Twisty Little Passages Nick Montfort,2005-02-11 A critical approach to interactive fiction, as literature and game. Interactive fiction—the best-known form of which is the text game or text adventure—has not received as much critical attention as have such other forms of electronic literature as hypertext fiction and the conversational programs known as chatterbots. *Twisty Little Passages* (the title refers to a maze in *Adventure*, the first interactive fiction) is the first book-length consideration of this form, examining it from gaming and literary perspectives. Nick Montfort, an interactive fiction author himself, offers both aficionados and first-time users a way to approach interactive fiction that will lead to a more pleasurable and meaningful experience of it. *Twisty Little Passages* looks at interactive fiction beginning with its most important literary ancestor, the riddle. Montfort then discusses *Adventure* and its precursors (including the *I Ching* and *Dungeons and Dragons*), and follows this with an examination of mainframe text games developed in response, focusing on the most influential work of that era, *Zork*. He then considers the introduction of commercial interactive fiction for home computers, particularly that produced by Infocom. Commercial works inspired an independent reaction, and Montfort describes the emergence of independent creators and the development of an online interactive fiction community in the 1990s. Finally, he considers the influence of interactive fiction on other literary and gaming forms. With *Twisty Little Passages*, Nick Montfort places interactive fiction in its computational and literary contexts, opening up this still-developing form to new consideration.

Sharp North Patrick Cave,2006-04-11 In a futuristic world, Great Families rule Britain through a caste system where reproduction is seriously restricted, while the families keep illegal clones or spares of themselves.

Collaborations Richard Allen Cave,2011 W.B. Yeats's invitation to Ninette de Valois to come to Dublin and help him stage his plays for dancers and to found a School of Ballet at the Abbey Theatre have been known facts for many years, not least from de Valois' own autobiographies. *Collaborations* is the first detailed study of the creative relationship of poet and dancer that resulted, which lasted from 1927 to 1934. Their meeting at the Festival Theatre in Cambridge, a remarkable venture in experimental staging run by Terence Gray, de Valois' cousin, had a profound impact on her subsequent work with Yeats. Gray promoted the expressionist style in terms of design and movement, for which de Valois devised the choreography, and it was a similar style that Yeats encouraged her to pursue in mounting his own plays. Four productions were achieved: *Fighting the Waves*, *The Dreaming of the Bones*, *At the Hawk's Well* and *The King of the Great Clock Tower*. This study is divided into two parts: the first investigates what precisely de Valois learned from her association with Terence Gray at the Festival Theatre and the nature of her achievements there; the second looks at how this preparation bore special fruit in her roles as performer and choreographer at the Abbey Theatre and why these four productions were for Yeats the most satisfying staging of his dance plays in his lifetime. Their success as collaborators grew from the deep respect each sustained for the integrity of the other's artistry. Yeats is often viewed as dictatorial in his handling of theatre practitioners and personnel, but this view needs to be revised in light of the creative freedom he gave to de Valois, who rapidly became for him the ideal exponent and embodiment of the dance. In this volume what is opened up and extensively illustrated for scholars is a whole new chapter of theatre and dance history, which documents the successful creating of a bridge between these two disciplines. Throughout, the focus of the discussion is on performance. Richard Allen Cave is Professor Emeritus in Drama and Theatre Arts at Royal Holloway, University of London, where he taught from 1984 to 2008. He has published extensively in the fields of Renaissance Theatre (Jonson, Webster, Brome, Shakespeare), Modern English and Irish Theatre (Wilde, Yeats, T.C. Murray, McGuinness, Friel) and in dance and movement studies. Professor Cave is also a trained Feldenkrais practitioner, who works on vocal techniques with professional actors and on extending movement skills with performers in physical theatre.

Gamer Theory McKenzie Wark,2009-06-30 Ever get the feeling that life's a game with changing rules and no clear sides? Welcome to gamespace, the world in which we live. Where others argue obsessively over violence in games, Wark contends that digital computer games are our society's emergent cultural form, a utopian version of the world as it is. *Gamer Theory* uncovers the significance of games in the gap between the near-perfection of actual games and the imperfect gamespace of everyday life in the rat race of free-market society.

Ready To Run Kelly Starrett,2014-10-21 In a direct answer to the modern runner’s needs, Dr. Kelly Starrett, author of the bestseller Becoming a Supple Leopard: The Ultimate Guide to Resolving Pain, Preventing Injury, and Optimizing Athletic Performance, has focused his revolutionary movement and mobility philosophy on the injury-plagued world of running. Despite the promises of the growing minimalist-shoe industry and a rush of new ideas on how to transform running technique, more than three out of four runners suffer at least one injury per year. Although we may indeed be “Born to Run,” life in the modern world has trashed and undercut dedicated runners wishing to transform their running. The harsh effects of too much sitting and too much time wearing the wrong shoes has left us shackled to lower back problems, chronic knee injuries, and debilitating foot pain. In this book, you will learn the 12 standards that will prepare your body for a lifetime of top-performance running. You won’t just be prepared to run in a minimalist shoe-you’ll be Ready to Run, period. In Ready to Run, you will learn:

- The 12 performance standards you must work toward and develop on an ongoing basis
- How to tap into all of your running potential and access a fountain of youth for lifelong running
- How to turn your weaknesses into strengths
- How to prevent chronic overuse injuries by building powerful injury-prevention habits into your day
- How to prepare your body for the demands of changing your running shoes and running technique
- How to treat pain and swelling with cutting-edge modalities and accelerate your recovery
- How to equip your home mobility gym
- A set of mobility exercises for restoring optimal function and range of motion to your joints and tissues
