provides practical and easy-to-understand information for people interested in keeping small cattle for a range of reasons. The book assumes no prior experience with cattle and covers all the basics to help you set up an enjoyable and viable small farm, including: types of cattle and production systems available, how to select your stock, explanations of equipment required and basic cattle husbandry. It contains simple explanatory diagrams and photographs to make new concepts clear. With new and expanded sections on small cattle breeds, genetics and breeding systems, this second edition competently addresses questions asked by those entering small farming for the first time while providing a solid reference for those already in the industry. Detailed guidelines for raising healthy cattle through good nutrition, land management and herd monitoring are provided, in addition to tips for showing and marketing your cattle and up-to-date government requirements for land and stockowners.
